CONSOLIDATED FINANCIAL STATEMENTS AND
INDEPENDENT AUDITORS' REVIEW REPORT
JUNE 30, 2020 AND 2019**

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

INDEPENDENT AUDITORS' REVIEW REPORT TRANSLATED FROM CHINESE

Introduction

We have reviewed the accompanying consolidated balance sheets of Formosa Taffeta Co., Ltd. and subsidiaries (the "Group") as at June 30, 2020 and 2019, and the related consolidated statements of comprehensive income for the three months and six months then ended, as well as the consolidated statements of changes in equity and of cash flows for the six months then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Statement of Auditing Standards No. 65, "Review of Financial Information Performed by the Independent Auditor of the Entity" in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As explained in Notes 4(3) and 6(6), the financial statements of certain insignificant consolidated subsidiaries and investments accounted for using the equity method were not reviewed by independent auditors. Those statements reflect total assets (including investments accounted for using the equity method) of NT\$19,858,477 thousand and NT\$22,104,454 thousand, constituting 26% and 23% of the consolidated total assets, and total liabilities of NT\$5,012,165 thousand and NT\$6,037,158 thousand, constituting 25% and 26% of the consolidated total liabilities as at June 30, 2020 and 2019, respectively, and total comprehensive income (including share of profit of associates accounted for using the equity method and share of profit of associates and other comprehensive income of associates) amounting to NT\$111,084 thousand, NT\$204,297 thousand, NT\$128,325 thousand and NT\$308,203 thousand, constituting 3%, 123%, (4%) and 9% of the total comprehensive income for the three months ended June 30, 2020 and 2019, and six months ended June 30, 2020 and 2019, respectively.

Qualified Conclusion

Except for the adjustments to the consolidated financial statements, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries been reviewed by independent auditors, that we might have become aware of had it not been for the situation described above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at June 30, 2020 and 2019, and of its consolidated financial performance for the three months and six months then ended and its consolidated cash flows for the six months then ended in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and International Accounting Standard 34, “Interim Financial Reporting” as endorsed by the Financial Supervisory Commission.

Emphasis of matter – Disposal of partial equity in Formosa Advanced Technologies Co., Ltd.

As stated in Note 6(6) of the 2019 consolidated financial statements, the Company's Board of Directors during its meeting on December 13, 2019 resolved to dispose the Company's 16% equity interest in Formosa Advanced Technologies Co., Ltd. The equity transfer procedure was completed on December 16, 2019. After the disposal, the Company lost its control over Formosa Advanced Technologies Co., Ltd. Our opinion is not modified in respect of this matter.

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted are consistent with Note 4 in the consolidated financial statements for the year ended December 31, 2019, except for the compliance statement, basis of preparation, basis of consolidation and additional policies as set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

- A. The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Accounting Standard 34, 'Interim financial reporting' as endorsed by the FSC.
- B. The consolidated financial statements are to be read in conjunction with the consolidated financial statements for the year ended December 31, 2019.

(2) Basis of preparation

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
 - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Financial assets at fair value through other comprehensive income.
 - (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or

complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

The basis for preparation of the consolidated financial statements is the same with the consolidated financial statements as of and for the year ended December 31, 2019.

B. Subsidiaries included in the consolidated financial statements:

(4) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation

at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized past service costs. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates government bonds (at the balance sheet date) instead.

- ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and recorded as retained earnings.
- iii. Past service costs are recognized immediately in profit or loss.
- iv. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. Also, the related information is disclosed accordingly.

C. Employees' bonus and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution

(5) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognized directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by

the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

D. Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred income tax assets are reassessed.

E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.

F. A deferred tax asset shall be recognised for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

G. The interim period income tax expense is recognized based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

There was no significant change during this period. Please refer to Note 5 to the consolidated financial statements as of and for the year ended December 31, 2019 for related information.

(15) Pensions

A.(a)The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contribute monthly an amount equal to 12% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned employees pension reserve account by December 31, every year. If the account balance is not enough to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contribution for the deficit by next March.

(b)For the aforementioned pension plan, the Group recognized pension costs of \$5,480, \$7,257, \$10,962 and \$14,514 for the three months ended June 30, 2020 and 2019, and six months ended June 30, 2020 and 2019, respectively.

(c)Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2021 are \$70,751.

B.(a)Effective July 1, 2005, the Company and its domestic subsidiaries have established defined contribution pension plans (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

- (b) The Company's Mainland China subsidiaries, Formosa Taffeta (Zhong Shan) Co., Ltd., Formosa Taffeta (Changshu) Co., Ltd., and Xiamen Xiangyu Formosa Import & Export Trading Co., Ltd., have defined contribution plans. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on a certain percentage of the employees' monthly salaries and wages. The contribution percentage was between 10% and 20%. Other than the monthly contributions, the Group has no further obligations.
- (c) The Company's subsidiaries, Formosa Taffeta Vietnam Co., Ltd. and Formosa Taffeta (Dong Nai) Co., Ltd., have defined contribution plans. Contributions of social security to an independent fund administered by the government in accordance with the pension regulations of local governments are based on certain percentage of employees' salaries and wages. Other than the monthly contributions, the Group has no further obligations.
- (d) Formosa Taffeta (Hong Kong) Co., Ltd. and Schoeller FTC (Hong Kong) Co., Ltd. have defined contribution plans whereby contributions are made to the mandatory provident fund based on a percentage of the employees' salaries and wages as full-time employees' pension benefit.
- (e) Formosa Taffeta (Cayman) Co., Ltd. does not have a pension plan, and is not required to have one under local regulations.
- (f) The pension costs under the defined contribution pension plans of the Group for the three months ended June 30, 2020 and 2019, and six months ended June 30, 2020 and 2019 were \$26,627, \$37,674, \$51,771 and \$74,913, respectively.

(16) Share capital

- A. As of June 30, 2020, the Company's issued capital was \$16,846,646, consisting of 1,684,665,000 shares of common stock, with a par value of \$10 per share.
- B. For the six months ended June 30, 2020 and 2019, changes in the number of treasury stocks are as follows (in thousands of shares):

C.The abovementioned treasury stocks were acquired by the subsidiary, Formosa Development Co., Ltd., for investment purposes.

(17) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(18) Retained earnings

- A. According to the R.O.C. Securities Exchange Law No. 41, a company should reserve the amount equal to any valuation or contra-account in the stockholders' equity in the fiscal year from the net income and prior unappropriated earnings as special reserve. If the valuation or contra-account in stockholders' equity belongs to prior periods, the same amount from prior period earnings should be considered special reserve and cannot be distributed. The special reserve includes: i) reserve for special purposes, ii) investment income recognised under the equity method, iii) net proceeds from the recognition of financial asset transactions; only when the accumulated value decreases should the special reserve be adjusted by the same amount, subject to the provisions in this section; and iv) other special reserves set out by legal provisions.
- B. The Company's dividend policy is summarized below:
As the Company operates in a volatile business environment and is in the stable growth stage, the dividend policy includes cash dividends, stock dividends and capital increase by earnings recapitalization. At least 50% of the Company's distributable earnings shall be appropriated as dividends after deducting the legal reserve and special reserves. The Company would prefer distributing cash dividends. However, if significant investment measures are taken or the Company's financial structure needs to be improved, part of the dividends would be in the form of stock dividends but not to exceed 50% of the total dividends.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. The appropriations of 2019 and 2018 earnings had been resolved at the stockholders' meeting on June 19, 2020 and June 20, 2019, respectively. Details are summarized below:

	2019 earnings		2018 earnings

(3) Contingencies - Significant lawsuit

A. In August 2019, Taiwan Cooperative Bank Ltd. and DBS Bank (Taiwan) Ltd. filed a complaint against the Company and the subsidiary, Formosa Taffeta Dong Nai Co., Ltd, alleging that several employees of the Company and Formosa Taffeta Dong Nai Co., Ltd., instead of making the truthful representations during the credit assessment procedures, cooperated with New Site Industries Inc. and New Brite Industries Inc. to conduct false statements and provide misleading information with regard to the fact that New Site Industries Inc. and New Brite Industries Inc. owned the accounts receivable due from the Company and Formosa Taffeta Dong Nai Co., Ltd., thereby causing losses to the plaintiffs. As a result, the plaintiffs alleged that the Company and Formosa Taffeta Dong Nai Co., Ltd. shall be liable for the losses incurred due to poor supervision. The Company and Formosa Taffeta Dong Nai Co., Ltd. have appointed a legal counsel to represent them. Based on the opinion of the legal counsel, the ultimate outcome of this litigation is not presently determinable as the case is still in oral arguments proceedings, and no evidence investigation or substantive trial has been conducted.

B. In August 2019, O-Bank Co., Ltd. filed a complaint against the Company. Several employees of the Company, instead of making the truthful representations during the credit assessment procedures, cooperated with New Site Industries Inc., New Brite Industries Inc., Highlite Industries, Inc. and Loomtech Industries Inc. (together referred herein as New Brite Group) to conduct false statements and provide misleading information with regard to the fact that New Site Industries Inc. and New Brite Industries Inc. owned the accounts receivable due from the Company, thereby causing losses to the plaintiffs. As a result, the plaintiffs alleged that the Company shall

be liable for the losses incurred due to poor supervision. The Company has appointed a legal counsel to represent them. Based on the opinion of the legal counsel, the ultimate outcome of this litigation is not presently determinable as the case is still in the course of debate process.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

None.

12. OTHERS

(1) The Group's operating revenue for the first half of 2020 was 20% lower compared with the same period in 2019. Such decline was driven by the COVID-19 pandemic, resulting in a sluggish global economy and the reduction and the cancellation of major sporting events. In addition, the demand in the overall consumer market decreased due to the COVID-19 pandemic, but there was no significant effect on the Group's financial position and assets impairment because the operating profit margin in the second quarter of 2020 was the same with the operating profit margin in the second quarter of 2019 and the Group has a sound financial structure.

(2) Capital management

There was no significant change during this period. Please refer to Note 12 to the consolidated financial statements as of and for the year ended December 31, 2019 for related information.

(3) Financial instruments

B. Financial risk management policies

- (a) The Group's activities expose it to a variety of financial risk: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The financial risk management policies of the Group focus on unpredictable factors in financial market, and aim to reduce unfavorable impact on financial position and financial performance.
- (b) Risk management is carried out by a central treasury department under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

Price risk

- i The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and available-for-sale financial assets. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- ii. The Group's investments in equity securities comprise shares, open-end funds and beneficiary certificates issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the six months ended June 30, 2020 and 2019 would have increased/decreased by \$5 and \$5,563, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$372,433 and \$506,052, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. During the six months ended June 30, 2020 and 2019, the Group's borrowings at variable rate were denominated in the NTD and USD.
- ii. The Group's borrowings are measured at amortized cost. The borrowings are periodically contractually repriced and to that extent are also exposed to the risk of future changes in market interest rates.
- iii. If the borrowing interest rate of NTD dollars had increased/decreased by 1% with all other variables held constant, profit, net of tax for the six months ended June 30, 2020 and 2019 would have decreased/increased by \$51,200 and \$63,200, respectively. The main factor is that changes in interest expense result from floating rate borrowings.
- iv. If the borrowing interest rate of USD dollars had increased/decreased by 1% with all other variables held constant, profit, net of tax for the six months ended June 30, 2020 and 2019 would have decreased/increased by \$236 and \$988, respectively. The main factor is that changes in interest expense result from floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. The Group manages its credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with good rating are accepted. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- iii. The Group adopts the following assumption under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- iv. The Group adopts the assumption under IFRS 9, that is, the default occurs when the contract payments are past due over 90 days.
- v. The Group classifies customer's accounts receivable and contract assets in accordance with product types and customer types. The Group applies the simplified approach using provision matrix to estimate expected credit loss under the provision matrix basis.
- vi. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.
- vii. The Group uses the forecastability of National Development Council Business Cycle Indicator to adjust historical and timely information to assess the default possibility of notes receivable, accounts receivable and contract assets. On June 30, 2020, December 31, 2019 and June 30, 2019, the provision matrix is as follows:

	Up to 30	31~90 days	Over 90		
	Not past due	days past due	past due	days past due	Total
<u>At June 30, 2020</u>					
Expected loss rate	0%	4%	64%	100%

	Not past due	Up to 30 days past due	31~90 days past due	Over 90 days past due	Total
<u>At June 30, 2019</u>					
Expected loss rate	0%	7%	26%	80%	
Total book value	\$ 4,686,347	\$ 235,050	\$ 65,371	\$ 31,090	\$ 5,017,858
Loss allowance	12,751	16,610	17,158	24,786	71,305

- viii. Movements in relation to the Group applying the simplified approach to provide loss allowance for notes receivable, accounts receivable and contract assets are as follows:

	2020	
	Notes receivable	Accounts receivable
At January 1	\$ -	(\$ 63,235)
Effect of foreign exchange	-	805
At June 30	\$ -	(\$ 62,430)

	2019		
	Notes receivable	Accounts receivable	Contract assets
At January 1	\$ -	(\$ 71,033)	\$ -
Effect of foreign exchange	-	(272)	-
At June 30	\$ -	(\$ 71,305)	\$ -

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance and compliance with internal balance sheet ratio targets.
- ii. Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Group treasury. Group treasury invests surplus cash in interest bearing current accounts, time deposits, commercial paper and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to

provide sufficient headroom as determined by the abovementioned forecasts. As at June 30, 2020, December 31, 2019 and June 30, 2019, the Group held money market position of \$39,758,781, \$45,081,174 and \$54,804,622, respectively, that are expected to readily generate cash inflows for managing liquidity risk.

- iii. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities.

	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>More than 5 years</u>
Long-term borrowings (including current portion)				
June 30, 2020	\$ 59,101	\$ 4,229,550	\$ 2,200,000	\$ -
December 31, 2019	59,891	4,259,892	2,200,000	-
June 30, 2019	99,523	7,761,757	261,757	-
Lease liability				
June 30, 2020	\$ 139,792	\$ 125,071	\$ 264,251	\$ 313,612
December 31, 2019	130,043	106,487	232,019	381,246
June 30, 2019	125,918	121,756	273,426	326,335

- (d) The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(4) Fair value estimation

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks and beneficiary certificates with quoted market prices is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in some unlisted stocks and most derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment

in equity investment without active market is included in Level 3.

B. Financial instruments not measured at fair value

The carrying amounts of cash and cash equivalents, notes receivable (including related parties), accounts receivable (including related parties), other receivables, short-term borrowings, short-term bills payable, notes payable (including related parties), accounts payable (including related parties), other payables and long-term borrowings (including current portion) are approximate to their fair values.

C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques such as current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including applying a model using market information available at the consolidated balance sheet date.

iii. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.

iv. The Group takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.

D. For the six months ended June 30, 2020 and 2019, there was no transfer between Level 1 and Level 2.

G. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at June 30, 2020	Valuation technique	Significant unobservable input	Relationship of inputs to fair value
Non-derivative equity instrument:				
Unlisted shares	\$ 506,465	Market comparable companies	Price to earnings ratio multiple, price to book ratio multiple, enterprise value to operating income ratio multiple, enterprise value to EBITA multiple, discount for lack of marketability	The higher the multiple and control premium, the higher the fair value; the higher the discount for lack of marketability, the lower the fair value
	2,665,680	Net asset value	Not applicable	Not applicable
	Fair value at December 31, 2019	Valuation technique	Significant unobservable input	Relationship of inputs to fair value
Non-derivative equity instrument:

	5,195,504	Net asset value	Not applicable	Not applicable

H. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of other comprehensive income from financial assets and liabilities categorized within Level 3 if the inputs used to valuation models have changed:

14. SEGMENT INFORMATION

(1) General information

A. The Group operates and sets policies from product and service perspective; thus, management also identifies reportable segments using the same method.

B. The Group has four reportable segments: First business group, Second business group consisting of Cord fabric department, Gasoline department and FORMOSA ADVANCED TECHNOLOGIES CO., LTD. (FATC) department. Details are as follows:

(a) First business group: Mainly produces and sells woven, dyeing and finishing products and manages plants of overseas subsidiaries—FORMOSA TAFFETA (ZHONG SHAN) CO., LTD., FORMOSA TAFFETA VIETNAM CO., LTD. and FORMOSA TAFFETA (HONG KONG) CO., LTD, etc.

(b) Cord fabric department: Mainly produces and provides tire cords.

(c) Gasoline department: Mainly operates gasoline stations, sells gasoline and provides car washing.

(2) Measurement of segment information

The measurement based on each operating segment's profit before tax excludes the effects of non-recurring expenditure, i.e. from the unrealized gain or loss on financial instruments. Furthermore, interest income and expense are not allocated to operating segments.
