IX. Financial statement	
Formosa Taffeta Co., Ltd. and subsidiaries consolidated financial statements.....	195
Formosa Taffeta Co., Ltd. Parent company only financial statements	289

I.Report to shareholders

A. 2023 Business Performance

The Company's consolidated revenue dropped by 17.92%, from NT\$ 34,722.66 million in 2022 to NT\$ 28,501.51 million in 2023, a decrease of NT\$ 6,221.15 million, with consolidated pretax profit reducing by 85.13%, from NT\$ 3,706.21 million in 2022 to NT\$ 550.96 million in 2023, a decrease of NT\$ 3,155.25 million.

In 2023, despite subsidence of the pandemic and resumption of global travel and outdoor activities, the world was still overshadowed by inflation, geopolitical conflict and unclear business outlook, dampening consumers' purchasing power and confidence index, which led to sluggish demand on the end consumption market, continuing high inventory in industrial supply chain, and thus curtailing branded customers' purchasing momentum.

Faced with stiff challenges quarter after quarter, the company adjusted product mix timely, employed environment-friendly materials and new processing technologies, in response to global demand for low-carbon textiles, to develop environment-friendly niche functional products, flexibly deployed the advantage of the five factories in Taiwan, China, and Vietnam, strengthened strategic collaboration with branded customers, and consolidated supply chain, alleviating the adverse impact on the company's operation.

B. 2024 The company's business plan summary, company development strategy in future, Influenced by the external competition environment, regulatory environment and overall business environment.

(A) Filament woven fabrics:

There are four end markets for the company's filament woven fabrics: sportswear, outdoor performance wear, casual wear, and umbrella. In 2023, the inflation put a damper on consumers' spending willingness and demands on the apparel markets in the U.S. and Europe, blocking inventory reduction. Despite the demands upturn, thanks to branded customers' continuous promotional sales campaigns and adjustment of inventory levels, overall purchasing power remained sluggish.

In 2024, although the uncertain factors in the global market remain, the alleviation of inflation and holding of Olympics and soccer matches will boost demands on apparel markets and return branded customers' inventories to healthy level. Orders are still expected to pick up.

The company continues deepening strategic partnership with branded customers, integrating product operating platforms, actively pushing applications on the three end markets of sportswear, outdoor performance wear, and casual wear, developing differentiated products with high added value, so as to augment market competitiveness, and utilizing the advantages of the five factories in Taiwan, China, and Vietnam in line with the supply-chain integration strategy to shorten delivery time, plus introduction of AI and automated equipment to enhance production efficiency and lower failure cost, thereby attaining the 2024 business target and consolidating the company's leading position in the woven fabric market.

(B) Tire cord fabric

To cope with port congestions during the pandemic, tire manufacturers and dealers placed excessive orders to sustain sales, leading to pseudo market demands and increasing raw-material and tire inventories. With inflation dampening demands on the end market, inventory level stayed high in 2023, as a result of which equipment utilization rate of the tire industry remained low, ranging only 30-50%, especially in the high-end bike tire sector, which eroded the profits of tire cord fabric.

In 2024, inventory reduction will still be the priority task on the global tire cord fabric market in the first half, before expected gradual recovery of market demands in the second half. The Tire Cord Business Division will develop various tire cord fabrics with high added value and environment-friendly tire cord fabric using ocean-recycled PA6, along with active market promotion. Sales of environment-friendly tire cord fabric are expected to pick up starting from the second quarter, following passage of tests by major international bike and tire manufacturers.

(C) Gas station

As of the end of 2023, Formosa Petroleum Station had had 105 gas stations, making it the fifth largest gas-station brand in Taiwan, thanks to its effort in services, marketing, and management over the past years. Formosa Petroleum Station still managed to remain profitable, despite high oil prices, inflation, and competition from new energy cars.

In 2024, Formosa Petroleum Station will continue evaluating individual station's performance and lease duration. In addition, given fluctuation in international oil prices, the company will intensify control of oil-tank storage level flexibly. Effort will be intensified to increase the number of contracted customers. The number of gas stations with self-service, numbering 95 now, will be increased further, according to performance. Moreover, it will introduce plural payment methods, push sales of leisure and travel products and auto accessories via B2C channel and social media, and offer various training courses to station workers, in order to attain public safety, quality service, and standardized management, thereby creating a convenient and safe oil-filling and consumption environment for customers.

(D) Functional yarn

In 2023, due to demand shrinkage, caused by continuing inventory attrition, price decline of various short-fiber materials, and dropping demands of sportswear brand for dedicated composite yarns, sales decreased by 19.5% from 2022. To cope with rapid market changes, the company adjusted product mix flexibly, thereby enabling the factory to run at full capacity and keeping full sales, plus rigorous control of production cost. Although the profit dropped by 73.3% from 2022, remains profitable.

In 2024, with effort of branded customers for inventory reduction nearing its end, market demands will recover gradually. Given continuing optimization of product mix and stable sales growth of industrial protective products, sales and profits are expected to grow in the year.

(E) Special fabrics

In 2023, sales of medical fabric decreased with end of the pandemic, and anti-static fabric remained flat; however, demands for flame-retardant petroleum work clothes picked up, Aramid fabric was successfully sold to the market, including bid for military clothes in Europe, sales of clean-room clothes increased, due to expansion of semiconductor plants, and sales of KEVLAR

fabric for use as reinforced ship material, rubber base fabric, and prepreg fabric for bullet-proof helmets all picked up. The sales grew by 3% from 2022.

In 2024, in response to customers' demands and market trend, flame-retardant fabric for petroleum work clothes adding flexibility will hit the market and demands for anti-germ and anti-static electricity fabric will increase. The company will strive to win bids for work clothes and servicemen and policemen uniforms, tap the markets for multi-function flame-retardant fabric at low- and medium-price level, and cut production cost via strategic collaboration with material suppliers, in order to attain the 2024 business performance target.

(F) Carbon-fiber composite material

In 2023, when excessive order placement by bike and sports-equipment manufacturers resulted in high inventories and robotic arm- and mining vehicle-related demands with high added value had yet to resume pre-pandemic level, sales were sustained by demands related to ships and yachts, drones, autos, and reinforced materials for architectural structures, via collaboration with dealers. The sales decreased by 38% from 2022.

In 2024, in line with market demands, the company will collaborate with resin manufacturers in developing general-purpose resin prepreg fabric and with bike manufacturers in testing new resins, with an eye on future orders. In addition, the company keeps tapping the Chinese and Southeast Asian market further, and continue developing special fabrics and engaging in tests for prepreg fabrics, along with major customers, in order to augment product competitiveness. Meanwhile, having passed third-party certification, the company expects to land orders for multi-axis fabric from domestic and overseas yacht manufacturers and will endeavor to expand share of exports, by meeting customers' various needs and intensifying new product development and market applications.

(G) Plastic bag

In 2023, by focusing on shipment to the high-margin Japanese market, supplemented with orders from the American market, the company's factory was running at full capacity. Sales grew by 4.2% from 2022.

In 2024, the company expects to boost profit level, via strategic order reception, flexible maneuvering of capacities, attention on changes in material costs and exchange rates, and rigorous control of production cost.

In 2024, faced with the ever changing challenges in the global economy, the company will adjust its pace timely, consolidate supply-chain relationship and utilize the advantages of the three factories in Taiwan, China, and Vietnam, developing differentiated products with high added value at the Taiwan factory, while assuring sufficient capacities at overseas factories, so as to shorten delivery time and win customer trust.

In addition, the company will take advantage of AI technology, optimize production flow, intensify sustainability competitiveness, while, in line with global carbon abatement current, pushing equipment renovation and energy-conservation, emission-reduction measures and, in collaboration with supply-chain partners, utilizing recyclable regenerated materials and developing environment-friendly products, so as to create plural values and march towards the vision of low-carbon sustainability.

In 2024, the company will strive to meet the challenge of attaining the performance targets quarter after quarter, in order to offer shareholders good investment returns and attain continuing growth, so as to fulfill corporate social responsibility and march towards sustainable development.

II. Company profile

A. Incorporation date

April 19, 1973

B. Company history

Founded by Formosa Chemicals & Fibre Corp. and a few of business figures from Changhua County, Taiwan, the Company was incorporated on April 19, 1973, initially named "Formosa Fiber Co., Ltd.," for engagement in the weaving, dyeing, finishing, and printing of polyamide and polyester filament woven taffeta fabric. Renamed as Formosa Taffeta Co., Ltd. in Jan. 1979, the company was listed in Dec., 1985 on Taiwan Stock Exchange, which has been enlarged in subsequent years, via several capital increments with earnings to fund business diversification. The company's registered capital reached NT\$16,846,646,370 since August, 2006. Major products cover filament polyamide/polyester dyeing-and-finishing fabric, fabrics for down-proof jacket, water-proof with vapor permeable fabric, composite organic fabric, multi-function smart temperature-control fabric, umbrella fabric, staple woven/ knitted yarn, tire cord, PE. bag, bullet/stab-proof fabric, flame-retardant fabric for military/police/firefighters, medical/ protective fabric, anti-static barrier for clean room garment/ anti-bacterial fabric, conductive fabric, carbon-fiber fabric and composite materials, and gas stations. Formosa Taffeta Co., Ltd. has become a world-class manufacturer, in terms of both production scale and quality, of polyamide and polyester filament woven fabric, notably in the fields of sportswear and outdoor functional clothes, progressing in sync with fashion and ESG current and the development of major international textile brands.

- 1972 Founders Wang, Yung-Chin; Wang Yung-tsai; Lai, Shu-Wang and Hsie Shih-ming formed a preparatory office for the establishment of factories producing chemical polyamide filament and polyester weaving fabric, dyeing and finishing, and printing.
- 1973 Approved by the Ministry of Economic Affairs, Formosa Fiber Co., Ltd. came into being, with Lai, Shu-wang as chairman of the Board and Hsie Shih-ming as president. Recruitment started in August, and the company sent the staff to Formosa Chemicals & Fibre Corp. and weaving machine company in Japan for internship. Ground was broken in Nov. for the construction of factories.
- 1974 Test run of factories in Sept.
- 1975 Official inauguration in Jan.
- 1977 Expansion of printing plant, for the production of flat and rotary printing fabric umbrella cloth.
- 1978 Expansion of 1st weaving fabric plant with addition of warping machine, sizing frame, beaming machine and weaving machine, making it an plant with integrated weaving operation.
- 1979 Approval for name change to Formosa Taffeta Co., Ltd. in Jan.; expansion of weaving fabric plant and 2nd dyeing and finishing plant, and establishment of umbrella ribs plant, doubling the output of taffeta fabric and diversifying operation with the addition of umbrella ribs plant.
- 1980 Construction of tire-cord plant with monthly capacity of 600 tons, leading to further diversification of the company's operation.
- 1981 Construction of new tire-cord plant, boosting total capacity to 14,400 ton/year, and

- expansion of the machinery equipment of umbrella ribs plant.
- 1982 Installation of automated equipment and capacity at dyeing and printing plant.
- 1983 Setup of 2nd weaving fabric plant, with annual capacity of 60 million yards of grey cloth for dressing materials.
- 1984 Setup of 3rd dyeing plant and PE bag Plastics Processing Plant.
- 1985 Setup of function-oriented units, for the first time ever, including 1st production division (for long-fiber fabric), business division, and 2nd production division (tire cord, umbrella ribs, and PE bag); expansion of the president's office, in charge of regular management works, instead of merely auditing and statistics works in the past; installation of first Oil and electricity cogeneration motors; share listing in Taiwan on Dec. 24, with IPO price set at NT\$19.5 per share, transforming the company into a public company, a milestone in the development of the company.
- 1986 Setup of financial division in July, investment in the construction short-fiber cotton spinning plant, cotton weaving plant, cotton dyeing plant featuring integrated operation, greatly boosting the scale of diversification via the blending of long- and short-fiber fabrics; expansion of printing equipment at 2nd dyeing plant of 1st production division and the equipment of 2nd weaving plant.
- 1987 Organizational reshuffle in May with setup of 1st, 2nd, and third business divisions, in place of original function-oriented production divisions and business division, pushing of profit-center system for business divisions, which are responsible for both production and marketing performance; installation of special processing machinery equipment and construction of warehouses for finished products.
- 1988 Construction of second set of waste treatment equipment and expansion of the machinery equipment of tire cord plant; registration of "Abletex" trademark for water-proof/moisture-vapor fabric, initiating multi-brand marketing.
- 1989 Setup of second set of oil and electricity cogeneration motors and PVA resin for weaving recycling system at cotton dyeing plant. Reshuffle of Hong Kong subsidiary in September, renamed as Formosa Taffeta (H.K.) Co., Ltd. in April, with paid-in capital of HK\$7 million, as the company's first overseas sales overseas office, mainly for reception of transshipment orders, taking over agency business in Hong Kong and Macao gradually, plus preparation for setup of factories in mainland China.
- 1990 Setup of first Automatic Storage System for gray and construction of an eight-story dormitory. Investment in the founding of Formosa Advanced Technologies Co., Ltd. with paid-in capital of NT\$200 million, in Hsinchu Science Park in Sept. for the production of cathode power supply components and molybdenum sheets, and investment in the founding of Formosa Development Co., Ltd. with paid-in capital of NT\$100 million, in Douliu City of Yunlin County for engagement in land rezoning and development.
- 1991 Installation of special fabric equipment, expansion of umbrella ribs plant equipment, and setup of fifth dyeing plant; setup of Xiamen representative's office by Hong Kong subsidiary, the company's first business establishment in mainland China, servicing Taiwanese umbrella firms in Fujian; actively assisting Formosa Plastics Group to obtain land dubbed the the nation's sixth naphtha cracking complex in the area of Mailiao township Yunlin county, including shallow-sea culture area.
- 1992 Acquisition of near 5% stake in Formosa Petrochemical Corp., following the latter's founding in April. Formation of committee for expansion of the 2nd plant premises in

Neilinduan of Yinlin County, expansion of the capacity of 2nd tire-cord plant premises by 1,300 tons/month, and setup of PVA resin for weaving recycling system at 2nd weaving fabric plant. In Oct. Founding of " F.T.C. INTERNATIONAL s.r.l " in COMO, Italy with paid-in capital of 1 billion liras, for engagement in cloth trading in Europe. In Dec., investment in the founding of three subsidiaries in Shenwan township, Zhongshan City of Guangdong Province in China. for production of tire cord (Syn-Formosa Textile Industrial Co.,Ltd.), chemical-fiber fabric (Syn-Formosa Textile (Zhong Shan) Co.,Ltd.), and umbrella ribs (Syn-Formosa Indusrtila (Zhong Shan) Co.,Ltd.), with initial total investment reaching US\$28.4 million, US\$28.4 million, and US\$3 million, respectively, and the registered capitals are US\$11.2 million, US\$11.2 million, and US\$2.1 million, respectively.

- 1993 Setup of Formosa (Xiamen) Drawing Co., Ltd. for engagement in drawing of patterns, including patterns for umbrella cloth and PE bag, as well as fabric trading.
- 1994 Change of umbrella ribs plant to steel coil processing plant; change of the registered investor of the three subsidiaries in Zhongshan City to Hong Kong subsidiary and increase of paid-in capital of one Formosa industrial(Zhongshan)Co.,Ltd. to US\$1.47 million to fund construction of plant, which started test run in Dec; founding of Xiamen Xiangyu Formosa Import & Export Trading Co., Ltd., with registered capital of US\$500,000, in Aug.; signing of ISO assistance plan with China Productivity Center for pushing ISO certification.
- 1995 Setup of textile industrial development center in Feb., putting under its auspices R&D staffers at various plants and departments, to intensify development of new fabrics and support business staffers in sales campaign. Acquisition of near 15% stake in Nanya Technology Corp. following its founding in March, before gradual drop to less than 1% over the past years. 3rd dyeing plant, sixth dyeing plant, and tire-core plant passing ISO9002 certification. Renaming of three Chinese subsidiaries (Syn-Formosa Textile Industrial Co.,Ltd.→ Formosa Chemical Fiber (Zhong Shan)Co.,Ltd.) along with cash capital increment of total investment of US\$1.64 million, with registered capital reaching US\$1.43 million, unbuilt factory; (Syn-Formosa Textile (Zhong Shan) Co.,Ltd. → Formosa Textile (Zhong Shan)Co.,Ltd.), with cash capital increment of total investment of US\$9.1 million, with registered capital reaching US\$4.75 million to fund plant construction, (Syn-Formosa Industrial (Zhong Shan) Co.,Ltd.→ Formosa Industrial (Zhong Shan)Co.,Ltd.) with two cash capital increments and registered capital totaling US\$2.25 million in scale, for mass production of umbrella ribs.
- 1996 Installation of 903 water-jet looms and other related new equipment at third section of 1st weaving fabric plant in Neilinduan; Moving of Formosa Advanced Technologies Co., Ltd. to Douliu City, along with its transformation into a plant with integrated operation, thanks to the installation IC assembly line, as well as capital reduction before capital increment to NT\$1 billion; mass production of silk cloth and umbrella cloth at the dyeing and finishing plant of Formosa Textile (Zhongshan) Co., Ltd.; mass production of umbrella ribs at Formosa Industrial (Zhongshan) Co., Ltd., with annual capacity reaching 7,200 tons.
- 1997 Installation of second automated storage system for gray and new dyeing machines, increasing capacities by 52.32 million yards/year. Acquisition of Formosa (Xiamen) Drawing Co., Ltd. by Xiamen Xiangyu Formosa Import & Export Trading Co., Ltd.

before write-off, with registered capital reaching US\$570,000.

- 1998 Following passing away of Lai Shu-wang, then chairman and a founder, at 90 in Feb., the board of directors elected Wong Wen-yuan to be the new chairman; completion of expansion project with 58.8 million yards/year in scale for processing plant; formation of petroleum business segment preparatory office; full-scale mass production of Polyamine fabric and polyester fabric by Formosa Textile (Zhong shan) Co., Ltd., furnished with 600 looms, featuring integrated operation for weaving, dyeing, and printing, and install two sets of generators; transfer of remaining equipment at steel coil processing plant to Formosa Industry (Zhong shan) Co., Ltd., boosting the latter's capacity to 14,400 tons/year. still retains part of its sales and service business for 3 years in Taiwan.
- 1999 Acquisition of Ruiyuan Vietnam Co., Ltd., a trouser fabric manufacturer, in Feb. before its transformation to Formosa Taffeta Vietnam Co., Ltd. in Long-An Province of Vietnam in June, with registered capital of US\$25 million, for engagement in the production of trouser fabric and dyed chemical-fiber fabric; formation of petroleum business division and setup of gas stations in Changyi Kuaikuan, and Chihsiang, marking foray into B2C retail business for the first time.
- 2000 Renaming of Formosa Textile (Zhongshan) Co., Ltd. to Formosa Taffeta (Zhong shan) Co., Ltd., in preparation for cross-line acquisition; passage of dividend payout policy by shareholders' meeting in June, calling for appropriation of at least 50% of earnings after deduction of legal provisions, compensations for directors and supervisors, and employee bonus for payout of dividends, half of which should be in the form of cash.
- 2001 Setup of Schoeller FTC (Hong Kong) Co., Ltd., as a 43:57 joint venture with Schoeller Textil AG of Switzerland, for engagement, Be the first one in Taiwan, in the production of electromagnetic shielding fabrics; Establishment of 21 new gas stations; cash capital of total investment of US\$ 30.3 million, with the registered capital of US\$12 million by Formosa Taffeta (Zhong shan) Co., Ltd., to fund installation of 605 looms and dyeing and finishing equipment at 2nd weaving fabric plant, which was recorded by the competent authority in July, 2002; cash capital increment of US\$14 million by Formosa Taffeta Vietnam Co., Ltd., to fund installation of 632 looms, along with warping machine, sizing machine, dyeing and finishing, water treatment equipment.
- 2002 Setup of 17 new gas stations, including that in Shetou; established a joint venture with Nan Ya Plastic Corp. and King Car Industrial Co., of Formosa Industries Corp., holding 10% stake; expansion in the development of plot of land and facilities for its plant in Nhon Trach industrial zone in Vietnam.
- 2003 To expand sources for orders for fabric from clothes brands, the company spent NT\$85 million to subscribe to 5 million new shares in the cash capital increment of Quang Viet Enterprise Co., Ltd., holding 24.49% stake; invitation for the company, the first among non-Japanese firms in Asia, to attend the Premiere Vision-Paris fair; installation of 14 new gas stations, including Nan Ya gas station; establishment of Shanghai representative's office by Formosa Taffeta (Zhong shan) Co., Ltd.; establishment of 12"-wafer assembly plant and module production line by Formosa Advanced Technologies Co., Ltd.
- 2004 Setup of oversea filament division in Feb., to oversee the operation of plant premises in China and Vietnam; installation 22 new gas stations, including Nankan gas station; investment in the establishment of Formosa Taffeta Dong Nai Co., Ltd., with registered

capital of US\$12 million, in Nhon Trach industrial zone 3 in Vietnam; installation of chafing-proof tire cord equipment, with annual capacity of 3,240 tons, at tire cord plant in Aug.; acquisition of Formosa Industrial (Zhong shan) Co., Ltd. and Formosa Chemical Fiber (Zhong shan) Co., Ltd. by Formosa Taffeta (Zhong shan) Co., Ltd. in Dec., whose total investment reached to US\$106.24 million, and the registered capital rose to US\$46.4 million subsequently.

- 2005 Funding for installation of 504 looms by Formosa Taffeta (Dong Nai) Co., Ltd. in Jan.; dismantling of 3rd business division in Feb., with its cotton weaving plant and cotton dyeing plant being taken over by 1st business division; capital increment by Formosa Taffeta (Hong Kong) Co., Ltd. in April before investment in the setup of Formosa Taffeta (Changshu) Co., Ltd., in China's Jiangsu Province, with registered capital of US\$18 million, for producing chemical-fiber dyeing-and-finishing fabric in may; setup of fifth production line at tire cord plant, with annual capacity of 13,200 tons; cash capital increment of US\$25 million by Vietnam subsidiary in Long An to fund installation of 320 looms, plus interlace warping machines and automated color-matching equipment; closure of F.T.C. international s.r.l.
- 2006 Cash capital increment of US\$10 million by Long An subsidiary, to fund installation of 120 looms, plus air compressors, boosting annual capacity of dyeing and finishing plant to 48 million yards and registered capital to US\$74 million; capital increment of US\$21 million by Formosa Development Co., Ltd., boosting its paid-in capital to US\$161 million; capital increment of US\$3 million by Dong Nai subsidiary, to fund installation of 125 looms; increase of the number of gas stations to 87.
- 2007 Reshuffle for the establishment of 3rd business division, overseeing spinning plant, special fabrics plant, and newly established carbon-fiber composite material plant; dismantling of oversea filament division, switch of subsidiaries in China and Vietnam to the jurisdiction of 1st business division of the parent company; dismantling of the Shanghai office of Zhong shan subsidiary in May; capital increment by Hong Kong subsidiary to fund setup of Formosa Taffeta Trading (Shanghai) Co., Ltd., with registered capital of US\$150,000, located at the same site of the former Shanghai office; eruption of the U.S. subprime mortgage crisis in the second half of July, triggering stock and futures market crash, promoting governments worldwide to cut interest rates to bolster market, boosting global oil price to over US\$100 per barrel, inducing price hike of grain and other raw materials, cutting gross margin of transportation and manufacturing industries, and leading to stagnation of major economies; with capital increment of total investment of US\$30 million, totaling to US\$136.24 million, whose fund was used to D&F Dept., with registered capital of US\$46.4 million by Zhong Shan Subsidiary; Formosa Advanced Technologies going public in Taiwan with paid-in capital increasing to NT\$4,422 million; revenue and profit in consolidated financial statement hitting record high for the fourth straight year.
- 2008 Incorporation of 3rd dyeing plant, fifth dyeing plant, and processing plant of 1st business division into 1st dyeing plant and 2nd dyeing plant in Jan.; QC Guarantee Group of president's office renamed as standard section in March; completion and gradual inauguration of third plant of Formosa Advanced Technologies in April, mass production of DDR3 with 70 nm process in August, and foray into mass production of LED gross dies, including grinding, cutting, spot check, and classification; capital increment of

US\$10 million by Dong Nai subsidiary, to fund setup of new dyeing and finishing plant, with annual capacity of 24 million yards, test run at the end of the year, leading integrated operation of weaving and dyeing; global oil price peaking at US\$147 per barrel before crash, triggering similar general price fluctuation, outbreak of Wall Street financial crisis in Sept., affecting manufacturing industries and dampening interest rates to near zero, which resulted in negative growth; passing away of founder Wang, Yung-Chin during a tour of the plant premises of Formosa Plastics Corp. USA in New Jersey, with various affiliates of Formosa Plastics Group retaining normal operation under established guidelines; TAIEX Index dropping below 4,000 and global oil price tumbling to the nadir of US\$40 per barrel; completion of the expansion of the capacity of fifth production line of tire cord plant by 13,200 tons/year in Dec., boosting total capacity to 56,400 tons; completion of upgrading of domestic ERP (enterprise resource planning) mainframe and management system at the end of the year.

- 2009 Execution of reorganization in Jan., including setup of 1st business group, overseeing weaving business division, dyeing and finishing business division, R&D center, and overseas weaving, dyeing and finishing plant premises; 2nd business group, overseeing tire cord business division, industrial materials business division (merger of original third business division and plastics processing plant), petroleum business division, and energy & civil construction division; setup of general management division, putting under its jurisdiction president's office, finance division, procurement department, administration department, and safety and hygiene office; slump of various global economic and trade indices to record low; capital increment of US\$9 million both by Hong Kong subsidiary in April and Changshou subsidiary in June; liquidation of F.T.C international s.r.l, provisions for impairment of assets of Nanya Technology Corp.; austerity measures, to cope with the impact of global financial tsunami and export decline, including cut on outlays and energy consumption, reduction of cost, expenses, and stock, and manpower contraction.
- 2010 Completion of new dyeing and finishing plant, with annual capacity of 24 million yards, of Dong Nai subsidiary; in response to the new situation after ASEAN-China Free Trade Agreements taking effect, cash capital increment of US\$11 million in April, to fund the construction of new tire cord plant, with annual capacity of 12,000 tons, plus expansion of 2nd weaving fabric plant at cost of US\$3.7 million; acquisition of 4.963% stake in Formosa Ha Tinh Steel Corp.; consolidated revenue reaching new high.
- 2011 Price hike of raw materials, notably gold, cotton, and CPL, due the effect of the Jasmine Revolution in Northern Africa and the Middle East and military friction between North and South Korea, with global crude-oil price breaking US\$120/barrel mark in April; transformation of short-fiber cotton spinning plant into 3rd long-fiber weaving fabric plant, alongside installation of 524 new looms, including 269 weaving-fabric looms, 177 multi-arm looms, 66 weaving machine, and 12 rapier looms; retirement of assistant president Kenbo Huang before joining the board of directors; installation of 297 looms, in batches at 2nd weaving fabric plant of Dong Nai subsidiary in Vietnam; appreciation of New Taiwan dollar against US dollar, breaking the mark of US\$1=NT\$28.4 once; formation of the remuneration committee in Aug., write-off of Formosa Taffeta Trading(Shanghai) Co., Ltd. in Sept.; completion of installation of dipping machines at the new tire cord plant of Dong Nai subsidiary in Dec.; selection of 2007 as the base year

for compliance with ISO 14064-1 standard; passage of the inspection of British Standards Institution (BSI) on Dec. 8; acquisition of certified statement on greenhouse-gas emission by Taiwan Accreditation Foundation (TAF), acknowledged by Taiwan's Environmental Protection Administration and the International Accreditation Forum (IAF), with inventory showing total CO2 emission of 686,177 metric tons, belonging to the grade of reasonable assurance, a milestone of the company's effort in pushing environmental protection and an honor for Taiwan's textile industry; the number of gas stations surpassing the 102 mark; provisions for the impairment of assets of Nanya Technology; revenue reaching NT\$36.2 billion and revenue in consolidated financial statement hitting NT\$53.2 billion, both new highs.

- 2012 Change of the titles of administrator and senior administrator, appointment of vice president; plan for the construction of green-energy dyeing and finishing plant; successive completion of the verification of PAS 2050 carbon footprints for 24 weaving functional fabrics; visit to the company by BSI representatives in Dec.; completion of the installation of the first batch of dipping machines, weaving and twisting machines at tire cord plant of Dong Nai subsidiary in Vietnam; strengthening of the organization for functional fabric of 1st business segment.
- 2013 In compliance with the requirement of the Financial Supervisory Commission, adoption of the International Financial Reporting Standards (IFRSs), compiling financial statement, mainly consolidated one, in traditional Chinese, from Jan.; formulation of six major policies for the year in Feb., including inroads into the global market and removal of waste from repetitive works, notably the project for preventing failure costs; preparation for waterless dyeing process; publication of declaration on sustainable development by managing director and president Hsieh Shih-ming in May; initial publication of "2012 report on green sustainable development" in Aug. for posting on related international websites, for perusal by branded customers and major stakeholders; installation of 12 new looms for fire-proof production line at the plant of Dong Nai subsidiary in Oct.; inauguration of first-phase capacity of 12,000 tons/year at tire core plant of Dong Nai subsidiary in Vietnam, following investment in 2011; gradual increase of self-service gas stations.
- 2014 Approval of US\$15.3 million cash capital increment plan of Dong Nai subsidiary in Vietnam by the Vietnamese government in Jan., fund raising of another US\$22.54 million by Dong Nai subsidiary for 2nd-phase capacity reaching 12,000 tons/year and fire-proof fabric production line with annual capacity of 580,000 yards; suspension of San Francisco office for western U.S.; takeover of the trading business of Hong Kong subsidiary by the Taipei business department; installation waterless dyeing machines at Taiwan plant in April; fund raising of US\$6.4 million by Long An subsidiary in Vietnam for construction of new plant for back-end finishing of functional finishing fabric with annual capacity of 21.42 million yards; eruption of anti-Chinese demonstration in Vietnam on May 14, prompting the Vietnamese plant to suspend operation for two days; selection, for the first time ever, of three independent directors by shareholders' meeting, ushering corporate governance into a new era; setup of an investment company in Cayman, as the channel for indirect investment, in place of original direct investment, Formosa Ha Tinh Steel Corp.; twa- credit rating granted by Taiwan Ratings, elevated to twa+ in Oct.; In July, in accordance with the initiative of the International Textile

Finished Products Organization, the introduction of the Chemical Management and Zero Discharge of Hazardous Substances (ZDHC) project, in which the fluorine-free water repellent and biomass wicking agent were introduced into the market. In August, polyester recycled gauze was certified by McDonough Braungart Design Chemistry (MBDC), Cradle to Cradle product innovation organization. The whole process of raw materials is non-toxic, energy clean, water-saving and carbon-reducing, recycling, named BOOMETEX ® Recycled Polyester, international brand identity. application for capital injection of US\$15 million in Hong Kong subsidiary and Changshou subsidiary, to improve their financial structure, including US\$3 million for construction of leased plant buildings, approved by the Chinese government in Sept., passing away of co-founder Wang Yung-tsai on Nov. 27; completion of installation of around-the-clock detection equipment for printing and dyeing discharge, analyzing water quality and recording water volume, which is connected to local environmental-protection bureau, for real-time detection and response to abnormality; moving of the office of Hong Kong subsidiary and Schoeller FTC (Hong Kong) to room 6 of 16th floor, from original room 5 of 11th floor, of the same building.

- 2015 Publication by president Hsie Shih-ming in Jan. management policy Transform Mentality; Accelerate innovation; Pursue Value; ; approval by Chinese government in March of spinoff of Changshu Fushun Enterprist Management Co., Ltd.; from Changshou subsidiary, with the latter offering the former assets of 9,206 square meters of residence and US\$900,000 of total investment and capital, totaling to the investment amount of US\$83.1 million and the capital reaching to US\$43.1 million; acquisition of Changshu Fushun Enterprist Management Co., Ltd. in June by Changshu Yu Yuan Development Co., Ltd., with registered capital of US\$ 900,000; in exchange of 40.78%; R&D on environment-friendly process, introduction of non-water plazma repellent technology and equipment; publication of "CSR report 2014" in Dec., verified by a third party; passage of ISO 50001 certification for the company's entire energy management system in Dec.; drop in the company's materials and energy costs, including overseas plants, due to plunge in international prices of raw materials, induced by continuous decline of global oil prices from Jan. 2014 through Jan. 2016; phenomenal 50% growth of profits of gas stations, despite revenue decline on slump of oil prices; increase of the number of gas stations to 105; inclusion, as the only textile company, into top 5%, or 41 companies, among public companies in 2015 corporate governance evaluation by Taiwan Stock Exchange, with award being granted in June,2016.
- 2016 Declaration by president Hsie Shih-ming again to push "Industry 4.0" and cut failure costs in Jan.; cooperation with National Yunlin University of Science and Technology in holding 160-hour education and training courses on programmable control PLC/human-machine interface (HMI) for Industry 4.0, attended by 60 staffers; promoting managing director and president, Hsie Shih-ming, to be vice chairman and president; publication of "2015 CSR report," as an established practice every year; inclusion of gas stations in the coverage of verification, elevation to first-type AA1000 medium assurance; granting by third party of twA+ for long-term credit rating and twA-1 for short-term credit rating, with a stable long-term outlook; contract with renowned U.S. brand Gore for cooperative production of high-end waterproof moisture-permeable laminating grey fabric, ceremony for inauguration of "Bumblebee plant", constructed under "Bumblebee" project, at the

end of August; completion and inauguration of 2nd-phase facility of tire cord plant of Dong Nai subsidiary with annual capacity of 12,000 tons in Sept.; granting by the Ministry of Labor of certificate for passage of corporate evaluation for TTQS (talent quality management system) in Oct.; change of corporate charter, as well as corporate representatives, directors, installation of supervisors, and registration items, by Long An and Dong Nai subsidiaries, according to corporate law of Vietnam, followed by issuance of new corporate license in Oct. and Dec.; continuing R&D on waterless, non-water plazma repellent environment-friendly process, acquisition of new-type patent for Intelligent temperature control apparel.

2017 In January, promotion of Lee Ming-chang to be the executive vice president, from the original post of vice president of 1st business group.

In February, setup of Public More International Company Ltd., with paid-in capital of NT\$5 million.

In March, Formosa Taffeta Dong Nai Company Limited change its corporate charter and representative of corporate investors, institution of supervisors, and revision of corporate registration and was issued the new corporate license.

In June, institution of auditing committee to replace original supervisors.

In November, appointment of Lee Ming-change as president by the board of directors.

Closure of steel coil processing plant for production of umbrella ribs of Zhongshan subsidiary in Oct., following sold out of the equipment.

Reception of "best trade contribution award" and "award for contribution to the exploration of major overseas emerging markets" for the textile category of the 2017 "Awards for Excellent Trading Businesses," granted by the Ministry of Economic Affairs in Sept., 2018.

2018 In March, installation of new dyeing and finishing capacity at 12 million yards/year by Long An subsidiary in Vietnam with test run.

In March, change of internal audit supervisor by Board of directors.

In March, approval of land transaction of 26,047 square meter at Dounan Township, Yunlin County by Board of Directors.

In April, reshuffle R&D center into a division.

In May, approval of land transaction of 51,533.3 square meter at Dounan Township, Yunlin County by Board of Directors.

In July, passage of selling the share of Formosa Advanced Technologies Co., Ltd., less than 84,022,000 shares, through block trade by the board of directors, holding its 46.68% shares.

In November, approval of changing the financial officer and accounting officer by the Board of Directors.

In December, reception of FTSE4Good TIP Taiwan ESG Index.

Reception of "certification mark of top 500 excellent exporters/importers of 2018," granted by the Bureau of Foreign Trade in Oct., 2019.

2019 In February, application for dissolution of subsidiary F. T. C. America Corp.

In March, approval of increment of 4.5 million US dollars invested in FG INC via the investment structure by the board of directors.

In April, rated as 6~20% of the fifth corporate governance evaluation by Taiwan Stock Exchange.

- In May, installation of first supervisor of corporate governance.
- In September, operation of solar panels of 1,000KW installed in Long An Subsidiary.
- In October, approval of capital increment with earnings on Schoeller Textil AG.
- In December, disposal of shareholding of Formosa Advanced Technologies Co., Ltd. to 30.68%, excluding it from the subsidiary of consolidated financial report of the Company.
- Awarded the leadership in Climate Change questionnaire and water security questionnaire of CDP.
- 2020 In March, approval of cash capital increase in Schoeller Textil AG, holding 50% of its shares.
- In March, transfer 50% equity interest of Schoeller F.T.C. (Hong Kong) Co., Ltd. to the original joint venture for operation.
- In July, dissolution of Xiamen Xiangyu Formosa Import & Export Trading Co., Ltd.
- In July, selected as the constituent of TWSE RA Taiwan Employment Creation 99 Index.
- In October, awarded by the Taiwan Outdoor Group (TOG).
- In November, dissolution of Formosa Taffeta (Cayman) Co., Ltd.
- In November, Taiwan Plant II awarded as the best enterprises of carbon emissions reduction.
- In December, rated as leadership of Climate Change Questionnaire in CDP, and A list of water security questionnaire.
- In December, TCFD supporter.
- 2021 In March, resolution to change the Chief Internal Auditor by the Board.
- In November, awarded as the best enterprises of carbon emissions reduction by Industrial Development Bureau, Ministry of Economic Affairs.
- In December, rated as leadership on climate change and water security, published by CDP.
- In December, installation of phase two of 1,750 KW of solar power generation system in Long-An subsidiary, with 2,750KWH solar power system completed.
- In December, capital increment of US\$ 7,200,000 on Dong Nai Subsidiary, registered investment amount reaching to US\$ 176,860,000.
- 2022 In January, reorganize the plastic processing plant and the carbon fiber composite material plant into composite material plant.
- In January, reshuffle Safety & Hygiene Office into Safety and Hygiene Department.
- In January, the passing away of vice chairman, Hsieh Shih-ming.
- In January, installation of 2,600 KWH solar power system in Taiwan Plant.
- In April, installation of 1,550KWH solar power system in Changshou Plant.
- In April, rated as 6~20% of the 8th corporate governance evaluation by Taiwan Stock Exchange.
- In May, approval of establishing the Sustainability Development Committee by the Board.
- In July, appointment of Chief Information Security Officer by the Board.
- In November, awarded as the best enterprises of carbon emissions reduction by Industrial Development Bureau, Ministry of Economic Affairs.
- In December, rated as the A-list on the climate change in CDP, and leadership on water security.
- In December, dissolution of Changshu Yu Yuan Development Co., Ltd.
- 2023 In March, approval of Science-Based Target initiative, SBTi.

In July, ranked the High Distinction Award with competition of net-zero industry, by 21st Century Foundation.

In October, removal of Taipei Office to 2F and 3F of Neihu Building A2.

In November, won SGS ESG Awards-Water Management

In November, awarded the best enterprises of carbon emissions reduction by Industrial Development Bureau, Ministry of Economic Affairs.

In December, resolution to change the Financial Officer by the Board.

2024 In January, change of Chief Internal Auditor.

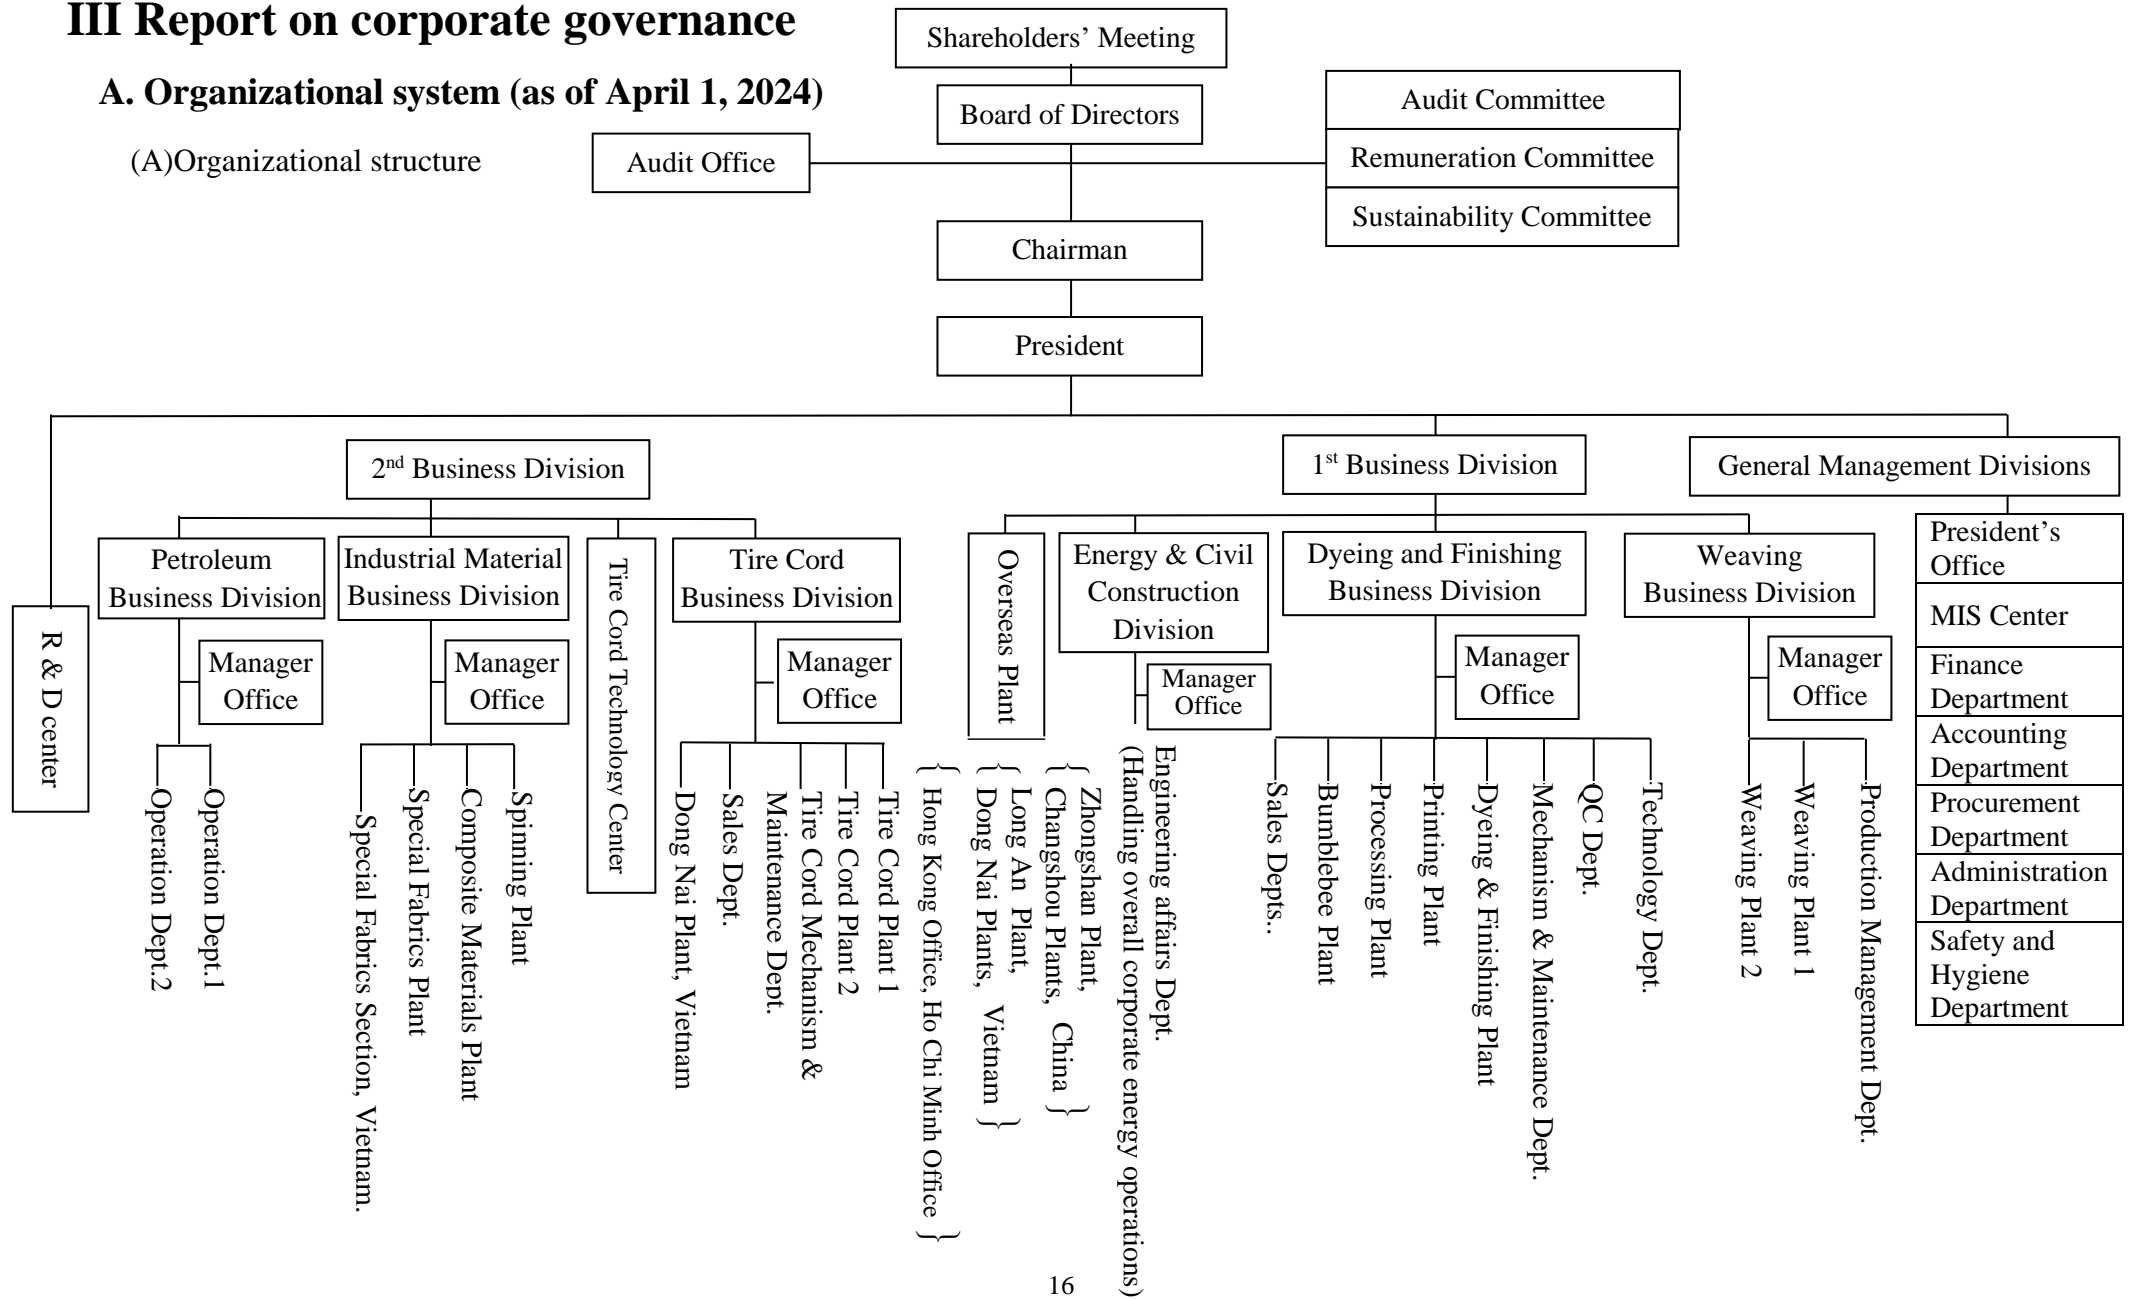

In February, received "A" rating in response to CDP's 2023 Climate Change and rated leadership in response to CDP's 2023 Water Security.

Organizational chart of Formosa Taffeta Co., Ltd.

III Report on corporate governance

A. Organizational system (as of April 1, 2024)

(A)Organizational structure

(B) Main businesses of all segments and divisions:

- 1st Business Segment: dyeing, finishing, printing, and back-end processing of woven fabrics made of chemical filament; governance of Weaving Division, D & F Division, Guangdong China Plants and Jiangsu China Plants, Vietnam Long-an Plants, Vietnam Dong-nai Plants, Taipei Office, Hong Kong Subsidiary, and HCM City Branch, etc. Main products include polyamine fabrics, polyester fabrics, international branded sports fabrics, and fabrics with rich functions, Medical fabrics.
- Tire Cord Division of the 2nd Business Segment: manufacture of tire cord fabric, base cloths of conveyor ducks, chafers for tire-lips, anti-puncture fabric for bikes, lining fabric, etc.; governance of Tire Cord Plant in Dong-nai, Vietnam.
- Industrial Material Division of the 2nd Business Segment: manufacture of cotton yarn, blended yarn, MVS yarn, nano far infrared ray fiber, nano anion fiber, Germanium fiber, fine diner fiber, hollow section insulation fiber, low-pilling fiber, functional fiber, comfort fiber, eco-friendly fiber, protective fiber, flame resistance fabric, protective fabrics of uniforms for military, Military, police, firefighter protective fabrics, Medical protective antibacterial fabrics, blullet proof fabric, anti-puncture fabric, carbon fiber fabrics, prepreg for materials of shells of notebooks and cellphones, bikes, and golf clubs, carbon fiber fabrics for autos, pipeline reinforcement jackets, PE plastic bags, etc.
- The Petroleum Business Division of the 2nd Business Segment: operation of gasoline stations; offers of petroleum, diesel, lubricant, car appliances and service of car washing.

B. Data on directors, president, vice presidents, deputy assistant vice presidents, and chiefs of various divisions and branches

Note 1: For a corporate shareholder, the name of the corporate shareholder and its representative shall be listed separately (when listing the representative of a corporate shareholder, the name of the corporate shareholder shall also be noted), and Form 1 below shall also be completed.

Note 2: Please state the actual age, or, alternatively, state the age interval into which the actual age falls, e.g., 41~50 years, 51~60 years

Note 3: Specify the time the person first began to serve as a director or supervisor of the Company. If there has been any break within a term or between terms, add a note specifying the circumstances.

- (1) Hong Fu-Yuan was designated by institutional supervisor Formosa Chemicals & Fibre Corp. as its representative for the seat on June 17, 2005 before being designated by the latter as its representative for its seat as a director.
- (2) Lee, Ching-Fen was appointed as the director representative by the legal person director Formosa Chemicals & Fibre Corp. on October 15, 2021.
- (3) Lee Ming-Chang served as the company's director on June 14, 2002 before being designated by institutional director Formosa Chemicals & Fibre Corp. as its representative for the seat on June 26, 2014.
- (4) Lee, Chien-Kuan was appointed as the director representative by the legal person director Formosa Chemicals & Fibre Corp. on October 15, 2021.
- (5) Chen, Kun-Yuan was appointed as the director representative by the legal person director Formosa Chemicals & Fibre Corp. on June 16, 2023.
- (6) Lee Man-Chun was designated by Lai Shu-Wang Social Welfare Charity Foundation as its representative for its seat as an institutional director on March 31, 1998, then for its seat as an institutional supervisor on June 27, 1998, and for its seat as an institutional director again on June 23, 2017.

Note 4: Specify experience and qualifications related to the current position. If during a period specified above the person has served in a position at a CPA firm that serves as external auditor/attestor, specify the position held and the duties for which the person was responsible.

Note 5: Where the chairperson of the board of directors and the general manager or person of an equivalent post (the highest level manager) of a company are the same person, spouses, or relatives within the first degree of kinship, an explanation shall be given of the reason for, reasonableness, necessity thereof, and the measures adopted in response thereto (e.g., increasing the number of independent directors and ensuring that a majority of directors do not concurrently serve as an employee or managerial officer).

Table 1: Major shareholders of institutional shareholders

April 23, 2024

Names of institutional shareholders (note 1)	Major shareholders of institutional shareholders(note 2)
Formosa Chemicals & Fibre Corp	Chang Gung Medical Foundation (18.58%), Chindwell International Investment Corp. (6.35%), Vanson International Investment Co., Ltd. (3.80%), Formosa Plastics Corp. Currently holds 3,000 shares of the Company in recent two years.</p>	1

B. Diversification policy for membership of the board of directors

(1) Diversification of the board of directors:

1. The nomination and election of the Board of Directors of the Company complies with Code of Practice for Corporate Governance of the Company and adopted candidate nomination system. Besides the assessment of each candidate's education and experience, the Company takes stakeholders' opinions into consideration and complies with "Rules for Election of Directors of the Company" and "Corporate Governance Principle" to ensure the diversity and independency of the board members. Besides the knowledge, skills and literacy are necessary for the performance of the Board of Director. To achieve the idol purpose of the corporate governance, the overall abilities of the Board of Directors should include: 1. operational judgment, 2. accounting and financial analysis, 3. operation management, 4. risk management, 5. industrial knowledge, 6. perspectives of the international market, 7. leadership, 8. decision-making, etc.
2. As of the end of April, 2024, the board of the Company consists of 11 directors with diversified backgrounds, professional capabilities, and operating experience. 3 independent directors are among them, accounting for 27.3% of the Board, and one of them is female, accounting for 9% of the Board. The Company has achieved the target to set up a female director in the board. The goal of all Board members is to possess 50% or more of the diverse industry experiences or expertise (such as business management, leadership, decision-making, industrial knowledge, international knowledge, accounting analysis, and legal background) to deepen the independency of the corporate governance and diversification of the board. Please refer to 2.1 data on directors of III. Corporate Governance. The operation of the diversification of the board is indicated below:

Name	Nationality	Gender	Management/professional background and management/decision making capability					
			Management and administration	Leadership and decision making	Industrial knowledge	International knowledge	Financial/ accounting analysis.	Law
Wong, Wen-Yuan FCFC	ROC	Male	V	V	V	V		
Hong, Fu-Yuan FCFC	ROC	Male	V	V	V	V		
Lee, Ching-Fen FCFC	ROC	Male	V	V	V	V		
Lee, Ming-Chang, FCFC	ROC	Male	V	V	V	V		

Name	Nationality	Gender	Management/professional background and management/decision making capability					
			Management and administration	Leadership and decision making	Industrial knowledge	International knowledge	Financial/ accounting analysis.	Law
Lee, Chien-Kuan, FCFC	ROC	Male	V	V	V	V		
Chen, Kun-Yuan, FCFC	ROC	Male	V	V	V	V		
Lee, Man-Chun, Lai Shu-Wang Social Welfare Charity Foundation	ROC	Male	V	V	V	V	V	
Hsieh, Ming-Der	ROC	Male	V	V	V	V		
Lin, Sheng-Chung, independent director	ROC	Male	V	V	V	V		
Kuo, Nein-Hsiung, independent director	ROC	Male	V	V	V	V		
Kuo, Chia-Chi, Independent director	ROC	Female	V	V	V	V	V	

(2) Interdependency of the board of directors:

As of the end of April, 2024, the board consists with 11 directors, and three of them are independent directors, accounting for 27.3% of the board. Besides, no spouse or two degrees of kinship of independent directors serve as the directors of the Company. Except Kuo, Chia-Chi, independent director, who holds 3,000 shares of the Company, other independent directors and their spouses do not hold the Company's shares. The independent directors do not provide audit, commence, legal, financial, or accounting services and get the payment from them in accordance with article 3 of Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies. Other directors do not have their spouses and two degrees of kinship of relatives serve as the Company's directors, which compiles with Article 26-3 of Securities and Exchange Act. Among directors, no relationship of spouse or the relation within two degrees of kinship exist in compliance with Article 26-3-3 and 4 of Securities and Exchange Act. (Relevant information please refer to the

data on director.)

- Note 1: Professional qualification and experience: The professional qualification and experience of each director and supervisor shall be specified. Where the member of the remuneration committee processes the accounting or finance expertise, its qualification and work experience shall be elaborated and whether involvement in Article 30 of Company Act or not shall be also specified.
- Note 2: Independent Director shall state the conditions that qualify them as independent, including but not limited to whether the person, his/her spouse, relatives within the second degree of kinship are appointed as directors, supervisors or employees of the Company or its affiliates; the number and ratio of the shares of Company held by the person, his/her spouse and relatives within the second degree of kinship or under the name of another person; whether the person is a Director, Supervisor or employee of a company that has a specific relationship with the Company (with reference to Subparagraphs 5 to 8, Paragraph 1, Article 3 of the Regulations Governing Appointment of Independent Director and Compliance Matters for Public Companies); and the remuneration received for commercial, legal, financial and accounting services rendered to the Company or its affiliates in the past two years.
- Note 3: For the disclosure method, please refer to the template on the Taiwan Stock Exchange Rules & Regulations Directory website.

Note:																	
<p>1. Please state the policy, system, standards and structure of independent directors´ remuneration payment, and describe the relevance to the amount of remuneration according to the responsibilities, risks, time invested, etc.: The Company allocated 0.1% of the pre-tax profit before deduction of employees and directors´ compensation for 2023 as directors´ compensation, and the amount of provision was NT\$487,971. The independent directors´ remuneration is based on a fixed payment system. The main consideration is to maintain their independence and to play a supervisory role. The fixed annual remuneration for independent directors is NT\$1.2 million, and allowance of NT\$10,000 is paid each time according to the attendance of meetings. In order to enable independent directors to fully exercise their powers, independent directors´ liability insurance has been insured to ease the work pressure of directors. In addition, the Company has stipulated the "Rules of Independent Directors´ Duties", such as independent directors´ monthly review of internal audit reports and financial communication with attesting CPA. For details of the meeting attendance of independent directors, please refer to the "Operational Situation of the Board of Directors", "Operational Situation of the Audit Committee" and "Operational Situation of the Remuneration Committee."</p> <p>2. Collection of compensations by directors for provision of services to any of the companies in the financial statement in the recent year, other than those disclosed in the table above (such as consulting for non-employees): nil</p>																	

** Please list the relevant information of directors (general directors who are not independent directors) and independent directors separately.

Over NT\$100,000,000	Nil	Nil	Nil	Nil
Total	13	13	13	13

Note 1: Names of directors should be listed separately (in the case of institutional directors, the names of representatives should also be listed); And list general directors and independent directors separately, disclose various payment amounts in summarized form; for directors who also hold the positions of president or vice presidents, fill in the table and tables (3-2-1) or (3-2-2) below.

Note 2: Refer to compensations for directors in the recent year (including salaries, job-related allowance, severance pay, various bonuses, and incentive pay).

Note 3: Fill in compensation payouts for directors in the recent year approved by the board of directors.

Note 4: Refer to business execution fees for directors in the recent year (including transportation fees, special allowances, various fringe benefits, dormitory, and company car). For the provision of accommodation, car, other transportation means, or other personal benefits, disclose the nature and cost of such offerings, rentals based on actual amount or calculation of fair market prices, gasoline costs, and other payments. In case chauffeuring service is available, describe pay for the chauffeur without including it in compensations.

Note 5: Payments collected by directors for simultaneous positions as employees of the company (including president, vice president, manager, or other positions), including salaries, job-related allowances, severance pay, various bonuses, incentive pays, transportation expenses, special allowances, various fringe benefits, dormitory, and company cars. For the provision of accommodation, car, other transportation means, or other personal benefits, disclose the nature and cost of such offerings, rentals based on actual amount or calculation of fair market prices, gasoline costs, and other payments. In case chauffeuring service is available, describe pay for the chauffeur without including it in compensations. Salary expenses listed according to share-based payment specified in IFRS2, including share-subscription warrants for employees, employee right for subscription to new shares and participation in cash capital increment, should be included in compensations.

Note 6: Refer to employee compensations (including shares and cash) collected by directors for simultaneous positions as employees of the company (including president, vice president, manager, and other positions) in the recent year. Disclose plan for payout of employee compensations in the recent year approved by the board of directors. If it is impossible to forecast the value of the payout this year, calculate the value, based on the actual payout value last year, and fill in attached table 1-3.

Note 7: Disclose the total of all the compensations paid by all the companies in the consolidated financial statement (including the company) to the company's directors.

Note 8: Disclose the brackets of the total of compensations paid by the company to each director and his/her name.

Note 9: Disclose the brackets of the total of compensations paid by all the companies in the consolidated financial statement (including the company) to each director of the company and his/her name.

Note10: After-tax net profit refers to net profit after tax in the most recent Individual or Individual financial report.

Note11: a. In the column, fill in the value of compensations for directors of the company paid by parent company or invested companies other than subsidiaries. (If there is none, please fill in "None")

b.If the company's directors collect compensations from parent company or invested companies other than subsidiaries, incorporate the value into column I of compensation brackets and change the name of the column to "parent company and all the invested enterprises."

c. Compensations refer to rewards, pays, and business execution fees paid by parent company or invested companies other than subsidiaries to the company's directors for holding the latter's positions including directors, supervisors, or managers.

Note12: Compensations for the company's 11 directors (including independent directors) are listed separately, since compensations for representatives of institutional directors are collected by institutional directors.

* Since compensations disclosed in the table are different from the income concept in income tax law, the table is meant for information disclosure, rather than tax levy.

2.Compensations for president and vice presidents

Unit: NT\$1,000; Dec. 31, 2023

Total	5	5

Note 1: Names of president and vice presidents should be listed separately; disclose various payment amounts in summarized form; for directors who also hold the positions of president or vice presidents, fill in the table and tables (1-2-1) or (1-2-2) below.

Note 2: Fill in salaries, job-related allowance, and severance pay for president and vice presidents in the recent year.

Note 3: Fill in payments for president and vice presidents in the recent year, including various bonus, incentive pay, transportation expense, special allowance, various fringe benefits, dormitory, and company car. For the provision of accommodation, car, other transportation means, or other personal benefits, disclose the nature and cost of such offerings, rentals based on actual amount or calculation of fair market prices, gasoline costs, and other payments. In case chauffeuring service is available, describe pay for the chauffeur without including it in compensations. Salary expenses listed according to share-based payment specified in IFRS2, including share-subscription warrants for employees, employee right for subscription to new shares and participation in cash capital increment, should be included in compensations.

Note 4: Fill in employee compensations (including shares and cash) for president and vice presidents approved by the board of directors in the recent year. If it is impossible to forecast the value of the payout this year, calculate the value, based on the actual payout value last year, and fill in attached table 1-3.

Note 5: Disclose the total value of compensations for the company's president and vice presidents paid by all the companies (including the company) in the consolidated financial statement.

Note 6: Disclose the names of president and vice presidents of the company in the brackets for compensations paid by the company.

Note 7: Disclose the names of president and vice presidents of the company in the bracket for the total of compensations paid by all the companies (including the company) in the consolidated financial statement.

Note 8: After-tax net profit refers to net profit after tax in the most recent Individual or Individual financial report.

Note 9: a. Fill in in the column compensations for president and vice presidents paid by parent company invested companies other than the company's subsidiaries. (If there is none, please fill in "None")

b.If the company's president and vice presidents collect compensations from parent company or invested companies other than subsidiaries, incorporate the value into column E of compensation brackets and change the name of the column to " parent company and all the invested enterprises."

c.Compensations refer to rewards, pays (including pays for the positions of employee, director, and supervisor) and business execution fees paid by parent company or invested companies other than subsidiaries to the company's president and vice presidents for holding the latter's positions including directors, supervisors, or managers.

*Since compensations disclosed in the table are different from the income concept in income tax law, the table is meant for information disclosure, rather than tax levy.

3.Names of managerial staffers receiving payout of employee compensations and the status of the payout

Unit: NT\$1,000; December 31, 2023

	Title (note 1)	Name (note 1)	Stock Value	Cash value	Total (note 2)	Share of the total in after-tax net profit (%)
Managerial staffers	President	Lee, Ming-Chang	0	2	9	0.000450
	Vice President	Lee, Chien-Kuan				
	Vice President	Chen, Kun-Yuan				
	Deputy Vice President (Corporate Governance Officer)	Cheng, Hung-Ning				
	Deputy Vice President	Wu, Li-Jen				
	Accounting Officer	Lee, Shu-Ming				
	Financial Officer	Hsieh, Pi-Hsia				

Note 1: Disclose individual names and titles, along with payout of profits in summarized form.

Note 2: Fill in employee compensations (including shares and cash) for managerial staffers approved by the board of directors in the recent year. If it is impossible to forecast the value of the payout this year, calculate the value, based on the actual payout value last year. After-tax net profit refers to the figure of the recent year; for those having adopted IFRS (international financial reporting standards), the figure refers to the after-tax net profit in individual financial statement of the recent year.

Note 3: According to the definition of the Financial Supervisory Commission (No. 1120384295, October 4, 2023), the scope of managerial staffers includes

- (1) president and equivalent positions;
- (2) vice president and equivalent positions;
- (3) assistant vice president and equivalent positions;
- (4) financial chief;
- (5) accounting chief;
- (6) Other employees with management responsibility and signature right.

Note 4: If director, president, and vice president collects employee compensations (including shares and cash), fill in the above table, in addition to attached table 1-2.

(B)The company and all companies in the consolidated statements, in recent two years analysis of ratio of the total compensations for the company's directors, president, and vice presidents in after-tax net profits of Individual or individual financial report, and explain compensation policy, criteria, and combination, procedure for determination of compensations and their association with business performance.

1. Shares of the total compensation for the company's directors, president, and vice presidents paid by the company and all the companies in the consolidated financial statements in after-tax net profits in recent two years follow:

Unit: %

Year	The Parent Company		Companies in the consolidated financial statements	
	2023	2022	2023	2022
Directors	4.1705	0.6507	4.1705	0.6510
President and Vice Presidents	4.8253	0.4986	4.8253	0.4986

Explanation: The increase of the ratio of total remuneration to Directors, President and Vice Presidents of the Company to the net income resulted from the drop in profit after-tax in 2023.

2. The policies, standards, and portfolios for the payment of remuneration, the procedures for determining remuneration, and the correlation with risks and business performance:

A. Remuneration policies, standards, and package:

- (1). Remuneration of the Company's Directors and managers is submitted to Remuneration Committee and Board of Directors for approval.
- (2). According to Articles 18 and 30 of the Association of the Company, the Board of Directors are authorized to determine the remuneration amount based on a Director's involvement in the Company's operations and his/her contribution values and in comparison with payments in other business of the same industry.

B. The procedure for determining remuneration:

- (1). If the Company is profitable in the year, it shall pay 0.05% to 0.5% of the pre-tax profit to the employees' remuneration in the current year and at most 0.05% to the directors' remuneration.
- (2). The Company's Independent Directors and some directors receive a fixed amount of compensation monthly as well as reimbursement transportation expenses based on their actual attendance of the Board meetings. No varied remuneration is paid to Independent Directors and some directors. Other directors receive reimbursement for transportation expenses based on their actual attendance of the Board meetings. No other directors'

remuneration is paid to Independent Directors and some directors.

- (3). The President's, Vice President's, and Assistant Manager's compensations are handled in accordance with Articles 26 of the company's Articles of Incorporation and Articles 29 of the Company Act. In addition to fixed monthly salary, year-end bonuses, festival bonuses and special awards are also given subject to the company's operating conditions.

C. Linkage to operating performance and future risk exposure

- (1). To strengthen the corporate sustainable development and the linkage between ESG performance and remuneration, special rewards are adjusted and issued with reference to the target achievement rate, operating results, industrial safety incidents, water and energy saving, etc. Fixed monthly salary is also adjusted by the Remuneration Committee in reference to the Company's overall employee salary adjustment standards.
- (2). Financial indicators include profit and loss/EBITDA, operational target achievement rate, operational growth rate, and profit contribution.
- (3). ESG Indicators are as follows:

Environment Protection: Environmental sustainability engagement, energy and water saving performance, circular economic benefits, and carbon reduction target achievement rate.

Social Responsibility: Work safety and occupational accidents, product R&D and innovation, and Friendship with neighbors and protest cases.

Corporate Governance: Operational management capability, AI cases and benefits, and fraud cases.

D. Operation of corporate governance

(A) Operating status of the board of directors

The board of directors convened 6 times (A) in 2023, with the attendances of directors listed below:

Title	Name (note1)	Number of attendance (B)	Number of attendance via proxy	Attendance rate (%) (B/A) (note2)	Note
Chairman	Wong, Wen-Yuan, FCFC	6	0	100	Reelected on June 16, 2023
Director	Hong, Fu-Yuan, FCFC	6	0	100	Reelected on June 16, 2023
Director	Lee, Ching-Fen, FCFC	6	0	100	Reelected on June 16, 2023
Director	Lee, Ming-Chang, FCFC.	6	0	100	Reelected on June 16, 2023
Director	Lee, Chien-Kuan, FCFC	6	0	100	Reelected on June 16, 2023
Director	Chen, Kun-Yuan, FCFC	4	0	100	Newly elected on June 16, 2023
Director	Lee, Man-Chun, Lai Shu-Wang Social Welfare Charity Foundation	6	0	100	Reelected on June 16, 2023
Director	Hsieh, Ming-Der	6	0	100	Reelected on June 16, 2023
Director	Kai-Fu Co., Ltd. (Vacancy)	0	0	0	Former director as of June 16, 2023
Independent director	Lin, Sheng-Chung	6	0	100	Reelected on June 16, 2023
Independent director	Kuo, Nein-Hsiung	6	0	100	Reelected on June 16, 2023
Independent director	Kuo, Chia-Chi	6	0	100	Reelected on June 16, 2023

Other items mandating record:

A. In case there is one of the following situations in the operation of the Board of Directors, specify the date of the meeting, term of the board of directors, contents of agenda, opinions of all the independent directors, and approach of the company in handling the opinions of the independent directors:

(A) Items listed in article 14-3 of Securities and Exchange Act: Not applicable

(B) Except the aforementioned items, resolutions of the board of directors with opposition, or reserved opinions, by any independent director: nil.

B. For abstention of cases by directors due to involvement of related interests, specify the names of directors, contents of agenda, reasons for abstention, and situation of voting:

(A) The second 2023 meeting of the board of directors on May 5

Names of director: Wong, Wen-Yuan, Hong, Fu-Yuan, Lee, Ching-Fen, Lee, Ming-Chang, Hsieh, Ming-Der

Contents: To release the directors from non-competition restrictions.

Reason for abstention: The above Directors were the same or similar duty in other companies within

the scope of the Company's business, so they recused themselves from the discussion and vote.
situation of voting: All directors, except aforementioned directors, agreed to pass the case.

(B) The third 2023 meeting of the board of directors on June 16

Names of director: Lee, Ming-Chang, Lee, Chien-Kuan, Lin, Sheng-Chung, Kuo, Nein-Hsiung, Kuo, Chia-Chi

Contents: To appoint the directors, Lee, Ming-Chang, Lee, Chien-Kuan, and independent directors, Lin, Sheng-Chung, Kuo, Nein-Hsiung, Kuo, Chia-Chi, as the members of the Sustainable Development Committee.

Reason for abstention: The above Directors were the interested party, so they recused themselves from discussion and voting.

Situation of voting: All directors, except aforementioned directors, agreed to pass the case.

(C) The third 2023 meeting of the board of directors on June 16

Names of director: Lin, Sheng-Chung, Kuo, Nein-Hsiung, Kuo, Chia-Chi

Contents: To appoint the independent directors above as the members of the Remuneration Committee.

Reason for abstention:

Situation of voting: All directors, except aforementioned independent directors, agreed to pass the case.

(D) The fourth 2023 meeting of the board of directors on August 4

Names of director: Wong, Wen-Yuan

Contents: To establish the remuneration of the current Chairman.

Reason for abstention: The Chairman was the interested party, so he recused himself from discussion and voting.

Situation of voting: All directors, except Chairman, agreed to pass the case.

(E) The fourth 2023 meeting of the board of directors on August 4

Names of director: Lin, Sheng-Chung, Kuo, Nein-Hsiung, Kuo, Chia-Chi

Contents: To establish the remuneration of the current directors.

Reason for abstention: The independent directors were the interested parties, so they recused themselves from discussion and voting.

Situation of voting: All directors, except the independent directors, agreed to pass the case.

(F) The fourth 2023 meeting of the board of directors on August 4

Names of director: Lee, Ming-Chang, Lee, Chien-Kuan, Chen, Kun-Yuan

Contents: Proposal of the salary adjustment of the managers would be in line with employees in 2023.

Reason for abstention: The above directors were the interested party, so they recused themselves from discussion and voting.

Situation of voting: All directors, except the above directors, agreed to pass the case.

(G) The fifth 2023 meeting of the board of directors on November 3

Names of director: Wong, Wen-Yuan, Hong, Fu-Yuan, Lee, Ching-Fen, Lee, Ming-Chang, Lee, Chien-Kuan, Chen, Kun-Yuan

Contents: To sign a Lease Agreement.

Reason for abstention: The above directors were the Chairman, managing directors, directors, or the representatives of the legal entity of Formosa Plastic Corp., Nan Ya Plastics Corp., Formosa Petrochemical Corp., and Formosa Chemicals & Fibre Corp., so they recused themselves from discussion and voting.

Situation of voting: All directors, except the above directors, agreed to pass the case.

C. Listed Companies shall disclose the information of self (or peer) assessment of the Board such as evaluation cycles, evaluation periods, scope, method, and the contents of evaluation.

Description : the situation of the evaluation of the Board of directors

Evaluation Cycle	Evaluation Period	Evaluation Scope	Method of Evaluation	Contents of Evaluation
Once per year	2022/10/01~2023/09/30	Board of directors	Self-assessment conducted by the members of board of directors	1.Participation in the operation of the company 2.Improvement of the quality of the board of directors' decision making. 3.Composition and structure of the board of directors. 4. Once per year	2022/10/01~2023/09/30	Sustainable Development Committee	Self-assessment conducted by the committee members	1. Participation in the operation of the company 2. Awareness of the duties of the Sustainable Development Committee 3. Improvement of quality of decisions made by the Sustainable Development Committee 4. Makeup of the Sustainable Development Committee and election of its members 5. Internal Control

Note. Evaluation period is one-year, except Chen, Kun-Yuan was elected on June 16,2023.

D. Evaluation of execution of objectives for strengthening the functions of the Board of Directors in the current year and the previous years:

(A) The operation of the Company's board of directors abides by laws/regulations, corporate charter, and

resolutions of shareholders' meeting. In addition to the professional knowledge, skills, and literacy related to their positions, all the directors adhere to the principle of loyalty and integrity in the execution of their duties, so as to create maximum benefits for shareholders.

- (B) In order to establish a good system of governance for the Board of Directors, as well as strengthen its supervisory and management functions, the Company, in addition to the selection of independent directors, has set up the norm for Board meetings, covering contents of agenda, operating procedure, items to be recorded in the minutes of meetings, official notices, and others.
- (C) In order to strengthen the functions of the Board of Directors, the Company, in addition to regular self-examination of the Board's operation, has had its in-house auditors produce monthly auditing reports for independent directors' review before the end of the following month, in compliance with the requirements of the securities regulator.
- (D) In line with regulations of securities regulator, the Board of Directors resolved on August 25, 2011 to set up a compensation committee. Three meetings were convened in 2023 to report the standard for providing the year-end bonus of 2022 to the management, in addition, evaluate the compensations of 2023 for directors and managerial officers, and suggestions were proposed and discussed during the board of directors' meeting.
- (E) In line with the requirement of securities regulator, the Company's Board of Directors resolved on June 23, 2017 to set up an auditing committee to replace supervisors. Five meetings were convened in 2023 and resolutions were submitted to the Board of Directors for ratification to implement corporate governance.
- (F) The Board of Directors approved to set up Sustainable Development Committee on May 6, 2022 to realize the sustainable development goals of environment protection, social responsibility and corporate governance. One meeting was held in 2023, and the resolutions were submitted to the Board of Directors for ratification to implement corporate governance.
- (G) Establishing the KPI to improve the function and efficacy of the board of directors, the board of directors resolved to approve the Self-Evaluation of the Board of Directors on August 7, 2020. 1 internal assessment is carried out per year and report to the board of directors before the first quarter of next year. The evaluation report of Board of Directors was submitted on Dec. 8, 2023.

Note 1: In case director is a judicial person, specify its name and the name of its representatives.

Note 2: (1) In case there is any director leaving the post by the end of the year, the following information should be entered in the note column, including job expiration date, with attendance rate (%) based on division of the actual number of attendances by the number of committee meetings during his/her service period.

(2) In case there is reelection for the board of directors by the end of the year, information on both original and new directors should be entered in the note column, including the distinction of previous, new, or continuing membership and the date of reelection, with attendance rate (%) based on division of the actual number of attendances by the number of board meetings during his/her service period.

Note 3: Representative of Keyford Development Co., Ltd., Hsieh, Shih-ming, passed away on January 10, 2022. The replacement was not submitted as of June 16, 2023.

(B) Operation of the auditing committee status

The auditing committee convened five times (A) in the year, as of Dec. 31, 2023, with the status of attendance of independent directors listed below:

Title	Name (note1)	Number of attendance (B)	Number of attendance via proxy	Attendance rate (%) (B/A) (note2)	Note
Convener	Lin, Sheng-Chung	5	0	100	Independent Director (Reelected on June 16, 2023)
Member	Kuo, Nein-Hsiung	5	0	100	Independent Director (Reelected on June 16, 2023)
Member	Kuo, Chia-Chi	5	0	100	Independent Director (Reelected on June 16, 2023)

Other mentionable items:

- If there are the circumstances referred to in Article 14-5 of the Securities and Exchange Act and resolutions which were not approved by the Audit Committee but were approved by two thirds or more of all directors, the dates of meetings, sessions, contents of motion, resolutions of the Audit Committee and the Company's response to the Audit Committee's opinion should be specified.

Audit Committee Meeting Date & Sessions	Agenda and Procedures	Securities & Exchange Act, Article 14-5	Resolutions were not approved by the Audit Committee but were approved by two thirds or more of all directors
Mar.3, 2023 (1 st 2023)	1. Set forth 2022 financial statement of the Company.	✓	-
	2. To establish pre-approval policy for non-assurance services provided by the Company's auditing accounting firm.	✓	-
	3. To formulate the Company's Internal Control System Statement.	✓	-
	Independent director's opinions or objections: None. Resolutions by audit committee: all attended committee approved these agendas. The Company's procedures: The board of directors approved these resolutions.		
May 5, 2023 (2 nd 2023)	1. To formulate the business report and financial statement for Q123.	-	-
	2. To propose to the Shareholders' meeting to agree to release the directors from non-competition restrictions.	✓	-

(2)Term of the members of the current committee: From June 16, 2023 through June 15, 2026, with the qualifications of the members and their attendance in the three meetings (A) in the recent year listed below:

Title	Name	Times of attendance (B)	Times of attendance via proxy	Attendance rate (%) (B/A) (note)	Note
Convener	Lin, Sheng-Chung	3	0	100	Independent Director (Reelected on June 16, 2023)
Member	Kuo, Nein-Hsiung	3	0	100	Independent Director (Reelected on June 16, 2023)
Member	Kuo Chia-Chi	3	0	100	Independent Director (Reelected on June 16, 2023)

Status of operation:

A. The company's board of directors resolved on Aug. 25, 2011 to set up the remuneration committee.

B. The committee convened three times in 2023.

Other items mandating record:

A. In case of rejecting or revising the suggestions by the remuneration committee, the board of directors should specify the date of the board meeting, the term of the board, contents of agenda, resolutions of the board meeting, and handling of the opinions of the remuneration committee (should the level of remunerations passed by the board of directors be higher than that suggested by the remuneration committee, the extent of difference and reasons should be specified): nil

B. In case there is any member opposing or having reservation for the resolutions of the remuneration committee, on record or in written form, the committee should specify the date of the meeting, the term of the committee, contents of agenda, opinions of all the members, and handling of the contrarian opinion:

Meeting of Remuneration Committee Date and term	Proposal content, opinions of all members and company processing results
January 11, 2023 (first meeting in 2023)	1. The year-end bonus of 2022 of managers were compared with the standard report of the year-end bonus distribution of all employees, which was calculated according to the Company's "year-end bonus and remuneration distribution method," reviewed by the Remuneration Committee. It is expected to be issued on January 13, 2023. Resolution results of the remuneration committee: Acknowledgement. The Company's treatment of the remuneration committee's opinion: None.
March 3, 2023 (second meeting in 2023)	1. Propose to prepare the 2022 Remuneration of Directors, please make resolution. Resolution results of the remuneration committee: all members present approved and submitted to the board of directors for ratification. The Company's treatment of the remuneration committee's opinion: All the directors present at the meeting of the board of directors approved the proposal, which was submitted to the 2023 Annual Meeting of Shareholders to report.
August 4, 2023 (third meeting in 2023)	1. Propose to establish the remuneration of the Chairman. Resolution results of the remuneration committee: All members present approved the proposal and submitted to the board of directors for ratification. The Company's treatment of the remuneration committee's opinion: All the directors present at the meeting, except the Chairman, approved the proposal. 2. Propose to establish the remuneration of current directors. Resolution results of the remuneration committee: All members present approved the proposal and submitted to the board of directors for ratification. The Company's treatment of the remuneration committee's opinion: All the directors present at the meeting, except three independent directors, approved the proposal. 3. Propose to continue the current managerial salary standard and formulation. Resolution results of the remuneration committee: All members present approved the proposal and submitted to the board of directors for ratification. The Company's treatment of the remuneration committee's opinion: All the directors present at the meeting approved the proposal.

	<p>4. Propose to continue the current managerial evaluation system. Resolution results of the remuneration committee: All members present approved the proposal and submitted to the board of directors for ratification. The Company's treatment of the remuneration committee's opinion: All the directors present at the meeting approved the proposal.</p> <p>5. Propose to discuss the 2024 annual salary of the managers adjusts in line with the all employees' compensation. Resolution results of the remuneration committee: All members present approved the proposal and submitted to the board of directors for ratification. The Company's treatment of the remuneration committee's opinion: All the directors present at the meeting approved the proposal.</p>	
--	---	--

Note:

1. In case there is any member of the remuneration committee leaving the post by the end of the year, the following information should be entered in the note column, including job expiration date, with attendance rate (%) based on division of the actual number of attendances by the number of committee meetings during his/her service period.
2. In case there is reelection for the remuneration committee by the end of the year, information on both original and new members should be entered in the note column, including the distinction of previous, new, or continuing membership and the date of reelection, with attendance rate (%) based on division of the actual number of attendances by the number of committee meetings during his/her service period.
3. The Company's Remuneration Committee consists of three independent directors appointed by the resolution of the Board of Directors. Convener is selected among the members. Term of office is the same as the Board of Directors. Three meetings were convened in 2020 to set up the remuneration of the current chairman and vice chairman, monthly salary of managers, year-end bonus etc. and submitted to the Board of Directors for ratification.
4. The Company has stipulated the "Organization Regulations of the Remuneration Committee". The Committee shall perform the following duties faithfully with the care as a good manager, and submit the recommendations to the Board of Directors for discussion:
 - (1) Regularly review this Regulation and propose amendments.
 - (2) Formulate and regularly review the policies, systems, standards and structure of directors and managers' performance evaluation and remuneration.
 - (3) Regularly evaluate and determine the remuneration of directors and managers. °

(E) Attendance of Members at Sustainable Development Committees Meetings:

1. Component and professional qualifications ability of Sustainable Development Committee:

(3) Does the Company assess potential risks and opportunities arising from climate change, and establish relevant risk management policy or strategy?	V		(For details of the specific practices and products that are environmentally friendly, please refer to Environmental Aspects of the 2023 Sustainability Report.) 3. The Company continued to assess potential risks and opportunities arising from climate change in aspects of finance, reputation, global economy, energy cost volatility, and environmental compliance costs, set energy conservation targets and measures, and develop eco-friendly products to keep the business operations stable and competitive. The Company signs up to support the Climate-related Financial Disclosures (TCFD) and has disclosed information on the Company's governance, strategy, risk management, indicator and targets for climate-related risks and opportunities in accordance to the TCFD since 2019. (Please refer to Risks and Opportunities Arising from Climate Change of the 2023 Sustainability Report.)	In compliance with Article 17, paragraph 1 of the Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies.
(4) Does the company monitor its greenhouse gas (GHG) emissions, water consumption, and waste volume for the past two years, and establish policies for energy conservation, carbon and GHG reduction, water consumption reduction, waste volume reduction accordingly?	V		4.1 The Company collects the data of the amount of water usage, waste and other energy consumption and commissions SGS (Taiwan Inspection and Technology Corporation) to conduct greenhouse gas inventory since 2017 and water footprint. Additionally, the Company introduces the ISO 46001 water management system as well as ISO 50001 energy management system, sets up the targets and monthly reviews the performance. 4.2 Policy on GHG emissions: The Company sets 2019 as the base year. The Taiwan Plant needs to cut down 50% of GHG emissions by 2030 compared with the base year. The GHG emissions of Taiwan plant in 2023, verified in accordance with ISO 14064 by SGS Taiwan Limited, was less than 63.7% compared with the base year. In 2023, the climate change questionnaire was awarded the highest honor, A, by CDP. The Company upholds the spirit of sustainable development and hopes to	In compliance with Article 17, paragraph 2~3 of the Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies.

To avoid lapsing into water shortage situations and increasing water costs, water conservation has become a critical theme in sustainability. Taiwan Plant has introduced ISO 46001, water management system to improve the efficacy of water management. In addition, the water footprint of Taiwan plant was verified in accordance with ISO 14046 by SGS Taiwan Limited. The amount of water consumption in 2023 was 4.11 million tons (scheduled to be verified in the second half of 2024), which was less than 27% compared with the previous year- 5.69 million tons (verified). Additionally, the Company continues to implement water saving projects and improve the manufacturing equipment to increase the water usage rate and to save water consumption. In 2023, the amount of water saving from those projects was 67,000 tons, increased by 91% compared with the previous year-6,000 tons. Moreover, the Company dedicates to water recycling and reusing, using the recycled water in the weaving plant for production. In 2022, the water recycling rate for weaving plants was 64.8%, and in 2023, was 72% which reached the target of 70%.</p>				Year	*2019 ^A	2021	2022	2023 ^B	Difference (A-B)	Variance Rate (%)	Scope 1	347,211	254,887	192,398	78,689	268,522	77.3%	Scope 2	98,220	93,266	88,692	83,080	15,140	15.4%	Total	445,431	348,153	281,090	161,769	283,662	63.7%	Unit Emissions	16.22	14.22	10.74	7.35	8.87	54.7%

with the same spirit. For the operation of the Company's Sustainability, please refer to the 2023 Sustainability Report and website.				
7. Other important and helpful information in understanding sustainable development operation :				
(Explanation 1) Relevant systems and structures:				
<p>The Corporate Social Responsibility Committee was founded on March 6, 2015, constituting with the functional teams of president’s office. In January, 2022, the committee was reshuffled and renamed as “Sustainability Committee” to drive the sustainability commitment. The business content includes three aspects: environmental protection (E), social responsibility (S), and corporate governance (G). Among them, the environmental protection (E) aspect is subdivided into 8 important topics: 1. Climate-related financial disclosure 2. Circular economy - energy (resource) efficiency improvement 3. Circular economy - plastic recycling 4. Integration of international carbon reduction initiatives 5. Safety and green procurement (including transportation and packaging) 6. Renewable energy and green energy 7. Green product research and development and promotion of the green industry. The president, Lee Ming-chang, serves as the general convener, in responsible for strategy formulation, goal planning, performance monitoring and management policy about the Company’s ESG. President Office, safety and health department, accounting department, and other units form “The ESG Unit to be responsible for corporate governance, work safety and environmental sustainability, water and energy saving, product and customer service, supplier and contractor management, happy workplace, good neighbors and other related work. The president holds regular meeting every month to review the operation of ESG of the Company. In line with the order from Financial Supervisory Commission and the policy, the committee was approved to be governed by the board of directors by the BoD meeting on May 6, 2022. The committee regularly report the strategy and the execution to the Board. The Committee is constituted with five directors (three independent directors and two directors, Lee, Ming-Chang and Lee, Chien Kuan), and director, Lee, Ming-Chang, acts as the convener of the Committee.</p>				
(Explanation 2) Social welfare engagement of the enterprise				
1. The system, measures, and performance of environmental protection, safety, and health :				
<p>It is a company's social responsibility to assure the safety of products, employees, contractors, factory premises, and community, which has become an essential element in corporate competitiveness.</p> <p>We believe any disaster and accident, big or small, is avoidable. Adhering to high-standard universal values, the Company utilizes the power of organization and system to attain its objective, asking all unit chiefs to understand and take part in the initiative, providing promotion and education/training, and demanding faithful execution of system, and seeking constant improvement in performance figures.</p>				
2. A. The company has installed at factory premises detection and analytical instrument for the quality and quantity of discharged waste water, with upgrading of information on screen once every 15 seconds. The instrument is linked to the municipal environmental protection bureau for inspection, for joint prevention of water pollution. The company has also implemented by its own various energy-conservation and waste abatement measures, green procurement, resources recycling, employment of non-toxic chemicals, and decrease of packaging materials, in a continuing effort in materializing the vision of green factory.				
B. Voluntary energy saving and carbon reduction: The Company has long devoted itself to promoting energy saving and carbon reduction campaigns. Over the past five years, the Company was awarded as the best enterprise to voluntarily save energy and reduce carbon emissions.

	Yes	No	Summary(Note2)				
C. CDP carbon disclosure: In 2023, based on the responses to CDP's questionnaires, what FTC received are as follows: (1)Climate Change: FTC has rated "A," the highest honor for consecutive two years, and higher than Textiles & fabric goods sector average of "C." (2)Water security: FTC has rated "A-(leadership)" for consecutive four years."							
D. The Company has officially approved by the SBTi (Science Based Targets initiative, SBTi), becoming the first Textile company in Taiwan to be validated. The Company continues to track on climate issues and manage the performance to make efforts in combating climate change.							
3.	Employ cutting-edge and energy conserving equipment in priority, either for new installation or replacement purpose. Throughout the company's factory premises, including whole set of machinery and facilities and small items such as lights and faucets, the Company has adhered to the practices of energy conservation, consumption reduction, emission reduction, recycling, circular or repetitive use, toxin-free, and degradability. The company has strived to have all machinery equipment in factory to function and stop at the same time, so as to attain energy conservation and cut consumption via concentrated production, leading to cost reduction and environmental improvement in long run. In 2023, the amount of green procurement amounted to NT\$556,787.						
4.	In an effort to environment protection, the Company provides the subsidies of NT\$ 16,000 to the staff for purchasing new electric scooters and NT\$10,000 to those who change the old scooters to electric scooters. In 2023, the Company subsidized employees for purchasing 7 new electric scooters and changing 5 new electric scooters, amounting NT\$150,000.						
5.	To install solar power generator: (1) The solar power system in Dong-Nai Plant, Vietnam, is scheduled to be completed in 2024, whose annual power generation is estimated to be 20,680,000 KWH. (2) The annual power generation from solar power system is scheduled to be 58,490,000 KWH followed by the completion of installation of solar power system in Taiwan, China, and Vietnam plants. It is estimated to reduce 29,000 tons of CO ₂ emissions per year. (3) The status of installing solar power system:						
	Plant	Taiwan		Zhong-Shan	Chang-shu	Long-an	Dong-nai
	Capacity	2.6MWp	22.32MWp	4.45MWp	1.56MWp	3.45MWp	12.6MWp
	Completed Date	2021.10	2024 (estimated)	March, 2024	April, 2022	September, 2018, March, 2021	2024 (estimated)
	Annual Power Generation (KWH)	30,000,000		4,660,000	1,620,000	3,800,000	20,680,000
6.	System and measures for communal participation and status of implementation: It is the Company's policy to become a good neighbor of nearby communities, communicating friendly with their residents and giving them multiple assistances, upholding a good common environment jointly, taking part in various local public services, and helping take care of poor families and underprivileged groups, so as to build an emotional bond with neighboring communities. Meanwhile, employees have also organized by their own public-service clubs, to provide givebacks to

neighboring communities, such as communal cleaning, manifesting human care and love and contributing to formation of a harmonious community. In 2023, the Company took 8,112 hours for the road cleanup near the Douliu Plant, and the amount of the annual reduced particulate and dust is estimated to be 57,000 tons.				
7. System and measures for social contribution, social service, and social benefits and status of implementation: In line with the spirit of "diligence and down-to-earth style," the Company has been pushing the management concept of "harmony, innovation, service, and dedication," as embodied in honest tax payment, high regard for environment protection and industrial safe, and care for employees, so as to uphold the company's corporate image and repute, give back to the society, and fulfill corporate social responsibilities.				
8. All employees must constantly improve their specialties and take into account safety, hygiene, and environmental protection in any decision, thoroughly understand the spirit of system for faithful implementation, tackle root causes for problems, embrace SOP of international brands, and safeguard safety of oneself, colleagues, and neighbors, uphold natural environment, and protection corporate assets. Adhering to the concept of "co-existence of industrial development and environmental protection," the Company believes that fulfillment of social responsibility is critical for sustainable development.				
9. When the staff or their spouses are pregnant or childbirth, the Company provide the gifts and various subsidiaries for child care. The Company provides NT\$10,000 for a new born baby, and since the birth, the Company provide NT\$1,000 for child care until they reach to six-year old.				
10. The company has been continuously caring for the society, assisting the underprivileged, and taking part in public services, in the fields of education, industry, academia, and society:				
a. Education: For decades, the Company has run kindergarten to accommodate children of employees and neighboring residents. In cultivating the talents in the textile industry, the Company collaborated with Da Der Commercial and Technical Vocational School to help students study and work. Additionally, the Company collaborates with National Yunlin University of Science and Technology, National Formosa University, and TransWorld University, providing the intern opportunities. In 2023, the Company collaborated with National Formosa University, providing the intern opportunities for eight students.				
b. The company supports 19 employee clubs dedicated to healthful and social-benefits activities.				
c. To promote the local culture, the Company supported the following events:				
(1) In collaboration with Formosa Plastics Group to help "Ming Hwa Yuan Arts & Cultural Group." "I Wan Jan Puppet Theater," "If Kids Theater," and "Apple Theater" to hold the performance, with contribution of NT\$ 8,370,000 in 2023. 27 shows were launched to provide a stage for theaters and backcountry to promote local cultural as well as sustainable development of theaters.				
(2) Donating fabrics to Sunshine Social Welfare Foundation, using tabs to produce recycled package products to fulfill the recycling of fabric. Additionally, the project helps to reduce the pollution and energy consumption. The Foundation sold the products to improve their livings. The Company provides a new channel for the underprivileged to create more opportunities to create win-win situation.				

Evaluation Item	Implementation Status (Note1)			Deviations from the Corporate Sustainable Development Best Practice Principles for TWSE/GTSM Listed Companies and Reasons
	Yes	No	Summary(Note2)	
d. Other social-benefits activities: continuously pushing and sponsoring various social-benefits activities, such as:				
(1) Giving back to Local Communities – Participation in Social Charitable Events				
No.	Type of Donation			Number of Events
1	Temple and festival activities in neighboring communities			17
2	Consultation for the neighborhood volunteer civil defense force			3
3	Welfare activities and celebrations organized by the Longevity Club of the Development Associations in the neighboring communities			9
4	Activities organized by community vulnerable group foundations			5
5	Donations to charities and events of neighboring schools and organizations			12
6	Sponsoring other environmental protection activities and events in neighboring communities			1
(2) The Petroleum Business Division of the Company held the 26 th anniversary charity activity, donating to 8 charity organizations.				
(3) The Company’s clubs irregularly hold activities for blood donation to help the society and more people in need.				
(4) Sponsorship for charitable activities in neighboring communities of overseas factory premises.				
In addition to fully cooperating with the Environment Protection. Administration to promote green procurement in private sectors to implement energy-saving, carbon-reducing and green consumption policies, the Company also actively requests suppliers to increase the number of products certified by Bluesign year-on-year. In the future, we will continue to implement various related businesses such as water conservation, energy conservation and carbon reduction, sustainable utilization of resources, and friendly environment, aligning with the concepts of environmental protection and economic development, and fulfilling our social responsibilities. In addition, a healthy and safe working environment has always been the goal of our efforts, and it is also the Company's responsibility to employees and their families. Requiring employees to pay attention to "safety first" when entering the workplace is an important principle that demonstrates our focus on employees; The Company encourages employees and contractors to propose improvements and suggestions for unsafe operating environment, and we use the shift time to strengthen the precautions for the promotion of operational safety, and appropriately reward the zero-work disaster department.				

Note 1.If Implementation Status is specified "Yes", please explain the key policies, strategies and measures taken and the current progress. If Implementation Status is specified "No", please refer to "The discrepancies in the Code of Practice of Sustainable Development for the TWSE/TPEX Listed Companies" section to explain the situation and reasons for the discrepancies, as well as explain any policy, strategy and measure planned for the future.

Note 2.Companies who have compiled CSR reports may specify the ways to access the CSR and the page numbers of the cited content in place of the above-requested description.

Note 3.For the disclosure method, please refer to the template on the Taiwan Stock Exchange Rules & Regulations Directory website

(G) Climat-related Information of TWSE/TPEX Listed Companies

1. Implementation Status of Climate-related Information

Item	Implementation Status																													
1. Describe the board of directors' and management's oversight and governance of climate-related risks and opportunities.	<p>1.1 The Board of Directors of the Company is the highest governance body for climate-related risks and opportunities. Climate change has growing significant impacts on business operation; therefore, the knowledge of sustainable development becomes a key factor for constitution of the Board members. While electing the independent directors, the experience and skills related to climate change issues are also considered in addition to business operation, financial management, accounting, law, corporate governance, and other capabilities.</p> <p>1.2 The Company established a "Sustainable Development Committee" under the Board of Directors in May 2022, which is responsible for reviewing sustainable development policies, strategies, and management guidelines. Additionally, the Committee supervises the Company's promotion of initiatives and implementation plans in response to climate change and regularly reports to the Board of Directors.</p> <p>1.3 Since 2021, the President holds ESG meeting once every month to review the Company’s sustainable policy and strategy and the implementation status. Besides, the Company has set up different functional groups to promote the projects in the aspect of Environmental, Social, and Corporate Governance, reported to the President in ESG meeting per month. Sustainability Report is reviewed by the Sustainable Development Committee and reported to the Board. The Company also connects the evaluation items of the management with the achievement of the Company’s ESG goals, encouraging departments, staff and supervisors to reach the goal of sustainable development while pursuing profits of the Company.</p>																													
2. Describe how the identified climate risks and opportunities affect the business, strategy, and finances of the business (short, medium, and long term).	<p>2.1. The Company identified 12 risks and 6 opportunities with reference to TCFD recommendation; additionally, the Company also establishes the countermeasures and strategy according to its impact time and scale. The analysis of climate risks and opportunities were as follows:</p> <p>A.12 Risks:</p> <table><tr><th>Impact Time</th><th colspan="2">Risk Type</th><th>Climate-related Issues</th><th>Poential Financial Risk</th><th>Measures</th></tr><tr><td>Short-term</td><td rowspan="3">Transformation Risk</td><td rowspan="3">Policy and legal</td><td>Renewable energy regulations Climate Change Response Act Regulations on the Water Conservation Charge</td><td><ul style="list-style-type: none">Compliance-related expenditure (carbon fee/ water conservation charge)Assuming that the carbon fee is calculated NT\$ 100/ton, the estimated carbon fee in 2023 was NT\$16,170,000. The water consumption fee was NT\$1,150,000 and if the carbon fee, water consumption fee and other estimated pollution control fees, the estimated cost amounted to NT\$ 27,990,000.</td><td rowspan="3"><ul style="list-style-type: none">Set medium-term and long-term reduction goals and transformation plansImplement various energy-saving and carbon reduction plansInstall renewable energy systemAdopt energy self-sufficiency policy (continue searching for opportunities to implement renewable energy sources)</td></tr><tr><td>Long-term</td><td>The nation's net zero goal</td><td>Operating costs of low-carbon transformation</td></tr><tr><td>Mid-term</td><td>The nation's renewable energy policy</td><td>According to the nation's energy policy, renewable energy sources will account for 20% by 2025, and a rise in the cost of purchased electricity will increase operating costs.</td></tr><tr><td>Short-term</td><td></td><td>Technology</td><td>Low carbon emission/low environmental impact technologies to replace existing</td><td>The cost of waterless dyeing technology remains high, which leads to poor sales performance unless sales orders reach a certain size.</td><td>Explore new customers and redesign equipment to produce other waterless fabrics and products</td></tr></table>						Impact Time	Risk Type		Climate-related Issues	Poential Financial Risk	Measures	Short-term	Transformation Risk	Policy and legal	Renewable energy regulations Climate Change Response Act Regulations on the Water Conservation Charge	<ul style="list-style-type: none">Compliance-related expenditure (carbon fee/ water conservation charge)Assuming that the carbon fee is calculated NT\$ 100/ton, the estimated carbon fee in 2023 was NT\$16,170,000. The water consumption fee was NT\$1,150,000 and if the carbon fee, water consumption fee and other estimated pollution control fees, the estimated cost amounted to NT\$ 27,990,000.	<ul style="list-style-type: none">Set medium-term and long-term reduction goals and transformation plansImplement various energy-saving and carbon reduction plansInstall renewable energy systemAdopt energy self-sufficiency policy (continue searching for opportunities to implement renewable energy sources)																									
Long-term			The nation's net zero goal	Operating costs of low-carbon transformation																										
Mid-term			The nation's renewable energy policy	According to the nation's energy policy, renewable energy sources will account for 20% by 2025, and a rise in the cost of purchased electricity will increase operating costs.																										
Short-term		Technology	Low carbon emission/low environmental impact technologies to replace existing	The cost of waterless dyeing technology remains high, which leads to poor sales performance unless sales orders reach a certain size.	Explore new customers and redesign equipment to produce other waterless fabrics and products																									

Item	Implementation Status						
				technologies	AI-assisted production procedures are unstable and produce low yields in the early stage of implementation; the additional raw material and energy input raises operating costs.	Adopt rigorous tests and standardized processes for quality improvement	
	Mid-term		Market	Environmental and low carbon products	Loss of revenues due to inability to satisfy customers' needs.	Research and development of environment-friendly and recyclable products and low-carbon production procedures	
	Current			Volatility of international fossil fuel prices	The rising cost of fossil fuels such as coal and natural gas increases operating costs.	<ul style="list-style-type: none">• Make ongoing improvements to energy efficiency• Reduce dependency on fossil fuel• Continue searching for opportunities to implement renewable energy sources (solar power)	
	Mid-term			Price hike from raw material suppliers	The rising cost of raw materials will decrease the profitability of the Company	<ul style="list-style-type: none">• Engage suppliers in long-term contracts to reduce risks• Adopt diversified supply of raw materials	
	Mid-term		Reputation	Reputation risk of petrochemical materials/products	Brand customers have transitioned towards environment-friendly/recyclable products, causing a reduction in revenues.	Continue investment into the R&D of smart/environment-friendly products (without petrochemical materials).	
	Short-term	Physical Risk	Acute	Flood from acute weather events (e.g.: heavy precipitation, cyclone)	<ul style="list-style-type: none">• Flooding of the plant premise would damage equipment, affect production activities, and give rise to additional capital expenditure.• Affects safety of employees' commute• Flooding of the plant premise causes an overflow in the water treatment pool, loss of reputation, and loss of customers' orders.	<ul style="list-style-type: none">• Adopt enhanced emergency response measures• Regular inspection/cleanup of the drainage system• Alternative water source project• Purchase omnibus insurance coverage	
				Power disruption from acute weather events	May cause damage to production equipment, incur additional capital expenditure, and affect product delivery.		
	Mid-term	Chronic	Drought (increase in the number of consecutive dry days)	Affects product delivery; increases the risk of contract breach and penalties.	<ul style="list-style-type: none">• Continue investment into water recycling solutions• Alternative water source project (Hushan Reservoir)		
	Long-term		Rise in average temperature	<ul style="list-style-type: none">• Reduced sale/demand for thermal products causes a reduction in the Company's revenues and profits.• Increased use of air conditioning gives rise to additional operating costs.	<ul style="list-style-type: none">• Research and develop cooling/temperature-regulating products to increase revenues• Make ongoing improvements to energy efficiency (ISO 50001 - energy management system)		
	B. 6 Opportunities						
	Impact Time	Opportunity Type	Climate-related Issues		Poential Finanicial Opportunity	Measures	

Item	Implementation Status				
	Current	Resource efficiency	AI project for factories	Reduce the cost of power, water, and raw materials.	Combine big data and AI to increase the first-time success rate of the dyeing process
			ISO 50001 - energy management solution	<ul style="list-style-type: none"> • Reduce operating costs of power • Reduce uncertainties associated with greenhouse gas-related regulations. 	Capitalize on the energy conservation opportunities identified through ISO 50001, and monitor progress through the energy conservation meetings held by Formosa Chemicals & Fibre.
			Water recycling system	Improve sustainability reputation, strengthen customers' trust, and increase potential revenues from sales orders	Invest in a wastewater recycling system and increase the percentage of water recycled to minimize dependency on water
	Current	Market	Opportunity to switch out fossil fuel	<ul style="list-style-type: none"> • Reduce uncertainties associated with greenhouse gas-related regulations. • Reduce the Company's carbon emission volume 	Redesign existing fuel oil heaters and transition towards low-carbon fuel (natural gas) for lower carbon emission.
	Short-term	Products and services	Eco-friendly and low-carbon products	<ul style="list-style-type: none"> • Increase product sales in line with market trends and needs of brand customers. • Reduce product carbon emission during the product use stage, and improve environmental performance. 	Continue collaboration with foreign companies to make use of recyclable materials; invest resources into the research and development of functional and smart solutions.
	Current	Resilience	Alternative raw materials	Reduce fossil fuel dependency on tote bags	Increase biomass content by 20% from 30% to 50%.
3. Describe the financial impact of extreme weather events and transformative actions.	<p>3.1 Extreme Weather Event:</p> <p>A. If extreme and acute weather events (such as heavy precipitation or typhoon) happen, the flooding in the plants may damage the equipment and affect manufacturing process, and further, increase the expenditures on fixing the equipment.</p> <p>B. If power disruption happens, it may cause damage to production equipment, incur additional capital expenditure, and affect product delivery.</p> <p>C. The disruption of manufacturing process from drought may affect the sales.</p> <p>D. The rise in average temperature may reduced sales/orders for thermal products, reducing the sales and profits.</p> <p>3.2 Transition Action: In line with the trend of carbon reduction, the Company continues to develop environmental-friendly products to increase the sales such as eco-friendly fabrics (recycled material, biomass material, and recycled polyester and polyamide from the ocean waste), and eco-friendly tire cord made of nylon ocean recycled yarn, with twisting, weaving and dipping processes, as reinforcements or anti-puncture layer for bicycle tire. It is expected to increase the sales due to the growing environmental awareness.</p> <p>3.3 To well manage the risks from extreme weather and the low-carbon transition, the Company takes these risks into the operating decisions, identify and manage them. Additionally, the Company reviews the crisis of global warming and resource depletion and strives to implement the measures in response to the trend of energy saving and carbon reduction.</p>				

Item	Implementation Status								
4. Describe how climate risk identification, assessment, and management processes are integrated into the overall risk management system.	<p>4.1 The Company has established a well organization structure, policy and guidelines for risk management. The scope of risk covers business risk, legal and compliance risk, and environmental risk (including climate change); the aspects includes environmental protection, social responsibility, and corporate governance. The environmental risk (including climate change) has been intergrated into the Company’s Risk Management Policy, indicating that the Company considers the climate change as strategic business risks, and identifying, assessing, and managing climate-related risks are intergrated into risk management process.</p> <p>4.2 Risk management is conducted taking the "Operational Division: President's Office" as center. Risks that may affect the Company's operations are identified and, based on the nature of the risks, the likelihood and impact are jointly assessed by collaboration of different business-related units. After assessment, timely feedback is provided to the management to adjust the Company's operational strategies.</p> <table border="1" data-bbox="548 518 2101 826"> <tr> <td data-bbox="548 518 831 595">Risk Identification</td><td data-bbox="831 518 2101 595"> <ul style="list-style-type: none"> • Identify the climate risks and opportunities according to the nature of business on a yearly basis. • Refer the climate risk reports issued by the internation institutions. </td></tr> <tr> <td data-bbox="548 595 831 671">Risk assessment</td><td data-bbox="831 595 2101 671"> <ul style="list-style-type: none"> • Assess the level of impact and influence based on the nature of business. • Scope of assessment, including the impact pathway, timeline, areas, value chain, and financial impact. </td></tr> <tr> <td data-bbox="548 671 831 748">Risk monitoring</td><td data-bbox="831 671 2101 748"> <ul style="list-style-type: none"> • Intergrate the industrial environmental, social, and corporate governance risk factors into evaluation system. • Monitor the climate risk indicators and manage the loss from the climate risks. </td></tr> <tr> <td data-bbox="548 748 831 826">Risk reporting</td><td data-bbox="831 748 2101 826"> <ul style="list-style-type: none"> • Regularly report the performance and risk indicators to the Board. • Irregularly report the risks related to climate change to the Management and independent directors. </td></tr> </table>	Risk Identification	<ul style="list-style-type: none"> • Identify the climate risks and opportunities according to the nature of business on a yearly basis. • Refer the climate risk reports issued by the internation institutions. 	Risk assessment	<ul style="list-style-type: none"> • Assess the level of impact and influence based on the nature of business. • Scope of assessment, including the impact pathway, timeline, areas, value chain, and financial impact. 	Risk monitoring	<ul style="list-style-type: none"> • Intergrate the industrial environmental, social, and corporate governance risk factors into evaluation system. • Monitor the climate risk indicators and manage the loss from the climate risks. 	Risk reporting	<ul style="list-style-type: none"> • Regularly report the performance and risk indicators to the Board. • Irregularly report the risks related to climate change to the Management and independent directors.
Risk Identification	<ul style="list-style-type: none"> • Identify the climate risks and opportunities according to the nature of business on a yearly basis. • Refer the climate risk reports issued by the internation institutions. 								
Risk assessment	<ul style="list-style-type: none"> • Assess the level of impact and influence based on the nature of business. • Scope of assessment, including the impact pathway, timeline, areas, value chain, and financial impact. 								
Risk monitoring	<ul style="list-style-type: none"> • Intergrate the industrial environmental, social, and corporate governance risk factors into evaluation system. • Monitor the climate risk indicators and manage the loss from the climate risks. 								
Risk reporting	<ul style="list-style-type: none"> • Regularly report the performance and risk indicators to the Board. • Irregularly report the risks related to climate change to the Management and independent directors. 								
5. If scenario analysis is used to assess resilience to climate change risks, the scenarios, parameters, assumptions, analysis factors and major financial impacts used should be described.	<p>5.1 The Company has incorporated the identification of climate-related risks and opportunities into ISO14001 procedures to more effectively integrate management practices. The Company performs risk assessments on internal and external environmental issues each year. These assessments are jointly performed by the R&D Department, Energy Management Department, Safety & Hygiene Department, and Sustainable Development Department, during which they would review and evaluate the relevance of various issues on the Company's business risks and significance of risks from different perspectives.</p> <p>5.2 With respect to the assessment methodology, the Company follows the Recommendations of the Task Force on Climate-related Financial Disclosures (June 2017) and mainly takes into consideration transformation risks (Policy and Law/Market/Technology/Reputation) and physical risks (chronic and acute) to perform risk scenario analysis, The financial impacts that amount to more than NT\$20 million (i.e. material financial impacts) are classified as enterprise-level risk.</p> <p>5.3 For events that the Company considers to be of major risk, corresponding management plan must be generated to reduce the loss caused by the risk. The Company analyzes all available management solutions and perform indicator settings, classified into risk elimination, risk mitigation and risk diversification. In addition, the final plan for implementation is determined through a meeting. All management solutions have to be monitored regularly or incorporated into the environmental management system (ISO 14001), and thereby integrated into the Company's risk management practices. Additionally, with reference to TCFD recommendations, the Company employed three different scenarios to analyze the financial impacts.</p> <p>A. INDC scenario:</p>								

Item	Implementation Status								
	<p>(1) The nation has set its medium-term goal to reduce greenhouse gas emissions by 20% (compare to 2005), or down to 214 million tonnes, by 2030. Using this scenario, we evaluated how different strategies undertaken by the nation's 7 major sectors, including energy, industry, residential housing, service, transportation, agriculture, and waste, are likely to impact the Company.</p> <p>(2) By simulating the BAU scenario, total greenhouse gas emission is expected to increase to 428 million tonnes by 2030. However, the INDC's goal is 215 million tonnes by 2030, and the nation's energy policy at that time forgoes the use of nuclear power.</p> <p>(3) Due to the fact that Taiwan Power Company (TPC) has not announced any forecast or plan on electricity prices for 2030, we have made our own estimates using TPC's publicly available information, including the unit price of electricity and volume of electricity sold for various energy types. If renewable energy accounts for a higher percentage of Taiwan's power supply, from 4.9% in 2018 to 40% by 2030, as planned in the national energy policy, TPC may raise electricity prices by 50% due to the higher cost of renewable energy. This was the basis of how we evaluated the impact of a rise in energy cost under the INDC scenario. As per evaluation, the Company's operating costs would rise by only 0.6%.</p> <p>B. Well-below 2°C (transition scenario):</p> <p>The Company uses the standards published by SBTi to analyze transition risks under the Well-below 2°C scenario. The scenario assumes a 2.5% reduction in carbon emission per year, and the costs it takes to achieve the Well-below 2°C by 2027 would translate into a 1.4% increase in operating costs for the Company as the financial impact to the Company, if the green power is adopted as the primary strategy.</p> <p>C. RCP (physical risk scenario):</p> <p>(1) For the RCP scenario, we used Taiwan Climate Change Projection Information and Adaptation Knowledge Platform (TCCIP) to perform online simulations for RCP2.6, RCP4.5, RCP6.0, and RCP8.5 (each representing a different concentration level) and establish an understanding of the worst results that can happen.</p> <p>(2) With respect to the changes in temperature and rainfall, the scenario for the most significant change in temperature is RCP8.5, which will increase by 2.6°C from 2041 to 2060, thus increasing the power consumption of air conditioners; however, air conditioners do not constitute the Company's main energy consumption activity.</p> <p>(3) The scenario for the most significant increase in total rainfall is RCP8.5 between 2041 and 2060, in which the daily rainfall increases by 1.95mm (annual rainfall as 711.8mm), thus increasing the risk over drainage equipment; however, the Company conducts the flooding drills regularly each year, in order to prevent hazards. The scenario for the most significant decrease in total rainfall is RCP8.5 between 2041 and 2060, in which the daily rainfall decreases by 0.74mm (annual rainfall as 270.1mm), thus increasing the risk over water shortage equipment; for the time being, the Company wishes to increase the water supply in Hushan Reservoir, in order to mitigate the risk over water shortage.</p> <table> <tr> <th>Item</th><th>Taiwan (Main Plant and Second Plant)</th></tr> <tr> <td>Scenario Analysis</td><td>Prediction is made for the scenarios of RCP2.6, RCP4.5, RCP6.0, and RCP8.5, and scenario RCP 8.5 is used to perform the risk assessment of extreme weather</td></tr> <tr> <td>Time scale</td><td>2020~2040 and 2040~2060</td></tr> <tr> <td>Rising sea level</td><td>No impact</td></tr> </table>	Item	Taiwan (Main Plant and Second Plant)	Scenario Analysis	Prediction is made for the scenarios of RCP2.6, RCP4.5, RCP6.0, and RCP8.5, and scenario RCP 8.5 is used to perform the risk assessment of extreme weather	Time scale	2020~2040 and 2040~2060	Rising sea level	No impact
Item	Taiwan (Main Plant and Second Plant)								
Scenario Analysis	Prediction is made for the scenarios of RCP2.6, RCP4.5, RCP6.0, and RCP8.5, and scenario RCP 8.5 is used to perform the risk assessment of extreme weather								
Time scale	2020~2040 and 2040~2060								
Rising sea level	No impact								

Item	Implementation Status																																									
	Below-tidal-line area (risk of flooding)	No impact																																								
	Area below the 2050 flood line	No impact																																								
	Average drought length	67 days																																								
	Rise in temperature	2.6																																								
	Total rainfall	Increase by no more than 711.8mm; decrease by no more than 270.1mm																																								
	Maximum number of days of continuous rainfall	Maximum 10.1 days of consecutive rainfall																																								
6. If there is a transition plan for managing climate-related risks, describe the content of the plan, and the indicators and targets used to identify and manage physical risks and transition risks.	6.1 The Company implements five strategies to promote management of climate change risks and opportunities, which include being committed to research and development of low-carbon products, presence of green technology production, adapting to climate change risks, collaborating with sustainable partners, and setting indicators and goals for climate advocacy and consciousness cultivation aspects.																																									
	<table><tr><th>Strategies</th><th>Indicators</th><th>2027 Goals</th></tr><tr><td>Being committed to research and development of low-carbon products</td><td>Progress in advanced process and product development</td><td>Mass production of eco-friendly fabrics and tire cord fabrics</td></tr><tr><td rowspan="3">Presence of green technology production</td><td>Reduction of greenhouse gas Scope 1 and Scope 2 emissions</td><td>-26.3%</td></tr><tr><td>Introduction of AI and energy saving equipment</td><td>Continued introduction of AI and energy saving equipment</td></tr><tr><td>Renewable energy consumption</td><td>More than 10%</td></tr><tr><td rowspan="4">Adapting to climate change risks</td><td>Recovery rate of water</td><td>70%</td></tr><tr><td>Operational disruption caused by natural disasters</td><td>0</td></tr><tr><td>Operational work-related injuries caused by natural disasters</td><td>0</td></tr><tr><td>Green Factory Certification</td><td>Maintaining the Certification</td></tr><tr><td rowspan="3">Collaborating with sustainable partners</td><td>Sustainability risk assessment coverage rate of suppliers</td><td>100%</td></tr><tr><td>Improvement rate of deficiencies</td><td>100%</td></tr><tr><td>Reduction of Scope 3 emissions</td><td>-20%</td></tr><tr><td rowspan="5">Climate advocacy and consciousness cultivation</td><td>SBTi</td><td>Achieve the SBTi Target</td></tr><tr><td>CDP Climate Change</td><td>Leadership level</td></tr><tr><td>CDP Water Management</td><td>Leadership level</td></tr><tr><td>Climate change events for all employees</td><td>At least one item</td></tr><tr><td>Employee training courses</td><td>100%</td></tr></table>	Strategies	Indicators	2027 Goals	Being committed to research and development of low-carbon products	Progress in advanced process and product development	Mass production of eco-friendly fabrics and tire cord fabrics	Presence of green technology production	Reduction of greenhouse gas Scope 1 and Scope 2 emissions	-26.3%	Introduction of AI and energy saving equipment	Continued introduction of AI and energy saving equipment	Renewable energy consumption	More than 10%	Adapting to climate change risks	Recovery rate of water	70%	Operational disruption caused by natural disasters	0	Operational work-related injuries caused by natural disasters	0	Green Factory Certification	Maintaining the Certification	Collaborating with sustainable partners	Sustainability risk assessment coverage rate of suppliers	100%	Improvement rate of deficiencies	100%	Reduction of Scope 3 emissions	-20%	Climate advocacy and consciousness cultivation	SBTi	Achieve the SBTi Target	CDP Climate Change	Leadership level	CDP Water Management	Leadership level	Climate change events for all employees	At least one item	Employee training courses	100%	
Strategies	Indicators	2027 Goals																																								
Being committed to research and development of low-carbon products	Progress in advanced process and product development	Mass production of eco-friendly fabrics and tire cord fabrics

Item	Implementation Status																																			
	6.2 To enable stakeholders to fully understand the efforts and achievements of the Company in promoting energy conservation, emission reduction, and circular economy, as well as our capacity for management of physical and transition risks and opportunities of climate change adaptation, the Company has prepared a report based on the TCFD framework. The report is updated annually and published on the company website. The 2022 edition was released on June 2023. For indicators and goals related to the management of physical and transition risks, please refer to the Company's TCFD report.																																			
7. If internal carbon pricing is used as a planning tool, the basis for setting the price should be stated.	<p>7.1 The Company responded to the emission limits imposed under the " Climate Change Response Act (originally named “Greenhouse Gas Reduction and Management Act”) of the Environmental Protection Administration as early as 2018 with the implementation of an internal carbon pricing system. The carbon emission price has been set at NT\$1,500 per tonne based on Article 28 of the "Greenhouse Gas Reduction and Management Act," and the carbon emissions were set as NT\$100 per tonne, and no more than NT\$1,500 per tonne if they exceed the target carbon emissions. The price is being used for internal evaluation of greenhouse gas-related risks and opportunities.</p> <p>7.2 The Company calculated the internal carbon pricing in 2023. Specifically, the carbon emissions were set as NT\$100 per tonne, and no more than NT\$1,500 per tonne if they exceed the target carbon emissions. Meanwhile, taking 2019 as the base year, the Company aims to reduce the emissions by 2.5% each year as its estimated annual target emissions. The carbon emissions in Taiwan Plant was 162,000 tonnes in 2023, decreasing by 227,000 tonnes from the target emissions for 2023, 389,000 tonnes. The charges for carbon emissions in 2023 are estimated to be NT\$16,200,000.</p>																																			
8. If climate-related targets have been set, the activities covered, the scope of greenhouse gas emissions, the planning horizon, and the progress achieved each year should be specified. If carbon credits or renewable energy certificates (RECs) are used to achieve relevant targets, the source and quantity of carbon credits or RECs to be offset should be specified.	<p>8.1 The Company’s carbon reduction target was validated by Science-based Targets initiative, SBTi, becoming the first textile company in Taiwan to be validated. The Company commits to reduce scope 1+2 GHG emissions 26.3% by 2027 from a base year 2019, and also commits to reduce scope 3 GHG emissions 20% within the same timeframe. The Company will continue moving towards the vision of carbon neutrality in 2050.</p> <p>8.2To strengthen the management of GHG emission, the Company introduced SBTi to calculate the goal and pathway for reducing carbon emissions. The Company sets 2019 as the base year. The Taiwan Plant needs to cut down 50% of GHG emissions by 2030 compared with the base year. The GHG emissions of Taiwan plant in 2023, verified in accordance with ISO 14064 by SGS Taiwan Limited, was less than 63.7% compared with the base year. In addition, the Company was ranked A list in Climate Change by CDP in 2023. The Company upholds the spirits of sustainable development and show our resolution in reducing carbon emission, expecting to reach carbon neutrality by 2050. The GHG emissions in Taiwan Plant over past years are shown as the table below:</p> <div><div>Unit : CO₂e/tons</div><table><tr><th>Year</th><th>*2019^A</th><th>2021</th><th>2022</th><th>2023^B</th><th>Difference ^(A-B)</th><th>Variance Rate (%)</th></tr><tr><td>Scope 1</td><td>347,211</td><td>254,887</td><td>192,398</td><td>78,689</td><td>268,522</td><td>77.3%</td></tr><tr><td>Scope 2</td><td>98,220</td><td>93,266</td><td>88,692</td><td>83,080</td><td>15,140</td><td>15.4%</td></tr><tr><td>Total</td><td>445,431</td><td>348,153</td><td>281,090</td><td>161,769</td><td>283,662</td><td>63.7%</td></tr><tr><td>Unit Emissions</td><td>16.22</td><td>14.22</td><td>10.74</td><td>7.35</td><td>8.87</td><td>54.7%</td></tr></table></div>	Year	*2019 ^A	2021	2022	2023 ^B	Difference ^(A-B)	Variance Rate (%)	Scope 1	347,211	254,887	192,398	78,689	268,522	77.3%	Scope 2	98,220	93,266	88,692	83,080	15,140	15.4%	Total	445,431	348,153	281,090	161,769	283,662	63.7%	Unit Emissions	16.22	14.22	10.74	7.35	8.87	54.7%

Item	Implementation Status
9. Greenhouse gas inventory and assurance status and reduction targets, strategy, and concrete action plan (also filled in 1-1 and 1-2).	<p>9.1 Since 2018, the Company has been conducting greenhouse gas inventory and commissioning external organizations such as SGS and BSI for verification. It has also reported the emissions to the Ministry of Environment in accordance with the law.</p> <p>9.2 In order to demonstrate its commitment to carbon reduction, the Company not only publicly declares short-, medium-, and long-term goals, but also submits reports to the International Carbon Disclosure Project (CDP) Organization annually to disclose the Company's carbon management practices. In 2023, it achieved the "Leadership level" in the rating.</p> <p>9.3 To verify the effectiveness of carbon reduction, the Company has set a goal of limiting temperature rise to no higher than 2°C to control carbon reduction and has applied for certification from the International SBTi (Science Based Targets initiative) organization, which has been recognized and approved. Its goal is to achieve an annual average reduction of 2.5% in Scope 1 and Scope 2 emissions within 5 to 15 years.</p>

1.1 The Company's greenhouse gas inventory and assurance in the recent two years

1.1.1 Information on greenhouse gas inventory

State the greenhouse gas emissions (metric tons of CO ₂ e), intensity (metric tons of CO ₂ e/million), and scope of data coverage in the recent two years:					
Year	Scope of data coverage	Scope 1		Scope 2	
		Amount of Emissions (tCO ₂ e/million)	Emission intensity (tCO ₂ e/million)	Amount of Emissions (tCO ₂ e/million)	Emission intensity (tCO ₂ e/million)
2023	Parent Company, Formosa Development Co., Ltd.	78,689.0	3.57	83,080.0	3.77
	Formosa Taffeta (Zhong Shan) Co, Ltd.	It is estimated to conduct GHG inventory between March and May, 2024, and verified by the third party in June, 2024. The verification statement is expected to obtain in September, 2024.			
	Formosa Taffeta (Changshu) Co., Ltd.				
	Formosa Taffeta Vietnam Co., Ltd.				
	Formosa Taffeta (Dong Nai) Co., Ltd.				
2022	Parent Company, Formosa Development Co., Ltd.	192,398.0	7.35	88,692.0	3.39
	Formosa Taffeta (Zhong Shan) Co, Ltd.	15,889.6	7.93	22,968.3	11.46
	Formosa Taffeta (Changshu) Co., Ltd.	2,620.2	2.16	26,639.6	21.92
	Formosa Taffeta Vietnam Co., Ltd.	49,019.7	19.17	27,060.3	10.58
	Formosa Taffeta (Dong Nai) Co., Ltd.	7,707.3	1.80	98,640.3	23.02

Note 1: According to the current international recognized standard (take SBTi for example, under 5% of total combined scope 1 and 2 emissions are deemed immaterial) and the regulations announced by the Bureau of Environment (the emission sources under 0.5% of total emissions can be calculated in a simple quantitative way, which shall not more than 5% of total emissions), but in pursuit of the goal of sustainable environment, Formosa Taffeta Hong Kong CO., LTD. and Public More International Company Ltd. are scheduled to be validated in June 2024.

Note 2: Direct emissions (Scope 1, i.e., emissions directly from sources owned or controlled by the Company), and energy indirect emissions (Scope 2, i.e., greenhouse gas emissions indirectly caused by the input of electricity, heat, or steam).

Note 3: The scope of data coverage of direct emissions and energy indirect emissions shall be handled in accordance with the schedule specified in the provision of Article 10, Paragraph 2 of the Guideline. Information on other indirect emissions may be voluntarily disclosed.

Note 4: Standard for greenhouse gas inventory: Greenhouse Gas Protocol (GHG Protocol) or ISO 14064-1 issued by the International Organization for Standardization (ISO).

Note 5: The intensity of greenhouse gas emissions can be calculated by using product, service, or revenue per unit. However, at least the data calculated by revenue (NT\$ million) shall be stated.

1.1.2 Information on greenhouse gas assurance

State the explanation of assurance during the recent two years up to the date of publication of the annual report, including the scope of assurance, assurance agencies, assurance standards, and assurance opinions:					
Basic information of the company <input checked="" type="checkbox"/> Capital of NT\$10 billion or more, iron and steel industry, or cement industry <input type="checkbox"/> Capital of NT\$5 billion or more but less than NT\$10 billion <input type="checkbox"/> Capital of less than NT\$5 billion			Minimum required disclosure under the Sustainable Development Roadmap for TWSE/TPEX Listed Companies: <input checked="" type="checkbox"/> Inventory for parent company only <input checked="" type="checkbox"/> Assurance for parent company only <input type="checkbox"/> Inventory for all consolidated entities <input type="checkbox"/> Assurance for all consolidated entities		
Year	Scope of data coverage	Assurance agency	Assurance standards	Assurance opinions	Description
2023	Parent Company, Formosa Development Co., Ltd.	SGS Taiwan Ltd.	ISO 14064-3 Limited Assurance	Non-reserved	The emissions of Scope 1 and 2 was 161,770 tons.
	Formosa Taffeta (Zhong Shan) Co, Ltd.		<ul style="list-style-type: none"> ● It is estimated to conduct GHG inventory between March and May, 2024 and be verified by the third party in June, 2024. ● It is expected to obtain the verification statement in September, 2024. ● Please refer to the Company's Sustainability Report or the website (investors section > CSR) for further information.

1.2 Greenhouse gas reduction goals, strategies, and specific action plans

State the base year and its data, reduction goals, strategies and specific action plans, as well as the achievement of reduction goals of greenhouse gas reduction						
<p>1. State the base year, its data, and reduction goals: The Company commits to reduce scope 1+2 GHG emissions 26.3% by 2027 from a base year 2019, and also commits to reduce scope 3 GHG emissions 20% within the same timeframe. The Company will continue moving towards the vision of carbon neutrality in 2050.</p> <p>2. State the strategies and specific action plans:</p> <p>(1). The carbon reduction plan for Scope 1 and 2 is through the usage of energy saving equipment and renewable energy. In addition, the Scope 1 and 2 emissions are verified by the third party in accordance with ISO 14064. °</p> <p>(2). The Company establishes three pillars to reach SBTi Target:</p> <p>2.1 Introduction of advanced manufacturing process technology to increase the production and energy efficiency.</p> <p>2.2 Promote the renewable energy usage and low-carbon energy transition to fulfill the energy saving and emission reduction.</p> <p>2.3 Develop environment-friendly and low-carbon products in cooperation with our value chain, establishing comprehensive audit and mentoring framework to engage with suppliers regarding ESG issues, and forms a task force to enhance the climate change capabilities and competition of the Company.</p> <p>(3). The Company has become a TCFD supporter at the end of 2020 and disclosed the strategies and measures in response to climate change with the reference to TCFD recommendations. The Company has been rated as Leadership Level in Climate Change and Water Security by CDP; additionally, the Company was invited to “CDP Taiwan Forum,” jointly held by CDP and BCSD Taiwan. It shows the recognition on the Company’s long efforts in combating climate change.</p> <p>3. The achievement of reduction goals of greenhouse gas reduction: The GHG emissions in Taiwan Plant in 2023 was 162,000 tons, reduced by 283,000 tons (-64%) compared with 2019, base year,- 445,000 tons.The GHG emissions in Taiwan Plant over past years are shown as the table below:</p>						
Unit : CO ₂ e/tons						
Year	*2019 ^A	2021	2022	2023 ^B	Difference ^(A-B)	Variance Rate (%)
Scope 1	347,211	254,887	192,398	78,689	268,522	77.3%
Scope 2	98,220	93,266	88,692	83,080	15,140	15.4%
Total	445,431	348,153	281,090	161,769	283,662	63.7%
Unit Emissions	16.22	14.22	10.74	7.35	8.87	54.7%

(G) Fulfillment of Code of Ethics and Business Conduct and measures adopted :

Fulfillment of Code of Ethics and Business Conduct and Deviations from the “Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies,” and Reasons :

Evaluation items	Operating status (note 1)			Difference from "Ethical Corporate Management Best Practice Principles for TWSE/TPEX Listed Companies" and reasons
	Yes	No	Summarized explanation	
1. Stipulating policies and plans for ethical corporate management				
(1) Has the Company established the Code of Ethics and Business Conduct, which have been approved by the Board of Directors, and clearly stipulated regulations and policies for ethical business conduct and relevant guidelines in company articles and external documents? Does the Company’s Directors and management team actively fulfill their commitment to corporate policies?	V		1. The Company complies with the Company Act, the securities trading law, and other related regulations, and upholding the “Diligence, Perseverance, Frugality and Trustworthiness” enterprise spirit in order to comply with the law and ethical standards. With the business philosophy of honesty, integrity, fairness, and transparency, self-discipline, and responsibility, the Company has established the Code of Ethics and Business Conduct, which have been approved by the Board of Directors. With the Company's President Office as the driving unit to formulate and implement various ethical policies, the Company establishes a good corporate governance and risk control mechanism, to seek sustainable development of the Company. The Board of Directors and management also promises to actively implement and supervise the implementation of the integrity management policy.	In compliance with Article 4 and Article 5 of the “Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies.”
(2) Does the company establish a risk assessment mechanism against unethical conduct, regularly analyze and assess business activities within their business scope which are at a higher risk of being involved in unethical conduct? Does the company establish prevention programs accordingly including measures prescribed in Article 7 Paragraph 2 of the Ethical Corporate Management Best Practice Principles for	V		2.1. The Company has established strict rules of conduct and ethics in the rules and regulations such as "Work Rules" and other rules and regulations to specify the relevant reward and punishment regulations. Directors, managers, servants of the Company, or those who have substantial control capabilities are prohibited from providing, pledge, requesting or accepting any illegitimate interests directly or indirectly, or making other violations of good faith, illegality, or breach of fiduciary duty to prevent malpractice, misappropriation of public funds, acceptance of bribes, disclosure or lies, and other acts of dishonesty. 2.2. The Company analyzes and assess periodically business activities within their business scope which are at a higher risk of being involved in unethical conduct. For those who engage in business activities with a high risk of dishonest behavior, the company has clearly established “Working Rules”	Complying with the regulations specified in Article 7 of "Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies," the Company has specified and enacted regulations designed to prevent unethical conduct in multiple rules and systems. Nevertheless, specific "Procedures for Ethical Management and Guidelines for Conduct" has yet to be formulated.

			<p>forbidden to disclose any information to unrelated parties. Supervisors at all levels must also keep information confidential. All relevant information must be processed and archived according to the confidential document procedures to ensure the informant does not experience any unjust setback.</p> <p>Where the occurrence of illegal or improper act has been found to be true, punitive actions will be taken based on the "Personnel Management Rules".</p> <p>Judicial or prosecuting institutions will be alerted when necessary.</p>	
<p>D. Strengthening of information disclosure</p> <p>Does the company disclosed its ethical corporate management principles and execution results on its website and the Market Observation Post System?</p>	V		<p>The company has disclosed information on ethical management on its website (http://www.ftc.com.tw/newftc/integrity.php) and in its annual report.</p>	<p>Compliance with article 25 of "Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies"</p>
<p>E. For company with own ethical management principles, formulated according to "Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies," describe the operation of its own principles and the difference with the later:</p> <p>The company's board of directors approved revised ""corporate ethical management principles" on Nov. 7, 2014 and resolved to make further revision of the principles on June 23, 2017. The company's principles are in general similar to the official version but stress more the nature of guidelines and integration, to accommodate the need of the company's survival and development.</p>				
<p>F. Other key information conducive to the understanding of the operation of the company's ethical management (such as how does the company revise its ethical management principles).</p> <p>The company arranges attendance of corporate-governance courses by directors and managerial staffers every year to augment their capabilities governing and supervising various businesses, in the hope of boosting governance efficacy and materializing ethical management.</p>				

(H) How to inquire about the company's corporate governance best-practice principles:

The company has formulated corporate governance best-practice principles; please access the company's website at

<http://www.ftc.com.tw/newftc/regulations.php>

(I) Disclose other important information conducive to the understanding of the operation of the company's corporate governance:

The company has formulated "Guidelines for Ethical Conducts of the Company's Directors and Managerial Staffers" (for details, refer to the company's annual report, item 6 specially registered items, VIII).

The company will publish the latest "2023 Sustainability Report" by the end of June 2024; please access to the company's website at http://www.ftc.com.tw/newftc/respons_report.php

(J) Execution status of internal control system

1. Statement on internal control system

Statement on internal control system by public companies

(Legal compliance specified in the statement is applicable to all laws/regulations)

Formosa Taffeta Co., Ltd.
Statement on Internal Control System
March 8, 2024

Based on self-assessment, the company makes the following statement on the company's internal control system in 2023:

1. The company is fully aware that establishment, execution, and maintenance of internal control system is the company's board of directors and managerial staff, in order to provide reasonable assurance for the efficacy and efficiency of operation (including profitability, performance, and protection of the safety of assets), the reliability, timeliness, and transparency of reports, and compliance with related norms, regulations, and laws.
2. Internal control system has its inherent constraint, as it, no matter how perfect is its design, can only provide reasonable assurance for the attainment of the aforementioned three objectives. In addition, change in environment and status may affect the efficacy of internal control system. Therefore, the company's internal control system has a mechanism of self-supervision, capable of locating defects for immediate rectification.
3. The company evaluates the efficacy of its internal control system, according to the evaluation items contained in the "Regulations Governing Establishment of Internal Control Systems by Public Companies" ("regulations" in short hereafter), which divides internal control system into five constituents, according to the procedure of management control: 1. control environment, 2. risk management, 3. control activities, 4. information and communications, 5. monitoring activities, with each containing several items (refer to the stipulations of the "regulations."
4. The company has employed the aforementioned evaluation items in checking the efficacy of the design and execution of the internal control system.
5. Based on the aforementioned evaluation result, the company believes that with reasonable assurance, the company's internal control system (including supervision and management of subsidiaries) as of Dec. 31, 2023 had been effective in both design and execution concerning understanding of the efficacy and efficiency of management, reliability, timeliness, and transparency of reports, and compliance with related norms, regulations, and laws.
6. The statement will be publicized, as a major part of the company's annual report and prospectus. Falsehood, concealment, and other illegalities in the aforementioned publicized contents would entail legal responsibilities, according to article 20, article 32, article 171, and article 174 of the Securities and Exchange Act.
7. The statement was approved by the company's board of directors on March 3, 2023, endorsed by all of the 11 directors in attendance, without any contrary opinion.

(5) Extempore motion: nil

Chen, Ming-Quan (the number of the shareholder,0181228) inquired the contents of dividend distribution, whether Formosa gas station plan to go public or not, whether there is any layoff plan or not, and whether the Chairman continues to be the same one.

The Chair of the meeting designated Director, Lee, Ming-Chang to answer the questions above.

The policy of dividends distribution is in consideration of the stable development of the Company. So far, there is no plan to have Formosa gas stations go public. In terms of the human resource plan, the Company may review and adjust the organization structure to improve the competitiveness. The Chairman of the Board is elected according to the resolution by the Board.

Return on investment	Price earnings ratio (note 5)		13.42	102.69	-
	Price dividend ratio (note 6)		18.07	53.40	-
	Yield rate of cash dividend (note 7)		5.54	1.87	-

Note 1: Denotes the common shares with highest and lowest market value for each year, calculated for the average annual market value for the trading value of each year and the trading volume.

Note 2: Please use the number of share outstanding by the end of the year and filled out by the distribution of the resolutions made by the Shareholders' Meeting of the second year

Note 3: In the event of free allotment and requires tracing for adjustment, each EPS shall be listed before and after adjustment.

Note 4: In case the condition of outstanding equity security is distributed according to the undistributed dividends of that year accumulated to the year with earnings, the accumulated undistributed dividends of that year shall be disclosed respectively.

Note 5: Price / Earnings Ratio = Average Market Price / Earnings per Share

Note 6: Price / Dividend Ratio = Average Market Price / Cash Dividends per Share

Note 7: Cash Dividend Yield Rate = Cash Dividends per Share / Average Market Price

Note 8: Net worth per share and EPS shall be filled to the date of publication of the annual report with the data attested (reviewed) by the CPA in last quarter. The other columns should also be filled up data during the current fiscal year up to the date of publication of the annual.

Note 9: NT\$0.26 cash dividend and no stock dividend for distribution of 2023 earnings is a proposal, approved by the Board meeting on March 8, 2024. On March 8, 2024, the Board proposed to distribute NT\$0.24 cash per share from capital surplus; the distribution date shall be decided after approval of shareholders' meeting.

(F) The company's dividend policy and execution status

1. Dividend policy

With business belonging to mature industry, the company retains stable profits, with dividend policy focusing on cash-dividend payout, capital increment with earnings, and capital increment with capital reserves. After deducting appropriations for legal reserve and special reserve, at least 50% of the distributable earnings of the current year is used in dividend payout, especially cash dividend. The combined amount of capital increment with earnings and capital increment with capital reserves should not exceed 50% of the dividend payout of the year.

2. Proposal for dividend payout at the shareholders' meeting

The Company proposes to distribute cash dividend NT\$0.26 per share, stock dividend NT\$0 per share, and NT\$0.24 per share from capital surplus, totaling NT\$0.5 dividend per share.

3. Expected major change in dividend policy: nil.

(G) Effect of proposal of stock grants at the shareholders' meeting on the company's business performance and earnings per share: not applicable (the company doesn't compile financial forecast).

(H) Compensations for employees and directors:

1. Percentage and scope of compensations for employees and directors specified in corporate charter: After settlement of final account, the resulting net profit, after deduction of business income tax, should be used in priority to cover accumulated loss of previous years, before appropriation of 10% of the balance as legal reserve and, if necessary, additional appropriation as special reserve, followed by appropriation for dividend. The remaining earnings, should it exist, would be combined with accumulated retained earnings of previous years for formulation of shareholder bonus payout by the directors for submission to shareholders' meeting for approval.

According to revised corporate charter approved by shareholders' meeting on June 24, 2016, if the company turns in a profit, after deduction of compensations for employees and directors, 0.05% to 0.5% of pretax profit would be appropriated for employee compensations and up to 0.5% for compensations for directors. However, if the company still has accumulated loss, appropriation should be made first on the profit to cover the loss.

2. Accounting for difference between the estimate as the basis for compensations for employees and directors and number of shares as the basis for stock payout as employee compensations and the actual payout value:

Estimate as the basis for compensations for employees and directors is made according to related law/regulation, the company's charter, and past experience. Difference between the estimate and actual payout value, if any, would be handled as variable in accounting and listed as profit/loss of next year.

3. Payout of compensations approved by the board of directors:

The company's board of directors passed the following resolution on March 8, 2024:

- (1) Cash payout of NT\$975,942 for employee compensation and NT\$487,971 for compensations for directors.

- (2) No payout for employee compensation in the form of stock, with share of such payout in after-tax net profit and total employee compensation being zero.
4. Explain the difference, if any, between actual payout for compensations for employees, directors, and supervisors in previous year (including the number of shares and value of money paid out and stock price) and the recognized amount of compensations for employees, directors, and supervisors, the scale of difference, reason, and handling status: Status of execution of payout approved by shareholders' meeting of the company on June 16, 2023:
- (1) Actual bonus payout in cash for employees reaches NT\$7,308,530 and NT\$3,654,265 for compensations for directors, with no stock payout;
 - (2) actual bonus payout for employees in the form of stock is zero, with share in capital increment with earnings being zero;
 - (3) after deduction of aforementioned payouts, earnings per share is imputed at NT\$2.02.
 - (4) there is no difference between the aforementioned actual payout and the payout plan approved by the board of directors.
- (I) Share buyback by the company: nil.
- B. Issuance of corporate bonds: nil**
- C. Issuance of special shares: nil**
- D. Issuance of overseas depository receipts: nil**
- E. Issuance of employee stock option certificates: nil**
- F. Managerial staffers with acquisition of employee stock option certificates and names of top 10 employees with largest number of employee stock option certificates and status of acquisition and subscription: nil**
- G. Issuance of restricted stock awards: nil**
- H. Managerial staffers with acquisition of restricted stock awards and names of top 10 employees with largest number of restricted stock awards and status of acquisition: nil**
- I. Issuance of new shares for acquisition of other company or transfer of other company's shares: nil**
- J. Status for the execution of fund utilization plan**
- (A) Contents of plan
1. Previous securities issuances or private share placements which have not been completed as of the date of the publication of annual report: nil
 2. Plans in recent three years which have been completed but have yet to manifest significant benefits: nil
- (B) Execution status
- Analyze item by item the purposes of aforementioned various plan as of the quarter prior to the publication of the annual report, execution status, and comparison with anticipated benefits: nil

V. Business Status

A. Business contents

(A) Business scope (according to business items registered with the Department of Commerce, the Ministry of Economic Affairs)

1. The company's major business items are:

- (1)production and sale of nylon fabric and polyester fabric;
- (2)production and sale of the alveolar bone of umbrella rib and tyre cord;
- (3)manufacturing, processing, and sale of polymers and related products;
- (4)traditional combed cotton yarn, blended yarn, new functional yarn, special protective yarn, and woven fabric;
- (5)production and sale of protective textile devices, including: [1] bulletproof vest, jacket, helmet, shield, mask; abrasion-resistance fabric, and products with composite materials (sports devices, fishing gear); [2] industrial work clothes, including clothes with acid-, alkaline-, fire-, and high temperature endurance and reprocessed products using such textiles, including fire-fighting coat, anti-heat clothes for working in boiler room, and chemical-industry work clothes; [3] clean-room wares (sterilized clothes, surgical gown, medical wrapping cloth, anti-static electricity clothes), and sterilized clothes;
- (6)Information software and service and design, manufacturing, and sale of communications software/hardware and components;
- (7)management of recreational area, children's amusement park, park, camping ground, swimming pool, skating rink, zoo, and general sports ground and lease of gear for water recreational activities and yacht;
- (8)management of hotel and affiliated restaurant;
- (9)transactions in staples, artifacts, groceries, general merchandise, and apparels;
- (10)agency and production of domestic and foreign artistic and performing-art events;
- (11)running of gas stations for sale of gasoline, diesel oil, kerosene, and petroleum products in small package, plus lubricant oil for autos and motorcycle, as well as simple maintenance, car washing, auto and motorcycle products, convenience store, parking lot, operation of automatic vending machine, and entrusted operation of regular auto inspection;
- (12)other businesses except those forbidden or restricted by law/regulation.

The above are the major business contents of Formosa Taffeta Co., Ltd.

2. 2023 Revenue distribution

Major products	Unit	Quantity	Amount of Sales (Unit: NT\$1,000)	%
Oil products	Kiloliter	402,109	11,256,091	39.49
Polyamide/Polyester fabric	1,000 yards	184,143	11,576,418	40.61
Polyamide/Polyester Tire Cord	Metric ton	23,504	3,892,079	13.66
Special textile	1,000 yards	5,048	1,071,148	3.76
PE bags	Metric tons	3,632	276,040	0.97
Number of yarn	Pieces	7,470	380,528	1.34
Land development		-	3,173	0.01
Business recruitment		-	40,664	0.14
Commission income		-	5,368	0.02
Total		-	28,501,509	100.00

3. The company's existing products:

Filament polyamide/polyester woven fabric, spun woven fabric, filament and spun interwoven fabric, dyed check, Environmental protection copper amine rayon plain weave, polyamide /polyester tire cord, PE bag, combed cotton yarn, blended yarn, new functional yarn, special protective yarn and textile, Military uniform / police uniform / firefighting fabric, medical fabric, bullet-proof fabric, composite-material textile, Clean clothes/clean room work clothes fabric, gas-station service, daily-life products, and car-washing service.

4. New products planned to be developed:

Environmental materials, development and application of nano-level materials, recycled polyester & polyamide from the ocean waste, ultralight fabrics, environmental and recycled woven fabrics, biodegradable fabrics, bio-based fabrics, recycled fluorine-free water-repellant fabric, multifunctional smart clothing fabric for temperature control and photovoltaic positioning , waterless dyeing technology, bluesign® polyamide textile featuring chemical-free processing, fireproof and anti-near infrared camouflage fabric, high visibility fireproof fabric, flame retardant fabric against molten iron splash, the development of the tablet for automated robotic arm and thermoplastic board for 3C.

(B)Industry status

1. Polyamide/polyester dyed fabric

Despite subsidence of the pandemic and resumption of global travel and outdoor activities, the world was still overshadowed by inflation, geopolitical conflict and other unfavorable factors, dampening consumers' purchasing power and confidence index, which led to sluggish demand on the end consumption market and demands on the apparel markets in the U.S. and Europe, blocking inventory reduction. Despite the demands upturn, thanks to branded customers' continuous

promotional sales campaigns and adjustment of inventory levels, overall purchasing power remained sluggish. The company adjusted product mix timely, employed environment-friendly materials and new processing technologies, developed environment-friendly niche functional products, flexibly deployed the advantage of the five factories in Taiwan, China, and Vietnam, strengthened strategic collaboration with branded customers, and consolidated supply chain, alleviating the adverse impact on the company's operation.

In 2024, although the uncertain factors in the global market remain, holding of Olympics and soccer matches may boost demands on apparel markets. The company continues deepening strategic partnership with branded customers, integrating product operating platforms, developing differentiated products with high added value, so as to augment market competitiveness, and utilizing the advantages of the five factories in Taiwan, China, and Vietnam in line with the supply-chain integration strategy to shorten delivery time, plus introduction of AI and automated equipment to enhance production efficiency and lower failure cost, thereby attaining the 2024 business target and consolidating the company's leading position in the woven fabric market.

2. Tire cord fabric

(1) Industrial status and development: Domestic sales account for 40% of the Taiwanese factory's monthly output of 2,600 tons, with the remainder being shipped to Southeast Asia, India, Sri Lanka, the U.S., Korea, and Europe, while domestic sales and export accounts for 60% and 40%, respectively, of the Vietnamese factory's monthly output of 1,600 tons. Due to oversupply, the international market has been plagued by acute price competition for many years. In addition, Taiwanese firms have been faced with competition from imported tariff-free Chinese polyamine tire cord fabric on the domestic front but are denied preferred tariff treatment abroad, putting a damper on their price level for a long time. The Taiwanese factory's supply difficulty, however, is partially offset by increased export of the Don Nai factory in Vietnam, due to fewer tariff barriers, following Vietnam's accession to various tariff and trade organizations. To cope with port congestions during the pandemic, tire manufacturers and dealers placed excessive orders to sustain sales, leading to pseudo market demands and increasing raw-material and tire inventories. With inflation dampening demands on the end market, inventory level stayed high in 2023, prompting tire cord fabric customers to reduce their order placement and driving down sales. For entire 2023, sales of tire cord fabric dropped 31% in volume and 42% in value.

- (2)Correlation among industrial upstream, midstream, and downstream sectors:
Tire cord fabric's main materials are polyamine 6, polyamine-66, and polyester high tenacity yarn, supplied mainly by Formosa Plastics Group and filament plants in Turkey, Indonesia, and China, mostly with integrated operation, supplying tire cord fabric as well, making them the company's partner and rival at the same time.
- (3)Product development trend and competition: Due to low technological threshold for two-fold yarn, acute price competition from rivals, and adverse tariff treatment for Taiwanese products, Formosa Taffeta has gradually shifted tire cord fabric production to the Vietnamese factory. In 2023, the tire cord fabric department invested in niche-product production equipment, thereby raising the capacity for high-value bike tire cord fabric, puncture resistant fabric, and anti-scratch fabric, on top of actively developing and promoting environment-friendly recycled single-strand bike tire fabric and puncture-resistant fabric, via participation in international exhibitions and visits to customers, thereby raising market share and profits.

3.Functional yarn

- (1)Industrial status and development: With major U.S. and European customers still striving to cut their inventories via attrition, demands remain sluggish, impacting the operations of traditional-yarn spinning mills. Via nimble adjustment of product mix and development of high-value niche products, Formosa Taffeta's cotton mill, however, has managed to retain its leading status on Taiwan's functional-yarn market.
- (2)Correlation among industrial upstream, midstream, and downstream sectors:
Via collaboration with entire supply-chain partners, including special chemical powder/fiber suppliers in the upstream, weaving/ dyeing and finishing/special processing factors in the downstream sectors, plus branded customers, develop custom sophisticated unique end products to cope with changeful consumption types.
- (3)Product development trend: Taking advantage of differentiated materials and composite-yarn spinning machines, the company has been tapping high-end functional cloth and outdoor sportswear markets continuously, as well as various special industrial textile and work clothes markets, via usage of special materials.

4.Special fabric

- (1)Industrial status and development: Given the recovery of the electronics and

semiconductor industries, demand for anti-static electricity fabric is expected to pick up. In line with diversified customer demands and market trend, the company has been promoting various fireproof-fiber blended fabric and developing multi-functional products, in order to solicit more export orders.

- (2)Correlation among industrial upstream, midstream, and downstream sectors: Spun cotton for fireproof fabric is supplied by Europe, the U.S., Japan, and China, midstream suppliers covering yarn spinning, fabric weaving, dyeing and finishing, and laminating are located in Taiwan, China, India, Turkey, Europe, and the U.S., while downstream garment makers are situated in China, India, Southeast Asia, the Middle, Europe, and the U.S.
- (3)Product development trend and competition: Anti-static electricity fabric will be developed in the direction of new applications, including food industry, paint-spraying clothes, and e-car battery assembly uniforms, as well as usage of environment-friendly fiber. The company will also develop different mix proportions for the raw materials of fireproof fabric, so as to expand its sales outlets to medium- and low-price sectors, breaking the confinement of high-price sector, plus addition of such features as flexibility and comfort, environmental-friendly, fluorine-free, water repellent, and one-way moisture inducement, appealing to customers in different fields and price levels, thereby boosting market share for fireproof fabric. For industrial fabric, effort will focus on the development of high-strength high-tech new materials, in order to create new applications and meet market needs.

5. Carbon-fiber composite material

- (1)Industrial status and development: Not only does the composite material plant (carbon fiber) continue to consolidate existing customers, but it will continue developing special fabrics to ass new usages for various products, in response to rapid market changes and satisfy customer needs, thereby expanding supply volume.
- (2)Correlation among industrial upstream, midstream, and downstream sectors: Carbon-fiber textile and prepreg fabric belong to midstream semi-finished product processing sector, with raw materials supplied by Formosa Plastics Corp.'s carbon-fiber factory and renowned Japanese carbon-fiber factories and downstream customers including bicycle component manufacturers, sports equipment manufacturers, ship materials manufacturers, composite material forming factories, building reinforcement firms, and robotic-arm manufacturers.
- (3)Product development trend and competition: Carbon-fiber fabric includes 1.5K,

3K, 12K, and 24K plain/twill fabric, resin prepreg fabric, and carbon flat and multi-layer fabric, suited to thermosetting and thermoplastic forming. The company's composite material factory is equipped with complete lab facilities, capable of providing testing data for reference by customers. Meanwhile, the company has collaborated with upstream and downstream partners in developing thermosetting/thermoplastic cases for 3C products, auto components/parts, and robotic arm, meeting customer needs in extending product depth and width, so as to boost sales.

6. PE bags

- (1) Industrial status and development: With the plastic-bag industry being plagued by price competition for a long time, the company's composite-materials factory (packaging materials) has focused on the Japanese market with high regard on quality and acceptance of higher prices, which accounts for 85.6% of sales, followed by America with 14.0% and domestic sales in Taiwan with 0.4%.
- (2) Correlation among industrial upstream, midstream, and downstream sectors: Raw materials include high-density polyethylene grains and color concentrate, supplied by Formosa Plastics Corp., and plastic biomass extracted from sugar canes obtained from Brazil, via Toyota Tsusho Corporation, in compliance with the demand of Japanese customers. The factory handles film blowing, printing, and bag making, mainly for supplying vest bags, point-breaking bags, and garbage bags to supermarkets, mass merchandise stores, and convenience stores, for use by shoppers.
- (3) Industrial development trend and competition: Faced with increasingly rigorous environmental protection-related regulations and price competition on the world market, the factory will stick to its policy stressing product quality and continuing development of new environment-friendly materials.

7. Formosa Taffeta gas station

- (1) Industry status and development: There were 2,516 gas stations in Taiwan as of the end of 2023 (source: The Bureau of Energy, the Ministry of Economic Affairs), including 618 owned by CPC Corp., Taiwan directly, with the remainder being gas stations run by private enterprises, franchised stations, and independent stations.
- (2) Association among upstream, midstream, and downstream sectors of the industry: Gas stations are situated at the end of the channel of oil-product market, with oil products supplied by CPC Corp., Taiwan and Formosa Petrochemical Corp. mostly, as import volume is very low.

(3)Development trend and competitive status: The competition among gas stations in Taiwan is fierce, and it is a highly mature market. The requirements for multiple services and SOP operations for station services must be higher than the peers in the industry. Upstream oil plants are also developing differentiated oil products. Formosa Petrochemical launched 95 Plus gasoline to make driving smoother, more fuel-efficient, strong horsepower, and faster acceleration. It has effectively reduced engine carbon deposits and pollution emissions. The increase of selection volume can be expected. The sales ratio of gasoline and diesel in Taiwan: gasoline accounts for about 70%, and diesel accounts for about 30%.

(4)Engaged in the running of gas stations, retail of oil products, plus some auto and daily-life goods, and car-washing business, Therefore, the company has focused on the management of gas stations, including quality of services, personnel deployment, promotion of by-products, and car washing. The Company consistently strengthens SOP standard operations and training.

(C) The State of Technology and Research & Development

Year	Expense in R&D(NT\$)	Result
2023	227,920,365	1. Different shrinkage yarn cottony stretch fabric 2. Recycled bright yarn UV cut lightweight fabric 3. Ocean waste recycled nylon fabric 4. Bio-based breathable nylon fabric 5. Waterproof and breathable fabric with recycled membrane 6. Recycled composite cross section ultralight fabric 7. PU processed fabric 8. Ultralight recycled nylon 6.6 fabric 9. Anti-abrasion, durable and elastic fabric 10. Bio based nylon fabric 11. Industry-university-research cooperation 12. Taiwan textile federation collaboration 13. Anti-static insulation and cleanroom used fabric (continued) 14. Eco-friendly yarn and tire cord development 15. Eco-friendly tire cord dipping recipe development
2024 Q1	49,377,421	1. Single material waterproof breathable fabric 2. Cordura lightweight anti-abrasion fabrics 3. Ocean waste recycled nylon fabric

(D) Long- and short-term business development plan

1.Polyamide/polyester filament woven & dyed fabric

1.1 Short term

- (1)Take advantage of capacities of five factories to effectively utilize factory equipment and manpower deployment, reducing production cost and shortening the lead time.
- (2)Materialize SOP (standard operating procedure) operation to avoid repetitive repair, rework, and abnormality, boosting product quality.

- (3) Intensify employee training via multi-dimension courses with rich contents, so as to enhance employees' professional value and corporate competitiveness.
- (4) Augment customer satisfaction and deepen collaboration with upstream and downstream supply-chain partners, so as to boost the profits.
- (5) Utilize the recycled raw materials to develop environmental products with add-valued, meeting the trend of environment protection.
- (6) Improve equipment and product process, and cut energy consumption and emission.
- (7) Introduce AI and automated equipment, thereby boosting production efficiency, cutting production cost.

1.2 Long term

- (1) Visit branded customers on own initiative and attend various major exhibitions, integrate digital marketing platforms, grasp market trend, and deepen collaboration with branded customers, so as to raise product market share.
- (2) Take advantage of the capacities of five factories, solidify the supply chain, expand and develop the high-added and differentiated products, and meet the demands of customers, so as to boost profitability.
- (3) Effectively improve process or equipment for saving steam, water, power, and fuel, as well as carbon abatement, thereby cutting cost and raising investment benefits.
- (4) Actively engage in R&D and innovation, sustainability, and rapid response to meet customer demands, thereby enhancing mobility and competitiveness.

2. Tire cord fabric

2.1 Short term

With the global tire industry still being plagued by high inventory, inventory attrition is still the priority consideration on the market. In addition to continuing optimization of product mix, the tire cord fabric business department will endeavor to cut production cost via effective equipment usage and manpower maneuvering. The department will also continue focusing on personnel training and cultivation and materialization of various in-factory standard operating procedures, so as to cut product reworking and abnormality, thereby enhancing product quality and satisfying customer demands.

2.2 Long term

To strengthen the operations of the Taiwanese and Vietnamese factories, in

addition to intensifying various management-data analysis, raising management efficacy, and reducing failure cost, efforts will be made to rationalize production scheduling, precisely control various costs, and augment equipment availability. Besides, improvement task forces will be set up, pushing and tracking quality-abnormality rectification, new product development, and cost reduction, so as to boost production strength and product competitiveness.

3.Functional Yarn

3.1 Short term

- (1)Find proper new fiber and integrate the special textile factory's advantages in technology and sales channel in consolidating presence in the high-tier protective fabric market and taping low- and medium-tier protective fabric market, the latter via collaboration with partners.
- (2)Develop the high-end sports market through the various raw materials and patented equipment with the production advantage of the first business segment.
- (3)Continue alliance with major upstream raw-material suppliers and develop new products and usages with existing materials, so as to prolong product life.

3.2 Long term

Introduce new hi-tech textile raw materials in the world, develop custom differentiated sustainable environment-friendly products, meeting end customers' plural needs, take advantage of factory's technological edge, and integrate upstream, midstream, and downstream products, in the hope of becoming key problem solver for functional short-fiber textiles.

4.Carbon-fiber fabric

4.1 Short term

- (1)Start from uniforms of servicemen (servicewomen), policemen, firefighters, and industrial-safety personnel in the development of fireproof fabric, application of manufacturing process in uniform fabric and medical fabric, develop post-pandemic fabric and seek new applications of carbon-fiber composite fabric, such as e-vehicle composite-material accessories, and seek product diversification, so as to boost sales.
- (2)In collaboration with major raw-material suppliers and customers, tap European, the U.S., and Japanese markets, as well as emerging Asia-Pacific market and embrace plural-material strategy, in the hope of offering one-stop

service to customers and meet market demands.

- (3) Collaborate with upstream and downstream partners in pushing products, and utilize digital marketing to attain plural sales channels, so as to enhance market share and sales value.

4.2 Long term

In addition to integrating existing technologies, increase textile machines and upgrade technology via collation with major partners, and actively tap new product markets, while consolidating existing markets for fireproof fabric, anti-static electricity fabric, and industrial fabric, so as to enhance profits.

5. Carbon-fiber composite material

5.1 Short term

Integrate orders to increase lot-size production and cut processing fee and expand markets, via collaboration with dealers.

5.2 Long term

Develop carbon fiber-resin composite material, to tap auto, bicycle, and sports equipment markets, take advantage of professional composite material forming technology to collaborate with customers in developing and engaging in component production.

6. PE bag

6.1 Short term

To cope with changes in environment protection-related regulations, develop biomass bags, to consolidate orders from existing customers and solicit new customers. Adjust purchasing volume for raw materials each time, in line with material price fluctuation, so as to cut material cost.

6.2 Long term

Set sights on logistics and industrial packaging materials and develop new products, in line with the development of environment-friendly plastics, so as to attain transformation and sustainability.

7. Formosa Taffeta gas stations

7.1 Short term

- (1) Recruit customers by contract: Solicit bulk oil-consumption customers in the fields of agricultural machines and industries, so as to boost oil sales.
- (2) development plural payment instruments and intensify sales promotion, so as to stabilize existing customers and strive for new ones and enhance oil sales.
- (3) Offer sophisticated car-washing service and improve service quality, to

increase revenue.

- (4) Adjust stocks, in line with price fluctuation.
- (5) Enhance corporate image, via engagement in community charity activities.
- (6) In line with increasingly strict supervision of gas stations by municipal governments, in terms of inspection of safety, equipment, and environmental protection, the company carried out online management of all the 105 stations, improving report of defects, reducing penalties, strengthening environmental protection, and assuring communal safety.

7.2 Long term

- (1) Phase out stations with lackluster performance, taking into account lease length and locations, so as to boost overall profits of gas station operation, expanding market share by increasing new stations.
- (2) To save manpower and meet customer demands, increase installation of self-service filling equipment, as part of the effort to fully automate the operation of gas stations, so that every station has self-service option to provide customer discounts.
- (3) Push co-brand card and membership card, to increase non-oil revenue and raise customer loyalty.
- (4) Diversify revenue sources, offer sales of urea, sales of the Company's own products, manual car washing and installation of charging and replacement power stations, etc.
- (5) With electric motorcycles have caused an increasing impact on the operation of gas stations, cautiously consider long-term countermeasures for the trend of electric vehicles and driverless cars, but environmental protection and carbon reduction that are conducive to Taiwan 's environment, are generally in response to technological changes.

B. Market and production/sale status

(A) Market analysis

1. Major outlets and market shares

(1) Polyamide/Polyester filament dyed fabric

Formosa Taffeta's textile products are shipped mainly to four end markets: sportswear with 46.3%, outdoor functional wear with 42.9%, casual wear with 5.7%, and umbrella with 5.1%. Major customers are international renowned brands, with which the company has entered into strategic alliance, forming a tight supply chain along with apparel manufacturer customs, which covers product design, joint development of materials, fabric design, dyeing and

finishing, and apparel. The company's fabric is supplied mainly to apparel plants in China, Hong Kong, Northeast Asia (South Korea, Japan), Southeast Asia (Vietnam, Indonesia, Thailand, Laos, Burma). Customers' continuing purchase volume and full purchase rates fluctuate along with performance for sales to branded customers.

(2)Tire cord

Sales outlets: Major outlets with shares (Taiwan plant & Dong Nai plant) are shown in the following table:

Area	Year	Taiwan	India	South east Asia	North east Asia	China	The U.S.	Others	Total
Sales share (%)	2022	19	12	42	7	6	6	8	100
	2023	30	8	37	7	6	5	7	100
Explanation	Calculation on yearly basis (Taiwan plant + Dong Nai plant)								

(3)Functional yarn:

1) Sales outlets: ratio between domestic sales and export and areas are shown in the following table:

Area	Year	Taiwan	Southeast Asia	South America	Others	Total
Sales share (%)	2022	71	17	12	0	100
	2023	63	25	12	0	100
Explanation	Calculation on yearly basis					

2) Traditional yarn accounted for 13.0% of the sales volume of the cotton weaving plant in 2023, with the remaining 87.0% for functional yarn.

Therefore, developing the functional yarn will create more benefits.

3) Integrate the upstream and downstream business partners to strengthen the development of differentiated products, and focus on the production of functional protective yarn, thereby boosting market competitiveness.

4) Grasp changeful fashion business opportunities, evade competition with imported bulk-specifications products, and tap high value-added sophisticated markets, keeping up edge of Taiwanese cotton yarn manufacturers.

(4)Special fabric

1) Sales outlets: Major outlets with shares are shown in the following table:

Area	Year	Taiwan	Europe & the U.S.	Asia Pacific	Total
Sales share (%)	2022	13	24	63	100
	2023	10	33	57	100
Explanation	Calculation on yearly basis				

2) Anti-static electricity fabric is shipped mainly to the European and Taiwan

market.

3) The main market for flame retardant fabric is Asia-Pacific and the mid-east.

4) The main market for technical fabrics is in Taiwan and Southeast Asia .

(5)Carbon-fiber composite material

1) The Company's carbon fiber composite material factory is the only manufacturing plant in Taiwan that is equipped with production facilities of carbon fiber fabrics, epoxy resin preregs, multi-axial carbon fiber fabrics, and compression molds that can meet the diverse needs of customers.

2) Domestic sales accounts for 74% and 26% for foreign sales. The export areas include Japan, South Korea, Thailand, mainland China, Australia, Canada, Middle and South America and Europe.

(6)PE bag:

In 2023, Japan accounts for 85.6% of the company's plastic bag sales, in terms of value, followed by America with 14.0% and Taiwan with 0.4%. While taking advantage of the company's market niche to meet needs of existing customers, the company will actively tap new customer sources, to raise market share. In production, take advantage of equipment improvement, assure product quality, so as to meet customer needs and raise customer satisfaction. In addition, endeavor to develop high-margin environment-friendly products, to strengthen product mix and boost product competitiveness.

(7)Formosa Taffeta gas stations:

1) Market share: There were 105 Formosa Taffeta gas stations as of the end of 2023, whose oil supply volume per station was slightly lower the industry average, with market share reaching 2.8%. Taiwan's gas stations are divided into three groups, stations directly owned by CPC Taiwan (618 stations for 24.7% share); sub-groups of stations run by Formosa Taffeta, Formosa Oil, NPC, Uni-President Smile, Taiwan Sugar, and Shan-loong (each with 70-110 stations); and small-chain or individual stations.

2) Outlook for supply and demand and growth potential on the market: Under the oligopoly of CPC Taiwan and Formosa Petrochemical Corp., supply on the domestic oil-product market is not a problem. Formosa Petroleum Station still managed to remain profitable in 2023, despite worse-than-expectation sales, due to inflation and the increase in the demands of e-vehicles. Sales volume is expected to score slight growth in 2023, thanks to introduction of multiple payment methods, specific marketing programs, and launch of new gas stations.

3) Development of competition and countermeasures: Major competitive practices on the gas-station market include price cut, preferential rate for credit-card customers, and preferential charge for car washing, adopted by stations run by large business groups or chain stations in pushing various sales campaigns. As a member of Formosa Plastics Group, Formosa Taffeta gas stations boast the advantages of established brand, quality, systemized operation, availability of self-produced promotional items, preferential treatment for credit-card consumption, and logistics support. Consequently, the company has carved out a solid market share, especially in central and southern Taiwan. Faced with acute competition on the mature market, Formosa Taffeta gas stations will continue providing preferential rates to customers with cash or co-brand card payment and VIP card holders and pushing personnel training, 5S operation, and TPM management, plus promotion of self-service gas filling, monthly bills for agricultural-machinery and corporate customers, professional car-washing service, use of by-products in sales campaign.

2. Market sharers, demand-supply market outlook, growth potential, competitive edge, favorable and unfavorable factors for business outlook and countermeasures: Refer to aforementioned reports on various products and explanations in V. business status and I. business reports for shareholders of the pamphlet.

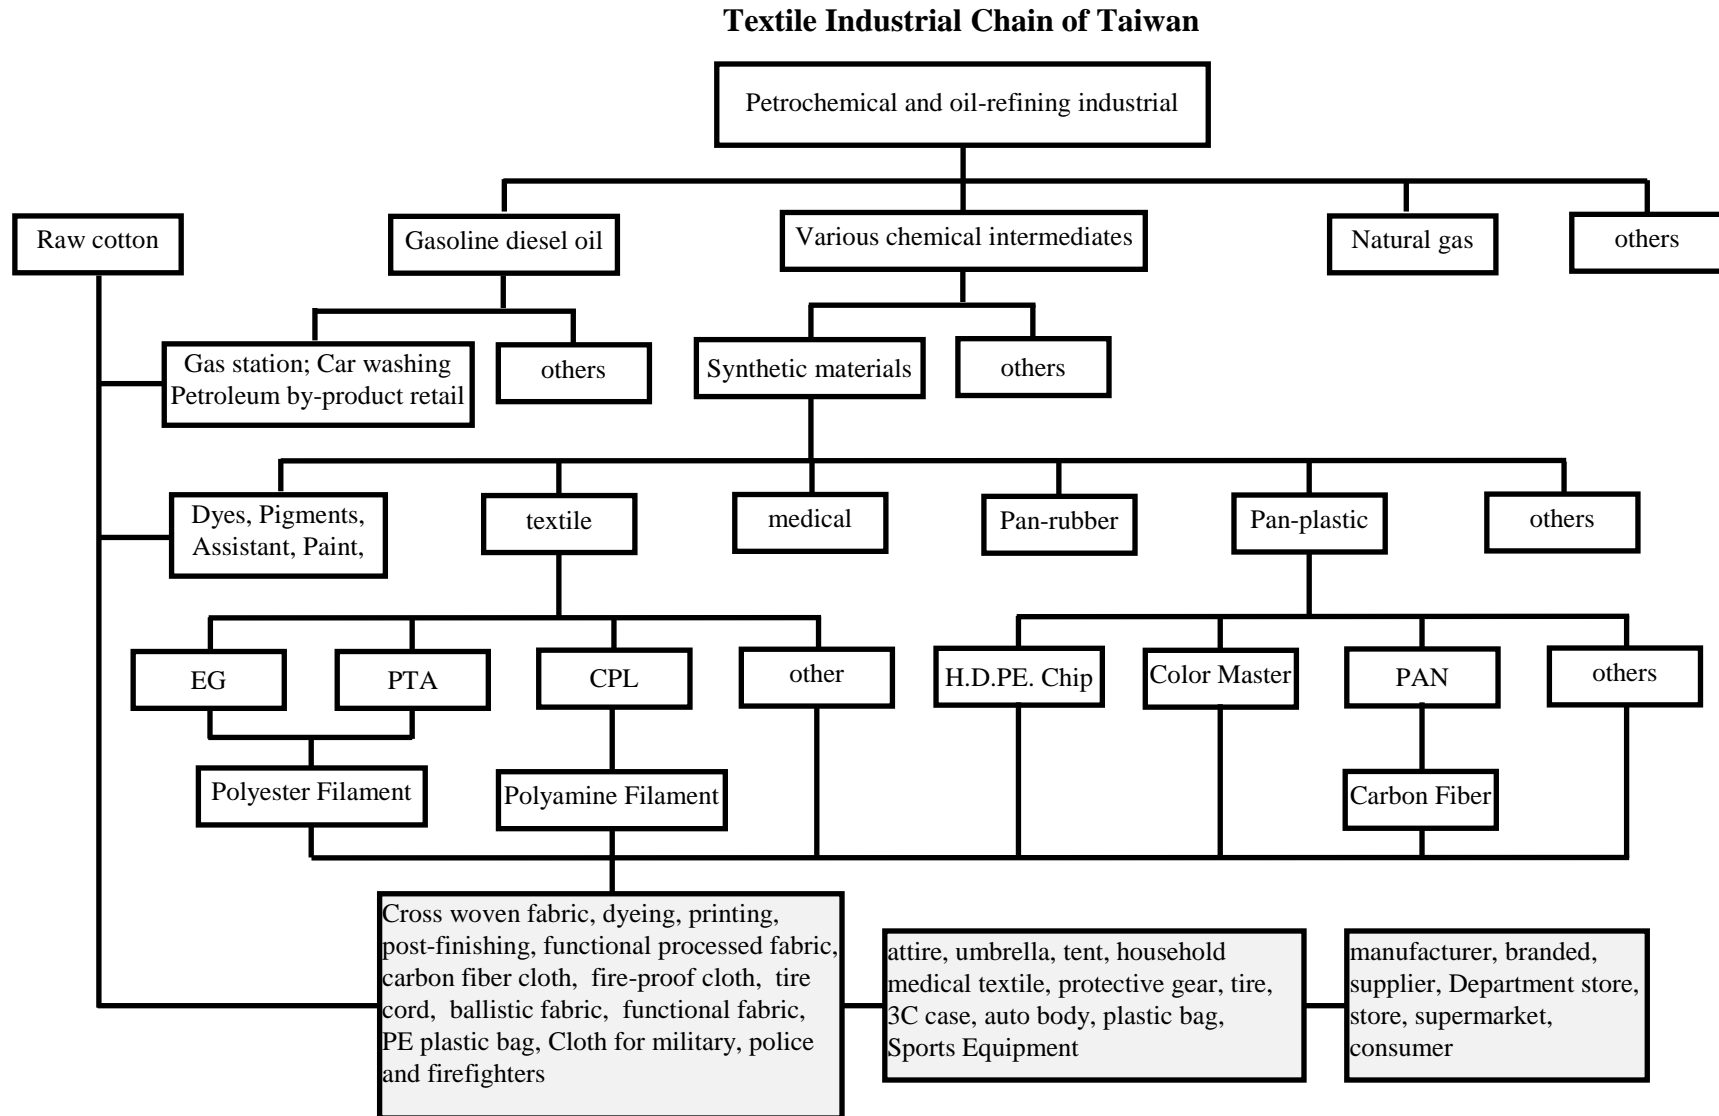

3. Market competitive status and countermeasure

Except the B2C service of gas stations, all other products of the company are B2B Marketing model, for which the company has longstanding customers and enjoys the trust and acclaim of international branded final buyers. In line with the market trends, the company has been endeavoring to develop environmental, new functional and differentiated features products, plus insistence of quality and exploration of emerging markets, products, and customers to strengthen the business operation.

4. Linkage of supply chain

For years, the company has purchased 60% of raw materials from Formosa Plastics Group, without any concern about credit standing and transaction problems, and supplied over 60% of products to reliable longstanding and branded customers, assuring stable business.

Chart of the connection of the company' supply chains for up-, medium- and downstream materials and products

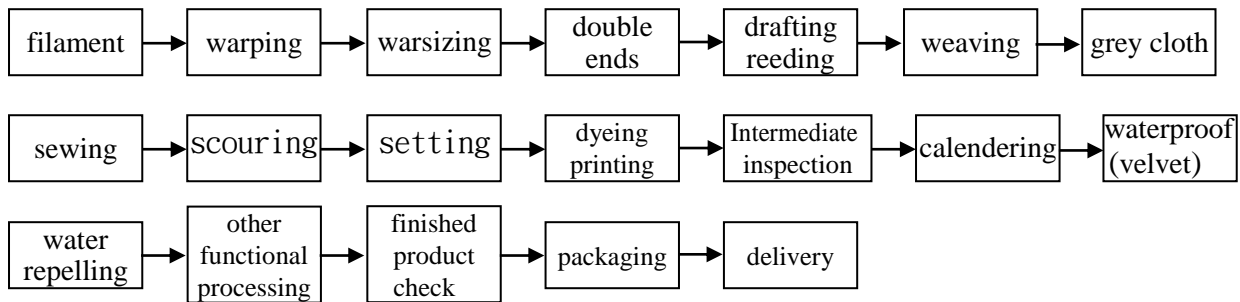

(B) Major purposes and production processes of various products

1. Major purposes of various products

Product name	Major purposes
Polyamide fabric	Air-permeable raincoat, water-proof air-permeable snow coat, jackets, sleeping bag, down jackets, sportswear, hunting jacket, hat, tent, air mattress, golf umbrella, beach umbrella, wind sail, gloves, and anti-magnetic wave shields, Multifunctional smart clothing such as temperature control, light display, detection and positioning
Polyester fabric	Casual sportswear, ultra thin-fiber clothes, curtain
Cotton fabric, blended fabric, long- and short-fiber interwoven fabric, dyed check	Garment, jacket, shirt, knapsack, medical and sanitary fabric
Tire cord	Various kinds of tire cords, tire chafer, base cloth of conveyer belt, anti-stab fabric of bike tire, lining
PE bag	Shopping PE bag, point-broken roll garbage bag, sanitary bag
Combed cotton yarn, blended yarn	For production of various woven and knitted fabric, cotton and blended woven fabric, long- and short-fiber interwoven fabric, and dyed check
New functional yarn	For production of fabrics for various clothes, bedding, health-related products, casual sportswear, clothes and hats, overcoats, parasol (umbrella), as well as other kinds of woven and knitted fabric
Protective textile	Fire-proof fabric and fabrics for uniform of air-force pilot, tank-operator fatigues, clothes for task-force operatives, firefighter clothes, arc-welding work clothes
Special textile	Clean-room clothes for electronics, foodstuff, and pharmaceutical industries, surgeon clothes, wrapping fabric, anti- bullet and anti-stabbing fabric, helmet, shield, drum paper for speaker, magnetoelastic-wave fabric for stereo equipment
Carbon-fiber composite fabric	Materials for sports equipment, bicycles, motorcycles, autos, aeronautics, 3C products, industrial robotic arms and mechanical structures, construction reinforcements, and wind-turbine blades
Premium diesel oil, 98, 95 Plus, 92 unleaded gasoline, various kinds of engine oil, daily-life	Auto fuel oil, generator oil, lubricants, and maintenance and cleaning products

2. Production process of major products

(1) filament fabric :

(3)PE bag:

(4)spun fabric:

(C) Supply status of major raw materials

Dec. 31, 2023

Unit: NT\$1,000

Kinds of raw materials	Unit	Quantity	Amount	Major suppliers
Tire- cord filament	Metric ton	14,011	1,396,871	Formosa Chemicals & Fibre Corp., Shenma Industrial Co., Ltd.
Polyamide filament	Metric ton	6,299	586,347	Formosa Chemicals & Fibre Corp., Formosa Industries Corp., Far Eastern New Century
Polyester filament	Metric ton	3,660	305,302	Nan Ya Plastics Corp., Formosa Industries Corp., Far Eastern
Auxiliaries	Metric ton	16,051	1,024,273	Foucault Biotech Co., Ltd., Farsmart Co., Ltd., Ri Fu
Polyester tire-core filament	Metric ton	1,950	103,348	Nan Ya Plastics Corp.
Cotton, polyester staple fiber	Metric ton	3,593	474,001	DuPont Taiwan, ZIG SHENG Industrial Co., Ltd.
Dye	Metric ton	2,225	333,468	Golden King dye Co., Ltd. Full Color Co., Ltd. RIITS Trading Co., Ltd.
Grey cloth	1,000 yards	10,789	167,961	Qinjiashang, Suzhou Xinjincheng
Alkene	Metric ton	3,068	111,937	Formosa Plastics Corp.
Dressing compound	Metric ton	4,651	139,645	Wenhao, Jinmeng

(D) Names of customers/suppliers accounting for over 10% of the procurement (sales) of the company in The two recent years, their values and shares

1.Names of major suppliers for procurements

The company's oil product division has been actively making deployment in oil-product channels and expanding the number of gas stations, in addition to responding to the demands of customers, resulting in the following changes:

Unit: NT\$1,000

Item	2022				2023				as of the first quarter of 2024 (note 2)			
	Name	Amount	%	Relations hip with issuer	Name	Amount	%	Relations hip with issuer	Name	Amount	%	Relations hip with issuer
1	Formosa Petrochemical Corp.	10,484,941	46.34	Stakeholder	Formosa Petrochemical Corp.	9,875,208	47.87	Stakeholder	Formosa Petrochemical Corp.	2,369,310	44.30	Stakeholder
2	Others	18,801,901	53.66	-	Others	10,752,326	52.13	-	Others	2,979,218	55.70	-
3	-	-	-	-	-	-	-	-	-	-	-	-
	Net Purchases	29,286,842	100	-	Net Purchases	20,627,534	100	-	Net Purchases	5,348,528	100	-

Note 1: Specify the names of suppliers accounting for over 10% of total procurement value, as well as the value and share of procurement. Code names can be used, in case names of suppliers cannot be disclosed, according to contracts, or trading partners are individuals who are not stakeholders.

Note 2: Disclose the latest financial data, as of the date of the publication of the annual report, audited and certified, or reviewed, by certified public accountants for public companies or companies with stocks being traded at offices of securities firms.

2.Names of major customers

Changes resulting from the need of market diversification, development of new customers, and changes of customer demands:

Unit: NT\$1,000

Item	2022				2023				as of the first quarter of 2024 (note 2)			
	Name	Amount	%	Relationship with issuer	Name	Amount	%	Relationship with issuer	Name	Amount	%	Relationship with issuer
1	Others	34,722,655	100	-	Others	28,501,509	100	-	Others	7,169,831	100	-
2	-	-	-	-	-	-	-	-	-	-	-	-
3	-	-	-	-	-	-	-	-	-	-	-	-
4	-	-	-	-	-	-	-	-	-	-	-	-
	Net sales	34,722,655	100	-	Net sales	28,501,509	100	-	Net sales	7,169,831	100	-

Note 1: Specify the names of suppliers accounting for over 10% of total procurement value, as well as the value and share of procurement. Code names can be used, in case names of suppliers cannot be disclosed, according to contracts, or trading partners are individuals who are not stakeholders.

Note 2: Disclose the latest financial data, as of the date of the publication of the annual report, audited and certified, or reviewed, by certified public accountants for public companies or companies with stocks being traded at offices of securities firms.

(E) Output Quantity and amount in recent two years

Unit: NT\$1,000

Major products \ Year output	Units	2023			2022		
		Capacity	Output Quantity	Output Amount	Capacity	Output Quantity	Output Amount
Polyamide/polyester fabric	yards	312,000,000	190,039,000	11,937,570	300,000,000	281,957,000	15,400,203
Polyamide/polyester tire cord	metric tons	42,245	22,706	3,755,747	48,802	33,919	6,688,281
PE bag	metric tons	3,840	3,716	282,458	3,960	3,630	263,295
Yarn count	pieces	14,698	10,843	552,318	10,296	10,278	736,595
Special fabric	yards	7,100,000	4,909,000	1,054,410	7,100,000	6,761,000	1,394,243
Total				17,582,503	-	-	24,482,617

Note 1. Capacity refers to production amount of the company's existing production equipment under normal operation, after excluding the factors of necessary suspension of operation and holidays.

(F) Sales Quantity and amount in recent two years

Major Sales products	Year		2023				2022			
			Domestic sales		Exports		Domestic sales		Exports	
	Quantity	Amount (Unit: NT\$1,000)	Quantity	Amount (Unit: NT\$1,000)	Quantity	Amount (Unit: NT\$1,000)	Quantity	Amount (Unit: NT\$1,000)	Quantity	Amount (Unit: NT\$1,000)

C. Human Resources

Year		2022	2023	Current year as of March 31, 2024
Number of employees	Male	1,627	1,555	1,530
	Female	776	747	738
	Total	2,403	2,302	2,268
Average age		46.6	47.1	47.1
Average length of service		18.7	19.0	19.1
Distribution of Education %	Ph.D.	0	0	0
	Master	2.12	2.17	2.20
	Bachelor	40.07	40.88	42.25
	Senior High School	51.94	51.30	49.91
	Below Senior High School	5.87	5.65	5.64
Note	1. Additional employment of 541 foreign laborers, 226 contract laborers, and 1,114 gas-station workers in 2022. 2. Additional employment of 511 foreign laborers, 249 contract laborers, and 1,124 gas-station workers in 2023. 3. Additional employment of 487 foreign laborers, 247 contract laborers, and 1,131 gas-station workers as of March 31, 2024. 4. Statistics of average age and average years of service exclude foreign laborers, contract laborers, and gas-station workers.			

D. Information on environmental-protection outlay

- (A) In the recent year and as of the date for the publication of the annual report, total value of the loss and handling cost for employee injuries from polluted environment and working environment:

Item	Year	2023	As of March 31, 2024
Compensation recipient or handling unit		Competent authority	Competent authority
Compensation value or handling status		NT\$ 0	NT\$ 0
Other loss		0	0
Explanation		No violation of environmental regulations/laws.	

(B) Future countermeasures and possible outlays

1. Current and future improvement measures and countermeasures:

- (1) Carry out the registration operation in compliance with the law
- (2) Use the state-of-the-art control system and technology to reduce pollutants.
- (3) Continue carrying out operations for reducing air pollutants, and improve the operators' abilities.
- (4) Set up the alarm and emergency procedures in case of any emergencies.
- (5) Review the cause of the incident and establish standard operation procedure and implement regular trainings for employees to avoid occurring the same incident.

2. Plan for installation of pollution-abatement equipment within two years

Year Item	2023	2024
Plan to purchase pollution abatement equipment or contents of outlays	1. Further substitution of natural gas for heavy fuel oil, entailing outlay of NT\$49 million for installation of new pipes and equipment renovation, cutting CO ₂ emission.	1. Installation of tap-water pipes at Plant 2, with the estimated cost of NT\$12 million
Expected improvement	In line with government policy, raise the share of usage of regenerated water, green power, and other green energies, cutting CO ₂ emission and waste-water discharge	In line with policy, raise the share of usage of green power and other green energies, cutting CO ₂ emission and waste-water discharge
Amount	49,000,000	12,000,000

3. Influence of measures responding to the implementation of EU Restriction of Hazardous Substances Directive (RoHS) on the company's finance:

In line with the spirit of corporate sustainable development, the company has strictly regulated and banned the use of various hazardous substances in production and operation, as a result of which RoHS has no major influence on the company's finance.

4. Environment Policy

(1) Safety, Health, and Environment Policies

- Ensure compliance with relevant safety, health, and environment regulations and other reasonable demands of stakeholders.
- Make good use of the Safety, Health, and Environment Administration System to strengthen pollution prevention and reduce hazardous impacts.
- Promote hazard identification, risk evaluation, and risk control to prevent damage and health hazards.
- Promote energy conservation and reduction to reduce the impacts of environmental damage and hazards to health and safety.
- Strengthen neighboring relationships, establish good communication channels, enforce routine

inspections, ensure reviews, and seek continuous improvements.

(2) Measures for reducing greenhouse-gas emission:

Dedicated unit conducts inventory and registration of greenhouse-gas emission and supports pushing of energy conservation and carbon abatement, decreasing CO₂ emission, in line with global environmental-protection trend. In 2023, 99 cases of energy conservation and carbon abatement were completed, reducing CO₂ emission by 119,217 tons/year. In addition, ESG meeting is held to review the performance once per month.

(3) Measures governing air-pollution abatement:

- Reduce pollutants of boilers and process equipment, such as Sox, Nox, VOCs, and dust and install new and effective recycling equipment, to raise pollutant-removal efficiency and reduce emissions.
- Install air-pollution abatement equipment for boiler and process, including static-electricity dust collector, wet-type flue gas desulfurization column, SCR smoke-exhaust denitrifying equipment, active-carbon and condensation-nucleus recycling absorber, and heat-storage incinerator.
- Conduct eriodic calibration and inspection of autonomous boiler smoke detection equipment and declaration of air-pollution fee.
- Replace a cleaner energy for boiler fuels to reduce the use of coal.

(4) Water pollution abatement management measures

The Company applies for discharge approval, formulates measures governing water pollution abatement, according to regulation, and enforces waste-water abatement to a level conforming the standard for waste (polluted) water discharge.

In compliance with environmental-protection law/regulation, the company has installed around-the-clock detection equipment for discharge at waste-water treatment plant, analyzing water quality and recording water volume, which is connected to the website of environment-protection agencies.

(1) Source management for waste water

Pertaining to facilities for waste-water collection, transmission, and advance treatment, formulate regulations on operation, control, and monitoring of waste-water resources, so as to materialize source management for waste-water quality and quantity.

- a. facilities for collection, transmission, and advanced treatment of waste water from process and measurement;
- b. facilities for collection, transmission, and advanced treatment of waste water from daily-life activities and measurement;
- c. properly install separate sewer system;
- d. monitoring of waste-water quality and quantity from various sources;
- e. purchase low energy-consumption, low-pollution, and high-efficiency cutting-edge production equipment;
- f. R&D on branded green products;

g.improve process to cut fresh-water consumption and install extra water-recycling equipment, to raise recycled-water utilization rate.

(2)Management of waste-water treatment facilities:

a.Management of waste-water quality and quantity:

- a)setup of dedicated unit for managing waste-water treatment facilities;
- b)application of permission for waste-water discharge and periodic declaration;
- c)self-management via in-house and outside auditing units;
- d)commissioning outside unit for help with various application documents and execution of periodic water-quality inspection;
- e)Measures for installation and maintenance of autonomous CWMS continuous water-quality monitoring system for discharged waste water;
- f)intensification of the management and control of separated discharge of rainwater and sewage and dismantling of aberrational pipelines by deadline.

b.Regulation on the operation and management of waste-water facilities;

- a)regulation on the operation of waste-water treatment;
- b)regulation on the discharge of waste water;
- c)recording of waste-water treatment and online declaration;
- d)declaration for water-pollution fee;
- e)sludge treatment;
- f)abnormality reporting;
- g)monitoring of waste-water discharge and online connection.

c.Rainwater management: Inspection, maintenance, and operation of rainwater discharge pipe and rainwater channel and lock gate in public area and installation of separate sewer systems at head plant and second plant.

d.Recycling water system for weaving and dyeing process to improve the recycling water ratio.

5.Waste management measures:

For recycling and reuse of resources, it is necessary to control waste disposal and reduce and classify waste in process before outsourcing waste disposal legally, with major management measures listed below:

(1)Waste classification and storage:

Wastes are classified into common trash, process wastes, and engineering wastes for separate storage before calculation of amount for registration and declaration. Storage containers must be in good shape, without filth, corrosion, leakage, or deformation and kept at sites with water (rain)-proof facilities and treatment facilities and labeling for waste water and foul gas. Sludge must be dried to cut water content before outsourcing for disposal.

(2)Waste disposal and treatment:

To assure legal reuse of final disposal of all wastes, pertinent management systems include:

- a.formulate (revise) and update waste disposal plan according to law/regulation;
- b.set up data on waste-disposal contractors;
- c.standard procedure to assure completion of online waste declaration;
- d.management of waste disposal plan to assure conformance of factory wastes to declaration data, in terms of items and quantity. In addition, for tracking the destination of wastes, require contractors to formulate procedure for tracking the progress of waste disposal, in conjunction with online declaration, plus spot check of waste-transport vehicles and requirement for contractors to provide online declaration documents when applying for disposal fees, to prevent illegal disposal of wastes.

6. Toxic and concerned chemical substances control measures

The company has formulated "toxic and concerned chemical substances control measures," managing the operation of toxic and concerned chemical substances, so as to assure operational safety, avoid environmental pollution, and comply with legal requirements.

Related management and preventive measures:

- (1)In addition to mandatory online reporting on purchase, usage, and storage of toxic and concerned chemical substances, strictly control storage volume, to cut hazard risk.
- (2)Containers and packages should bear clear labels and there should be various warning notices or signs in usage or storage areas.
- (3)Regular detailed inspection of emergency response devices with checklist, to assure the good operating status (including calibration and testing by outside firms)
- (4)There should be bank preventing overflow in the storage area.
- (5)Train on-site people to be familiar with the operation of various production equipment and standard operating procedure for handling toxic and concerned chemical substances.
- (6)Arrange regular education and training courses on toxic substance hazard for on-site people, to augment hazard response concept.
- (7)Regular training and drill: Carry out two tests on response to toxic chemical substance accident without advance alert and one drill on response to toxic chemical substance accident every year.

7.Energy conservation and carbon abatement measures, inclusion of carbon credit into the company's carbon abatement planning:

The company has been pushing energy conservation and carbon abatement measures for years, including improvement of process to cut energy consumption, energy recycling and reuse, substitution of high-efficiency motors, installation of inverters, substitution of energy-saving lighting, waste-heat recycling and reuse, enhancement of equipment efficiency, as well as other energy management and conservation measures. In 2023, the Company was awarded Best Enterprises for Industrial GHG Voluntary Reduction and SGS ESG Awards- Water Management.

E.Labor-management relationship

(A) The company's various employee benefits, study and training, retirement system, plus execution status, as well as labor-management agreements and measures upholding labor rights and interests:

1.Employee benefit measures

(1)Leave benefit

Provision of various leaves for employees, including special leave, marriage leave, funeral leave, official leave, work-related injury leave, maternity leave, election leave, sick leave, menstrual leave, personal leave, family-care leave

(2)Insurance benefit

Arrangement of the coverage of labor insurance and national health insurance for employees according to the law

(3)Retirement benefit

Monthly appropriations for labor retirement fund and labor retirement reserve fund, in preparation for retirement-fund payment for employees upon their retirement according to the law.

(4)Marriage and child-rearing benefits

- a.Gift of cash for marriage or death of employees or relatives and subsidies for managerial staffers for the provision of such gift of cash.
- b.Installation of nursery room, for breastfeeding by employees during work time
- c.Provision of leave of absence for baby care, available for application by employees

(5)Health-care benefit

- a.Regular physical examination for certain employees mandated by law every year.
- b.For factory workers exposed to noise and other hazards to health, arrange special physical examination and carry out graded health management. The participation rate for the examination has been 100% in past years.
- c.Subsidies for employees and relatives receiving treatment at Chang Gung Memorial Hospital, which also offers discounts for employees and relatives taking physical examination there, provision of health and hygiene information irregularly, and organization of lectures on health issues in factory premise.
- d.Establishment of medical room and full-time medical care staffers in the factory premises, and organization of health-care events irregularly, including health and weight management, promotion of quitting smoke, cancer screening, and disease prevention and health care.
- e.Installation of Automated External Defibrillator (AED) in the plant.

(6)Daily-life benefits

- a.Provision of gift of cash for birthday, Labor Day, and Mid-Autumn Festival.
- b.Planning and subsidy for such activities as employee travel and year-end dinnery party.
- c.Installation of employee restaurant, dormitory for singles, and convenience stores in factory premises.
- d.Provision of scholarship for employees' children.

- e. Arrangement of designated stores where discounts are available.
- f. Setup of corporate kindergarten.
- g. Subsidy for purchasing or changing electric scooters.

(7) Employee restaurant

- a. Subsidy for employees' meals daily
- b. Two times of extra dishes every month and employees on duty during Spring Festival

(8) Promotion of employee relationship

- a. Subsidy for activities of employee associations
- b. Organization of sports contents to encourage sports hobbies among employees.
- c. Awarding staffers with excellent performance with citation certificates or prizes.

(9) Personal and family care

- a. Provision of work clothing or money for work clothing every year.
- b. Setup of employee mutual assistance committee, with regular corporate contribution, providing grants to employees for marriage, death, disablement, child birth, and medical treatment, as well as death, medical treatment, marriage of family members, and education loans for children, according to measures of the committee.
- c. Compensation for death of employee according to death compensation measures.

2. Employee study and training

The company has regarded employee education and training highly, with its training system including pre-job training for newcomers, job-related basic training, job-related professional training, and training for managerial candidates. Annual education and training plan has been formulated and executed, plus evaluation of the results. Moreover, to facilitate internationalization of operation, language training has been held.

3. Retirement system

(1) Application for retirement

- a. Age 55 or higher with over 15 years of service
- b. Over 25 years of service, regardless of age
- c. Age 60 or higher with over 10 years of service

(2) Mandatory retirement

- a. Age 65 or over
- b. Unsited to job, due to mental or physical disability

(3) Options for retirement payment

- a. Employees with the starting year of service before June 30 2005 has the option of choosing the retirement payment, calculated according to the "Labor Standards Act." For those who chose the retirement payment calculated according to the "Labor Pension Act" before June 30, 2010, the retirement payment for the portion of service years covered by the act will be calculated according to the stipulations of the act, with the retirement payment for the previous service years still being calculated according to the "Labor Standards Act." For service years covered by

the "Labor Pension Act," the "Labor Standards Act" is not applicable.

b. Employees joining the company after July 1, 2005 are all subject to the stipulations on retirement payment of the "Labor Pension Act."

(4) Calculation criteria for retirement payment

a. Retirement payment is calculated by multiplying the average pay in the six months before retirement with base number, at maximum of 45, calculated according to article 55 of the "Labor Standards Act."

b. Employees mandated to retire due to job-induced mental or physical disability are entitled to 20% markup on retirement payment calculated according to "Labor Standards Act."

c. For employees covered by the Labor Pension Act," the company would appropriate 6% of their monthly pays for deposits into their personal

d. labor-retirement accounts, to be withdrawn by them at age 60 via application with the Bureau of Labor Insurance, according to article 24 of the act.

(5) Application method for retirement

a. Retirement applications must fill out two copies of "voluntary (mandatory) retirement application form," to be submitted, along with proof documents, to superiors for approval.

b. For mandatory retirees, the retirement application form would be filled out by the human-resource department.

4. Status of the execution of employee benefit measures and retirement system: good

The aforementioned employee-related measures have been executed faithfully, with good results. In addition to regular provisions for new and old retirement funds every month, the company examines the balance in the account of labor retirement reserve fund at the end of every year, to assure the amount is sufficient to cover retirement payments in the coming year. The number of retirees in 2023 reaches 103.

5. Status of labor-management agreement: good

(1) Labor-management meeting has been convened periodically, when labor and management representatives would discuss a wide range of issues, including labor-management relationship, promotion of labor-management cooperation, improvement of labor conditions, planning for labor benefits, and improvement of work efficiency.

(2) Formulate work rule and personnel management rule, setting definite regulations on the rights and obligations of laborers and management, to help employees understand and uphold their rights and interests.

(3) In line with legal requirements for labor safety, conduct physical examination for employees regularly, institute staffers in charge of labor safety and hygiene, and formulate various rules governing labor safety and hygiene, so as to prevent accidents and disasters and uphold employee safety.

6. Status for upholding various labor rights and interests: good

Based on the spirit of safeguarding employees' work rights and interests, set up integrated

manpower mechanism, featuring job reassignment rather than layoff during business slowdown, which would be conducted after oral notice and according to set procedure. The company complies strictly with domestic and foreign norms on labor and human rights and institute a mechanism for regular communications with employees, notifying employees business changes with possible major consequences and treating all employees fairly, including:

- (1) Formulate labor conditions according related labor laws/regulations.
- (2) In line with the "Employment Service Act," provide job opportunities to all job seekers in an open, fair, and just manner.
- (3) Set up multiple channel for complaints by employees on infringement on or improper handling of their rights and interests.
- (4) Set up reward and punishment committee, consisting of various senior managers, for discussion and resolution on proposals of major rewards and punishments, for which related employees can appeal within seven days after publication.
- (5) Promote prevention of sexual harassment, formulate "measures against sexual harassment," and provide channels for complaints by employees on the issue.
- (6) Formulate "measures governing handling of complaints by internal and external stakeholders," offering smooth channels for complaints by internal and external stakeholders (including employees) on improper and unfair treatment or encroachment on rights or interests. Complaints expressed via such channels, including complaint box, dedicated complaint phones, and complaint e-mail address, are handled promptly. Employees can also put forth proposals at regular labor-management meetings and the meetings of employee benefit committee, an arrangement which can promote a harmonious labor-management relationship and contribute to the company's sustainable development. Complaint boxes are installed at spots frequented by employees, enabling employees to request assistance for job- or daily life-related problems, which are handled by designated staffers.

(B) Loss caused by labor-management disputes in the recent year and as of the date for the publication of the annual report

1. Status of labor-management disputes

Loss resulting from labor-management disputes in the recent year and as of the date for the publication of the annual report: nil

2. Value of loss: nil

3. Anticipated loss in the future

Given good labor-management relationship, as evidenced by rare labor-management disputes, it is predicted that chance for loss resulting from labor-management dispute in the future is slim.

4. Countermeasures:

Given increasing labor-right awareness, plus respect for labor dignity, confrontation can only be removed via intensified communication. As a result, the company has been striving to understand the opinions and employees' needs through various methods and channels. To ward off possible

disputes, in case of revision of law/regulation and government policy, the company has communicated and coordinated with labor union, to attain consensus, in addition to revising corporate regulations accordingly.

F.Information and Cyber Security Management

- 1.The policies and specific management schemes on cyber security formulated and resources invested in the management of cyber security by the Company:

In order to ensure the security and stability of the information network and avoid the abnormality of the information system and the damage of computer data which may cause the company's business to be terminated. The Company formulated the regulations on information security management, regulations on information security managing organization, guidelines on implementing information security management, regulations on information assets management, regulations on information security risk assessment, regulations on managing the information security incidents, regulations on commissioning the information security for management, regulations on system and cyber security safety management, which specified the management standards of the Company's information system, network and personal computer operations, and the safety code of conduct for employees' access to the Internet and mail, so as to ensure the information security of the Company and to satisfy the requirements of the laws and relevant information security regulations to the greatest extent. The information and communication security risk management framework, information and communication security policies, specific management plans and resources devoted to information and communication security management by the Company in 2023 are described as follows:

- (1)The structure of the information security management:

In accordance with the requirements of the "Regulations Governing Establishment of Internal Control System by Public Companies" issued by the Financial Supervisory Commission on December 28, 2021, and the operating guidelines of the "Guidelines on Information and Communication Security Control for Listed and OTC Companies" issued by the Taiwan Stock Exchange on December 23, 2021, the Company appointed Chief Information Security Officers in July 25, 2022. Designated information security units, supervisors and personnel were assigned in order to supervise the execution of internal information security management business and periodically hold information communication security management review committee to review the implementation and result of information security control measures and implementation of information security management business coordination. It is also coordinated with the information team in IT department to integrate the division of work and consistency of execution as well as the dispatch of the Company's resources.

- (2)Information security policy:

- Comply with legal requirements and promote information security awareness.
- Attach importance to risk management and protect data security.
- All employees are required to participate and pursue continuous improvement.

- (3)Information Security Control Measures:

- A multi-layered in-depth framework, firewalls, intrusion prevention systems (IPS), Application Control (APCL), Anti-virus and botnet, and advanced persistent threat defense (APT) are being adopted to prevent malicious attacks from external networks.
- Set up employee Internet access, e-mail and personal information/sensitive data loss prevention mechanisms to prevent improper disclosure or leakage of personal and sensitive information, and prevent internal systems from being implanted with malicious programs.
- Require password changes every three month and enable password complexity settings to strengthen authentication for system logins.
- Install anti-virus software on the computer, update virus patterns and security patches in real time, establish security access policies, and control the connection and access of USB devices to strengthen endpoint detection and response capabilities.
- Interpretation and analysis of system logs, real-time warning of abnormality, and emergency response to avoid increased threat and risks.
- The computer room and other information infrastructures are equipped with access control and CCTV systems. Backup systems, uninterruptible power supply and fire protection facilities are regularly simulated and drilled to strengthen physical security.
- Set up web application firewall to protect the operation for the external service website and enhance the security of the company's website.
- Establish static application security testing system to inspect the vulnerability of self-developed application and to enhance its security.
- Regularly scan and test for the vulnerability for the web application programing and system platform in connection with the external sever to avoid being hacked or attacked.
- Conduct regular training and testing for employees annually to strengthen the employees' awareness of cyber security risks.
- Review security measures and regulations annually, pay attention to security issues and its developments, and draw up response plans to ensure its appropriateness and effectiveness.

(4)Information Security Education Training and Publicity Implementation in 2023:

- 49 employees completed the MIS center's internal training course on " information security management principles."
- 3 employees completed the training of "Prevention of abnormal IT system cases and guidance for handling the cases."
- 33 employees in the position of administrator, completed the training of "Information Security."
- 12 meetings relevant to IT were held to review the performance of IT security.
- In 2023, six promotions on information security were conducted, including how to prevent hacking attacks and the cases recently happened around the world.
- 2 BCP drills were held to ensure the goal for restoring the business in case a disaster happens.

(5)Resources invested in information security management:

- Appoint the chief of information security, set up a dedicated information security management unit and allocate information security personnel.
- Formulate and announce the information security management rules, methods, and guidelines.
- Cooperate with the general management office in the annual scheduled third-party red team offensive and defensive drills, and improve and strengthen the deficiencies after the drills.
- Introduction of ISO 27001 and commission the specialists for consultation. In 2023, the Company has obtained ISO 27001:2013 verified by the third party.
- Regularly perform the vulnerability scan of website and system platform, and improve the deficiencies.
- Update the firewall equipment and software, and set up the DMZ network.
- Implement trainings for information security personnel, and provide professional trainings such as firewall, software and hardware trainings.
- Cooperate with the general management office in the annual scheduled third-party red team offensive and defensive drills, and improve and strengthen the deficiencies after the drills.
- Plan and implement employee information security awareness and information security training courses for information professionals.

If the possible impact and countermeasures caused by a major information security incident cannot be reasonably estimated, the fact that it cannot be reasonably estimated should be stated: The company has not had any major information security events in the most recent year and as of the date of publication of the annual report.

G.Important contracts: nil

VI Financial status

A. Brief balance sheet, comprehensive income statement, names of certified public accountants, and auditing opinions in recent five years

Note 1: The financial information for 2023 was verified by the accountant.

Note2: The post-allocation data for 2023 is estimated based on the surplus distribution plan approved by the board of directors on March 8, 2024.

2.Comprehensive income statement of individual financial report

Unit: NT\$1,000

Year Item	Financial data in recent five years				
	2019	2020	2021	2022	2023 (note 1)
Sales revenue	27,468,794	21,524,891	24,490,081	26,182,568	22,011,079
Net operating margin	2,212,089	2,104,229	2,849,599	2,757,647	1,801,241
Operating profit	280,100	243,559	865,618	798,431	6,423
Non-operating income and expenses	5,313,287	1,946,664	1,400,575	2,844,871	480,084
Profit before income tax	5,593,387	2,190,223	2,266,193	3,643,302	486,507
Profit for the year from continuing operations	5,188,729	2,095,548	2,143,167	3,404,981	444,554
(Loss) profit from discontinued operations	-	-	-	-	-
Profit for the year	5,188,729	2,095,548	2,143,167	3,404,981	444,554
Other Comprehensive income (Income after tax)	(6,364,452)	(626,986)	297,081	(8,233,849)	665,729
Total comprehensive income (loss) for the year	(1,175,723)	1,468,562	2,440,248	(4,828,868)	1,110,283
Earnings per share (NT\$)	3.08	1.25	1.27	2.02	0.26

Note 1: The financial information for 2023 was verified by the accountant.

(C) Names of certified public accountants and auditing opinions

Year	CPA for certification	Auditing opinion
2019	Wu Han-chi, Chou Chien-hung	Without reservation opinions
2020	Wu Han-chi, Liang Hua-ling	Without reservation opinions
2021	Wu Han-chi, Liang Hua-ling	Without reservation opinions
2022	Juanlu Man-yu, Wu Han-chi	Without reservation opinions
2023	Juanlu Man-yu, Wu Han-chi	Without reservation opinions

Note: In line with change in the organization and job positions of PwC, CPA Liang Hua-ling has been replaced by CPA Juanlu Man-yu for the certification for the company's financial statements since Q1, 2022.

B. Analysis of finance in recent five years

(A) Analysis of consolidated financial report

Unit: NT\$1,000

Analysis items (note 2)		Year	Financial data in recent five years					Current year as of March 31, 2024 (note 1)
			2019	2020	2021	2022	2023 (note 1)	
Financial structure	Liabilities to assets ratio (%)		20.48	22.63	23.48	26.05	24.16	26.34
	Long-term fund to property, plant, and equipment ratio (%)		569.18	582.66	636.27	579.18	606.03	567.64
Debt repayment ability	Current ratio		206.45	203.22	223.83	234.08	290.34	250.55
	Quick ratio (%)		103.10	108.47	116.52	119.38	143.85	132.31
	Times interest earned		23.54	14.49	16.22	18.36	2.59	3.75
Operating performance	Average collection turnover (times)		8.30	8.61	9.17	10.18	10.82	10.68
	Average collection days		43.97	42.39	39.8	35.85	33.73	34.17
	Average turnover (times)		3.92	3.45	3.88	3.55	2.99	3.31
	Average payable turnover (times)		11.89	10.44	11.64	12.53	12.69	13.90
	Average days of sales		93.11	105.79	94.07	102.81	122.07	110.27
	Turnover of property, plant, and equipment		2.33	2.30	2.75	3.01	2.54	2.64
	Total assets turnover (times)		0.42	0.36	0.41	0.44	0.39	0.41
Earnings power	Return on assets (%)		5.52	2.78	2.82	4.56	0.97	0.92
	Return on equity (%)		6.65	3.33	3.46	5.77	0.81	1.37
	Pretax net profit to paid-in capital ratio (%)		30.64	13.43	14.17	22.00	3.27	5.87
	Net profit rate (%)		12.62	7.28	6.53	9.81	1.56	2.50
	Earnings per share (NT\$)		3.08	1.25	1.27	2.02	0.26	0.43
Cash flow	Cash flow ratio (%)		79.59	55.03	30.78	41.98	72.11	1.49
	Cash flow adequacy ratio (%)		97.25	91.21	86.44	82.46	95.38	90.76
	Cash flow reinvestment ratio (%)		3.22	0.01	0.73	2.03	1.67	0.11
Leverage	Operating leverage		8.45	8.96	4.11	4.91	17.66	7.68
	Financial leverage		1.26	1.39	1.11	1.20	(4.94)	1.97

Note 1: The financial information for 2023 was verified by the accountant and the financial information for the first quarter of 2024 was verified by the accountant.

Note 2: Reasons for changes in various financial ratios in recent two years (analysis is not necessary for the changes less than 20%).

- 1) Reasons for the change in times interest earned: Mainly due to the increase in NT\$ 438,038 thousand of profit before tax in 2023 compared with 2022, resulting in the growth by 44.79%.
- 2) Reasons for the change in return on equity: Mainly due to the increase in NT\$ 272,710 thousand of profit after tax in 2023 compared with 2022, resulting in the growth by 69.14%.
- 3) Reasons for the change in operating margin: Mainly due to the increase in operating profits of NT\$ 448,100 thousand in 2023 compared with 2022, resulting in the growth by 159.28% in operating margin.
- 4) Reasons for the change in pre-tax income ratio: Mainly due to the increase by NT\$ 438,031 thousand of pre-tax profit, resulting in the growth by 79.51%.
- 5) Reasons for the change in gross profit margin: Mainly due to the increase by NT\$ 537,426 thousand of gross profit, resulting in the growth by 20.50%.
- 6) Reasons for the change in net profit rate: Mainly due to the increase by NT\$ 272,710 thousand of after-tax profit resulting in the growth by 60.26%.
- 7) Reasons for the change in earnings per share: Mainly due to the increase by NT\$ 272,710 thousand of consolidated net profit (attributed to the parent company), resulting in the growth by 65.38%.
- 8) Reasons for the change in cash flow ratio: Mainly due to the decrease by NT\$ 3,991,370 thousand of net cash flow from the operating activities, resulting in the drop by 97.93%.
- 9) Reasons for the change in cash flow reinvestment ratio: Mainly due to the decrease by NT\$ 3,991,370 thousand of cash dividends, resulting in the drop by 93.41%.
- 10) Reasons for the change in operating leverage: Mainly due to the decrease by NT\$ 422,920 thousand of sales income, resulting in the drop by 56.85%.
- 11) Reasons for the change in financial leverage: Mainly due to the increase by NT\$ 130,918 thousand of operating loss, resulting in the drop by 139.88%.

(B) Analysis of individual financial report

Analysis item		Year	Financial data in recent five years				
			2019	2020	2021	2022	2023 (Note 1)
Financial structure	Liabilities to assets ratio (%)		14.81	17.80	18.85	21.89	20.67
	Long-term fund to property, plant, and equipment ratio (%)		1,113.38	1,131.48	1,211.80	1,137.17	1,158.33
Debt repayment ability	Current ratio (%)		343.15	318.35	331.84	287.22	419.97
	Quick ratio (%)		197.01	189.65	195.42	163.47	228.36
	Times interest earned		69.88	29.95	28.77	29.90	3.35
Operating performance	Average collection turnover (times)		12.24	10.7	11.39	12.46	13.56
	Average collection days		29.82	34.11	32.05	29.29	26.92

	Total assets turnover (times)		0.36	0.29	0.32	0.37	0.32
Earnings power	Return on assets (%)		6.74	2.87	2.91	4.73	0.86
	Return on equity (%)		7.79	3.33	3.46	5.77	0.81
	Pretax net profit to paid-in capital ratio (%)		33.20	13.00	13.45	21.63	2.89
	Net profit rate (%)		18.89	9.74	8.75	13.00	2.02
	Earnings per share (NT\$)		3.08	1.25	1.27	2.02	0.26
Cash flow	Cash flow ratio (%)		126.39	90.01	67.14	65.42	100.36
	Cash flow adequacy ratio (%)		96.19	89.24	90.81	98.71	86.72
	Cash flow reinvestment ratio (%)		0.61	(1.56)	0.58	1.61	0.17
Leverage	Operating leverage		13.61	14.56	4.93	7.77	508.13
	Financial leverage		1.39	1.43	1.11	1.18	-0.03

Notes 1: The financial information for 2023 was verified by the accountant.

Note 2: Reasons for changes in various financial ratios in recent two years (analysis not necessary for changes less than 20%).

- 1) The current ratio in 2023 grew by 46.22% compared with 2022, which is mainly due to decrease in current liabilities of NT\$ 2,083,055 thousand.
- 2) The quick ratio in 2023 grew by 39.70% compared with 2022, which is mainly due to decrease in current liabilities of NT\$ 2,083,055 thousand.
- 3) Times interest earned in 2023 declined by 88.80% compared with 2022, which is mainly due to decrease in pre-tax profit of NT\$ 3,156,795 thousand.
- 4) Average days of sales grew by 22.28% compared with 2022, which is mainly due to decrease in cost of goods sold of NT\$ 3,215,083 thousand.
- 5) Return on assets dropped by 81.82% compared with 2022, which is mainly due to decrease in after-tax profit of NT\$ 2,960,427 thousand.
- 6) Return on equity dropped by 85.96% compared with 2022, which is mainly due to decrease in after-tax profit of NT\$ 2,960,427 thousand.
- 7) Pretax net profit to paid-in capital ratio in 2023 dropped by 86.64% compared with 2022, which is mainly due to decrease in profit before tax of NT\$ 3,156,795 thousand.
- 8) Net profit rate in 2023 decreased by 84.46% compared with 2022, which is mainly due to decrease in after-tax profit of NT\$ 2,960,427 thousand.
- 9) Earnings per share in 2023 decreased by 87.13% compared with 2022, which is mainly due to decrease in after-tax profit of NT\$ 2,960,427 thousand.
- 10) Cash flow ratio in 2023 grew by 53.41% compared with 2022, which is mainly due to decrease in current liabilities of NT\$ 2,083,055 thousand.
- 11) Cash flow reinvestment ratio in 2023 decreased by 89.44% compared with 2022, which is mainly due to increase in cash dividends of NT\$ 824,325 thousand.
- 12) Operating leverage in 2023 increased by 9,469.30% compared with 2022, which is mainly due to decrease in operating profits of NT\$ 792,008 thousand.
- 13) Financial leverage in 2023 increased by 102.54% compared with 2022, which is mainly due to decrease in operating profits of NT\$ 792,008 thousand.

Note 3: Calculation formulas for various financial ratio follow:

1. Financial structure

- (1) liabilities to assets ratio = total liabilities/total assets
- (2) Long-term fund to property, plant, and equipment ration = (shareholders' equity + non-current liabilities)/net value of plant, plant, and equipment.

2. Debt-repayment ability

- (1) Current ratio = Current assets/current liabilities
- (2) Quick ratio = (Current assets - inventories - prepaid expenses)/current liabilities
- (3) Times interest earned = Earnings before interest and taxes/interest expenses

3. Operating performance

- (1) Average Collection Turnover = Net Sales / Average TradeReceivables
- (2) Days Sales Outstanding = 365 / Average Collection Turnover
- (3) Average Inventory Turnover = Cost of Sales / Average Inventory
- (4) Average Inventory Turnover Days = 365 / Average Inventory Turnover
- (5) Average Payment Turnover = Cost of Sales / Average TradePayables
- (6) Property, Plant and Equipment Turnover = Net Sales / Average Net Property, Plant and Equipment
- (7) Total Assets Turnover = Net Sales / Average Total Assets

4. Earnings power

- (1) $\text{Return on Total Assets} = (\text{Net Income} + \text{Interest Expenses} (1 - \text{Effective Tax Rate})) / \text{Average Total Assets}$
- (2) $\text{Return on Equity} = \text{After-tax income} / \text{average total equity}$
- (3) $\text{Ratio of income before tax to paid-in capital} = \text{Profit Before Tax to Capital Stock} / \text{paid-in capital}$
- (4) $\text{Net Margin} = \text{Net Income} / \text{Net Sales}$
- (5) $\text{Earnings Per Share} = (\text{Net Income Attributable to Shareholders of the Parent} - \text{Preferred Stock Dividend}) / \text{Weighted Average Number of Shares Outstanding (note 4)}$

5. Cash Flow

- (1) $\text{Cash Flow Ratio} = \text{Net Cash Provided by Operating Activities} / \text{Current Liabilities}$
- (2) $\text{Cash Flow Adequacy Ratio} = \text{Five-year Sum of Cash from Operations} / \text{Five-year Sum of Capital Expenditures, Inventory Additions, and Cash Dividend}$
- (3) $\text{Cash Flow Reinvestment Ratio} = (\text{Cash Provided by Operating Activities} - \text{Cash Dividends}) / (\text{Gross Property, Plant and Equipment} + \text{Long-term Investments} + \text{Other Noncurrent Assets} + \text{Working Capital})$ (note 5)

6. Leverage

- (1) $\text{Operating Leverage} = (\text{Net Sales} - \text{Variable Cost}) / \text{Income from Operations}$ (note 6)
- (2) $\text{Financial Leverage} = \text{Income from Operations} / (\text{Income from Operations} - \text{Interest Expenses})$

Note 4: When evaluating the aforementioned calculation formula for earnings per share, give special notices for the following items:

1. It should be based on weighted average number of common shares, rather than the number of shares in circulation at the end of the year.
2. If there is cash increment or trading in treasury stocks, calculate weighted average number of shares during the circulation period.]
3. If there is capital increment with earnings or capital reserve, retroactive adjustments should be made according to the scale of capital increment in calculating the earnings per share of past year and half a year, without the need of taking into account the issuance period of the capital increment.
4. If special shares are accumulated inconvertible special shares, their share dividends for the current year (no matter issuance or not) should be deducted from after-tax net profit or be increased to after-tax net loss. If special shares are not accumulated ones, dividends for special shares should be deducted from after-tax net profit, if any; in the case of loss, it doesn't need adjustment.

Note 5: When evaluating cash flow, give special notices to the following items:

1. Net cash flow of operating activities refer to net operating inflow in cash flow table.
2. Capital outlay refers to cash outflow for annual capital investments.
3. Inventory increase is taken into account, only when initial balance is larger than ending balance; if inventory decreases at the end of year, it is calculated as zero.
4. Cash dividend includes cash dividends for common shares and special shares.
5. Gross property, plant, and equipment refers total value of property, plant, and equipment before depreciation.

Note 6: Issuers should classify operation cost and operating expenses into fixed and variable ones and notices its reasonable and consistent nature, if estimate or subjective judgment is involved.

Note 7: If company stock has no face value or has a face value other than NT\$10, use the share of parent company's equity ownership in balance sheet in the calculation of the share in paid-in capital.

C. The Audit Committee's Review Report of the financial report for the latest year

**FORMOSA TAFFETA CO., LTD.
The Audit Committee's Review Report**

The Company's 2023 Business Report, Financial Statements, including Consolidated and Parent Company Only ones, and Earnings Distribution Proposal have been prepared by the Board of Directors. An audit of the Financial Statements was conducted by the CPAs of PricewaterhouseCoopers Taiwan (PwC), and the audit reports were issued by PwC. The Audit Committee members of Formosa Taffeta Co., Ltd. reviewed the Business Report, Financial Statements, and Earnings Distribution Proposal and determined the information to be correct and accurate. According to the Securities and Exchange Act and the Company Act, we hereby submit this report. Please be advised accordingly.

Formosa Taffeta Co., Ltd. Chairman
of the Audit Committee:

Lin, Sheng-Chung

March 8, 2024

- D. Consolidated financial report of parent company and subsidiaries of the recent year audited and certified by certified accountant (for details refer to page 195 - 288)**
- E. Individual financial report of the recent year audited and certified by certified accountant(for details refer to page 289 - 377)**
- F. Effect of financial problem, if any, of the company and affiliates on the company's financial status in the recent year and the current year as of the date of the publication of the annual report: nil**

VII Financial status, review and analysis of management performance, and risk items

A. Review and analysis of financial status--consolidated financial report

The reasons for, and impact of, any significant change over the two most recent fiscal years in its assets, liabilities, or equity. Where the impact is significant, describe further how the company plans to respond.

Unit: NT\$1,000

Item \ Year	2023	2022	Difference		
			Amount	%	Explanation
Current assets	16,479,420	20,209,605	-3,730,185	(18.46)	-
Non-current assets	55,185,362	55,200,230	-14,868	(0.03)	-
Total assets	71,664,782	75,409,835	-3,745,053	(4.97)	-
Current liabilities	5,675,993	8,633,765	-2,957,772	(34.26)	-
Non-current liabilities	11,636,817	11,008,855	627,962	5.70	-
Total liabilities	17,312,810	19,642,620	-2,329,810	(11.86)	-
Share capital	16,846,646	16,846,646	0	0.00	-
capital surplus	1,340,129	1,338,658	1,471	0.11	-
Retained earnings	19,289,406	21,096,936	-1,807,530	(8.57)	-
Other equity interest	16,894,855	16,504,039	390,816	2.37	-
Treasury stocks	(19,064)	(19,064)	0	0.00	-
Equity attributable to owners of the parent	54,351,972	55,767,215	-1,415,243	(2.54)	-
Non-controlling interest	-	-	-	-	-
Total equity	54,351,972	55,767,215	-1,415,243	(2.54)	
Explanation: The decrease in current liabilities resulted from the drop in short-term borrowings, short-term notes and bills payable and accounts payable.					

B. Review and analysis of management performance

(A)Comparative analysis of management performance--consolidated financial report

Unit: NT\$1,000

Item \ Year	2023	2022	Increase (decrease)	Change (%)
Sales revenue	28,501,509	34,722,655	(6,221,146)	(17.92)
Operating costs	25,971,071	30,953,904	(4,982,833)	(16.10)
Net operating margin	2,530,438	3,768,751	(1,238,313)	(32.86)
Operating expenses	2,249,802	2,498,926	(249,124)	(9.97)
Operating profit	280,636	1,269,825	(989,189)	(77.90)
Non-operating income and expenses	270,321	2,436,389	(2,166,068)	(88.90)
Profit before tax	550,957	3,706,214	(3,155,257)	(85.13)
Income tax expense	106,403	301,233	(194,830)	(64.68)
Profit for the year from continuing operations	444,554	3,404,981	(2,960,427)	(86.94)
(Loss) profit from discontinued operations	-	-	-	
Profit for the year	444,554	3,404,981	(2,960,427)	(86.94)

Explanation for analysis of change in share:

1. Operating profit in 2023 decreased by NT\$ 989,189 thousand compared with 2022, which is mainly due to the drop in net operating margin of NT\$1,238,313 thousand.
2. Non-operating income and expenses in 2023 decreased by NT\$ 2,166,068 thousand compared with 2022, which is mainly due to the decrease in investment income accounted for using equity method of NT\$ 763,213 thousand, dividend income of NT\$ 1,052,554 thousand, foreign exchange gains of NT\$ 357,699 thousand, and other income of NT\$ 292,602 thousand.
3. Profit in 2023 decreased by NT\$ 2,960,427 thousand compared with 2022, which is mainly due to the increase in profit before tax of NT\$ 3,155,257 thousand, and income tax expense of NT\$ 194,830 thousand.

(B) Sales volume forecast and the basis therefor, and describe the effect upon the company's financial operations as well as measures to be taken in response: Please refer to 2024 Business Plan of I. Report to Shareholders.

C. Cash flow:

Describe and analyze any cash flow changes during the most recent fiscal year, describe corrective measures to be taken in response to illiquidity, and provide a liquidity analysis for the coming year.

(A) The analysis of change in cash flow in 2023

Unit: NT\$1,000

Cash balance beginning of year	Net cash flow from Operating in the year	Cash outflow in the year	Cash balance (shortfall)	Remedy for cash shortfall	
				Investment plan	Financing plan
5,477,800	4,092,706	5,329,349	4,241,157	-	-

- (1) Business activities: Net cash inflow from operating activities in the current year reached to NT\$ 4,092,706 thousand mainly due to the operating benefits (excluding depreciation and investment benefits recognized by the equity method) of NT\$ 2,058,855 thousand, decreased in payable (inflow) NT\$ 818,492 thousand, and decrease in inventory (outflow) NT\$ 1,660,303 thousand.
- (2) Investment activities: Net cash outflows from investment activities in the current year amounted to NT\$ 1,364,064 thousand, mainly due to purchases of real estate, plant and equipment prices (outflow) of NT\$ 687,417 thousand, and increase in acquisition of financial assets at amortized cost (outflow) of NT\$ 693,108 thousand.
- (3) Fund-raising activities: Net cash outflow from fund-raising activities during the year was NT\$ 3,916,306 thousand, which is mainly due to the repayment of long-term loans (outflow) of NT\$ 15,000,000 thousand, cash dividend payments (outflow) of NT\$ 2,470,288 thousand, and lease principal repayment (outflow) of NT\$ 162,797 thousand, short-term borrowing decreased (outflow) NT\$ 783,994 thousand, short-term notes and bills payable decreased (inflow) NT\$ 1,299,227 thousand and long-term borrowing (inflow) NT\$15,800,000 thousand.

(B) Remedial Actions for Liquidity Shortfall

- (1) As a result of positive operating cash flows and cash on-hand, remedial actions are not required.
- (2) Analysis of cash flow in the coming one year

Unit: NT\$1,000

Cash balance beginning of year (1)	Expected Net cash flow from Operating in the year (2)	Expected cash outflow in the year (3)	Expected cash balance (shortfall) (1)+(2)-(3)	Remedy for expected cash shortfall	
				Investment plan	Financing plan
4,241,157	5,007,313	5,025,527	4,222,943	-	-

- (1) Business activities: It's expected that net cash inflow from operating activities in 2024 is NT\$ 5,007,313 thousand due to the stable operating benefits.
- (2) Investment activities: It's expected that net cash outflows from investment activities in 2024 amounts to NT\$ 1,020,653 thousand, mainly due to the increase in purchases of real estate, plant and equipment prices.
- (3) Fund-raising activities: It is expected that net cash outflow from fund-raising activities in 2024 is NT\$ 4,004,874 thousand, mainly due to the repayment of long-term loans and cash dividend payments.
- (4) It's expected that the operating cash flows and cash on-hand, remedial actions are positive in 2024.

D. Influence of major capital outlays in the recent year on finance and business

(A) Status of major capital outlays and funding sources

Unit: NT\$1,000

Projects	Actual or planned source of capital	Actual or planned date of completion	Total capital in need	Actual or anticipated fund utilization							
				2023	2024	2025	2026	2027	2028	2029	2030
Replacement of old machines with new ones setup of new gas stations equipment from 2023	Cash and income generated from the company's operation, with the remainder from banking loans	2024.12.31	458,703	434,308	24,395	-	-	-	-	-	-
Replacement of old machines with new ones and setup of new gas stations equipment from 2024	Cash and income generated from the company's operation, with the remainder from banking loans	2025.12.31	226,922	-	221,751	5,351	-	-	-	-	-

(B) Anticipated benefits

Anticipated contribution to production and sales volume and value, as well as gross profit

NT\$1,000

Year	Item	Production volume	Sales volume	Amount of Sales	Gross profit
2024	Filament/Spun Compositied Yarn	230 tons	-	99,509	10,775
	3K Carbon fiber cloth and 12K reinforced material	447,036 meters	-	144,392	5,776
	12 KUD prepreg	616,512 meters	-	143,647	5,746
	Sales of gasoline	The gas station delivered 2,693 kiloliter	-	64,112	4,797
2025	Special fabrics	506,634 yards	-	11,107	7,243
	Coned Yarn	261 tons	-	61,186	15,346
	Sales of gasoline	The gas station delivered 2,702 kiloliter	-	77,743	7,875

E. Reinvestment policy, major reasons for profit or loss, improvement plan, and investment plan in the coming year:

According to 2023 parent company financial statement, the share of profit of associates and joint ventures accounted for using equity method, net decrease by NT\$ 85,010,000, resulting from the inflation and unfavorable global economic factors, which reduced the end-market demands. Some investees' profit dropped due to the pace of inventory reduction in industrial chains.

The Company will continue to catch up with the needs of customers and market trends and introduce AI and AOI technology to improve the manufacturing efficiency. In addition, the Company keeps implementing the energy saving, carbon reduction and water recycling measures to friendly co-exist with the environment. Besides, integrating the value chain to use recycled material to develop environmentally and high-added products. Please refer to page 177 for detailed the future product development plan.

F. Risk items

(A)Influence of changes in interest rate and exchange rate and inflation on the company's profit and future countermeasures:

1. Interest rate:

In terms of long-term liabilities under floating interest rate basis (corporate bond included), the Company will carefully assess financial market conditions and consider the implementation of interest rate swap when the interest rate is relatively low to avoid interest rate fluctuation risks. The company strives to make sure the undertaking interest rate is below the estimated cost of capital of investment plans.

2. Change of exchange rate:

Insufficient foreign exchange funds in daily operations are addressed by making spot or forward foreign exchange purchases when the exchange rate is favorable. Long-term foreign exchange liabilities are addressed by implementing long-term forward foreign exchange contracts or exchange-for-exchange contracts when the exchange rate is relatively low to minimize the impact of exchange rates on profitability.

3. Inflation

According to Directorate of Budget, Accounting, and Statistics, Executive Yuan, the annual growth rate of consumer prices in 2023 was 2.5%, and the annual growth rate of core consumer prices was 2.58%, both the second highest in 15 years. The rise in raw material and operating cost infected the company's profit, but it is expected that the inflation will slow in the coming year.

(B)Policy for engagement in high-risk, high-leverage investments, loan extension, endorsement and guarantee, and derivatives, major reasons for profit or loss, and countermeasures in the future:

1. High-risk, high-leveraged investments:

The company engages mainly in textile, gas stations, which are mature and stable industries, with low risk. With stable business management and sound finance, the company shuns high-leverage investments.

2. Loan extension

Proposal for loan extensions by the company must be passed by the board of directors and approved by shareholders' meeting, according to "measures for extension of loans to others." Up to now, the company has not extended any loan to others. In the future, loans will be only extended to affiliates for fund maneuvering and in compliance with "measures for extension of loans to others."

3. Endorsement:

The company's operating procedure for provision of endorsement and guarantee is based on "operating procedure for endorsement and guarantee," which has been approved by the board of directors and agreed by shareholders' meeting. In principle, endorsement and guarantee are extended only to parent company, subsidiaries, affiliates with business

linkage, or joint ventures at an extent proportionate to the share of the company's contribution. The company has never incurred loss from endorsement and guarantee, mainly on loans, due to sound finance and stable business of affiliates.

4. Derivative Product Transactions:

The company's engagement in trading in derivatives is for hedging market risks caused by fluctuation of exchange rates and interest rates, instead of arbitrage and speculation. Such trading is carried out according to the company's "procedure for engagement in trading in derivatives," as well as related domestic laws and regulations and IFRS (International Financial Reporting Standards).

(C)Future R&D plan and expected R&D expenses (2024)

R&D items and new R&D equipment	Expected input for R&D (Unit: NT\$1,000)
1. Carbon capture EG polyester	11,000
2. Ultra lightweight recycled HCR fabric	10,000
3. Recycled nylon mechanical stretch fabric	10,000
4. Agricultural waste recycled fabric	15,000
5. Ocean waste recycled nylon fabric	15,000
6. Nano fiber membrane waterproof breathable fabric	15,000
7. Single material waterproof breathable fabric	19,000
8. Cordura lightweight anti-abrasion fabrics	15,000
9. Biodegradable Nylon fabric	15,000
10. Recycled material 3D fabric	12,000
11. Water based coated fabric	12,000
12. Eco-friendly fabric with recycled yarn from greige fabrics	13,000
13. Bio-based Spandex stretch	11,000
14. Recycled/Bio-based waterproof breathable membrane laminated fabric	12,000
15. Taiwan textile federation collaboration	5,000
16. Hybrid tire cord development (continued)	10,000
17. Eco-friendly yarn and tire cord development	12,000
18. Eco-friendly tire cord dipping recipe development	10,000
19. Anti-static insulation and cleanroom used fabric (continued)	10,000
Total	232,000

(D)Risk Impact and Mitigation Efforts Associated with Changes in the Government Policies and Regulatory Environment:

The Company closely monitors all domestic and foreign governmental policies and regulations that might impact the Company's business and financial operations and arranges personnel to receive professional training as needed. During the period of 2023 to March 29, 2024, the following changes or developments in governmental policies and regulations may influence the Company's business and financial operations:

1. On October 21, 2021, the Environmental Protection Administration announced the draft amendment of the "Climate Change Response Act", which was passed by Legislative Yuan in the third reading on Jan. 10, 2023. The Ministry of Environment has also proposed the imposition of carbon fees on manufacturing and electricity industries that have carbon emissions exceeding 25,000 metric tons, starting from 2025. The collection method will be based on the GHG emissions of the previous year, and the specific rates have not yet been

announced. The Company has been conducting provisional estimates on relevant carbon fees at reasonable rates since 2021, and will continue to pay attention to regulatory developments and ensure compliance accordingly. Furthermore, regarding carbon credits, in coordination with the official launch of the Taiwan Carbon Solution Exchange on August 7, 2023, and the commencement of carbon credit trading. The Company has opened an account in Taiwan Carbon Solution Exchange on Feb. 17, 2024 and will evaluate the demand for trading in a timely manner.

2.Tai-Zheng-Zhi-Li-Zi No. 11200147631 of the Taiwan Stock Exchange Corporation, dated August 23, 2023, has announced the amendment to the “Operation Directions for Compliance with the Establishment of Board of Directors by TWSE Listed Companies and the Board’s Exercise of Powers,” stipulating that the minimum number of independent directors of a TWSE listed company is one-third of the seats in the board. This requirement will be applicable to TWSE listed companies with a paid-in capital reaching NT\$10 billion starting from 2024. However, for directors whose terms do not expire in 2024, this requirement shall upon the expiration of their terms. In addition, starting from 2024, more than half of independent directors of TWSE listed companies shall not serve beyond three consecutive terms. However, for directors whose terms do not expire in 2024, this requirement shall upon the expiration of their terms. Starting from 2027, all independent directors shall not serve beyond three consecutive terms. However, for directors whose terms do not expire in 2027, this requirement shall apply upon the expiration of their terms. The Company’s Directors will be re-elected when their terms expire in 2026, which will be handled in accordance with the regulations.

3.Except the bill mentioned above, no other regulations or acts have a significant financial impact on the Company.

(E) Influence of technological and industrial changes on the company's finance and business and countermeasures: There is no technological changes with major influence on the company, since the company belongs to an industry with mature technology. For the risks and countermeasures of information and cyber security, please refer to page 157 for detailed information.

(F) Influence of change in corporate image on corporate crisis management and countermeasures: Adhering to the management concept of "diligence and down-to-earth style, quest for perfection, sustainable development, and contribution to society," the company has established a good corporate image and will insist on the concept for further progress, in order to make even bigger contribution to the society.

(G) Expected benefits from acquisition, possible risk, and countermeasures: nil.

(H) Expected benefits from factory expansion, possible risk, and countermeasures: Evaluation shows that there is no major risk for factory expansion.

(I) Risk for concentration of purchase or sale and countermeasures:

1.Purchase: The company's major raw materials, including tire-cord filament, PU filament,

and polyester filament are mainly supplied by affiliates Formosa Chemicals & Fibre Corporation and Nan Ya Plastics Corp. in abundant volume, without any risk of shortage.

2.S a l e s : In 2023, the ratio between domestic sale and export of the company was 55.18% and 44.82%. Major exported products are long- and short-fiber fabric, tire cord, and PE bag, shipped mainly to contracted customers in Southeast Asia, Hong Kong, China, India, Japan, and South Korea, while major products for domestic sales are long- and short-fiber fabric, tire cord, special fabric, and oil products. Given diversification in markets and customers, related risk is low.

(J) Influence and risk of massive share transfer by directors, supervisors, and major shareholders with over 10% shareholding and countermeasures: nil.

(K) Influence and risk of change in management right and countermeasures: nil.

(L) List major litigations, non-contentious cases, administrative litigations, including those with settled ruling or still in progress, involving the company and the company's directors, supervisors, president, actual responsible person, major shareholders with over 10% shareholding, and subordinated companies, whose outcomes may have major influence on shareholders' equity or security prices. Disclose the facts of the contentions, values of targets, starting dates of litigations, major parties involved, and status of handling as of the date of the publication of the annual report:

1. Taiwan Cooperative Bank Co., Ltd. (hereinafter referred to as TCB) filed a civil lawsuit against the Company with the Taipei District Court in September 2019. TCB claimed that the former employees of the Company colluded with New Site Industries Inc. (hereinafter referred to as New Site) and New Brite Industries Inc. (hereinafter referred to as New Brite) to make false statements. TCB was misled with the fact that New Site and New Brite has accounts receivable due from the Company, causing damage to TCB. Therefore, TCB claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated April 20, 2023, the Taipei District Court has ordered that the Company is jointly liable to compensate TCB for the amount of NT\$290,657 thousand and any requested interest. However, it should be noted that the first instance ruling did not fully consider several vital defenses raised by the Company and the case remains appealable. As such, the ultimate outcome of the appeal and amount of the lawsuit cannot presently be determined. The Company has filed an appeal on May 11, 2023 and engage lawyers to submit a strong defense to protect the Company's rights and interests.
2. DBS (Taiwan) Commercial Bank Co., Ltd. (hereinafter referred to as DBS) filed a civil lawsuit against the Company and Formosa Taffeta Dong Nai (hereinafter referred to as the Formosa Dong Nai), a subsidiary of the Company with the Taipei District Court in September 2019. The former employees of the Company and Formosa Dong Nai colluded with New Site Industries Inc. (hereinafter referred to as New Site) to make the false

statements. DBS was misled with the fact that New Site has accounts receivable due from the Company and Formosa Dong Nai, causing damage to DBS. Therefore, DBS claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated December 30, 2022, the Taipei District Court has rejected the claims filed by DBS. Consequently, DBS filed an appeal in January 2023. The ultimate outcome of the appeal and amount of the lawsuit cannot presently be determined. However, the Company and Formosa Dong Nai have engaged lawyers to submit a strong defense to protect the Company's rights and interests.

- 3.O-Bank filed a civil lawsuit against the Company and Formosa Taffeta Dong Nai (hereinafter referred to as the Formosa Dong Nai), a subsidiary of the Company with the Taipei District Court in February 2020. The former employees of the Company and Formosa Dong Nai colluded with I Chin Young Inc. (hereinafter referred to as I Chin Young) to make false statements. O-Bank was misled with the fact that I Chin Young has accounts receivable due from the Company and Formosa Dong Nai, causing damage to O-Bank. Therefore, O-Bank claimed that the Company and Formosa Dong Nai should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated February 10, 2023, the Taipei District Court has rejected the claims filed by OBank. O-Bank has filed an appeal in accordance with related laws. The ultimate outcome of the appeal and amount of the lawsuit cannot presently be determined. However, the Company and Formosa Dong Nai have engaged lawyers to submit a strong defense to protect the Company's rights and interests.
- 4.Yuanta Commercial Bank (hereinafter referred to as YCB) filed a merger of action in criminal and civil prosecution against against the Company with the Taipei District Court in October 2020. The former employees of the Company colluded with Loomtech Industries Inc. (hereinafter referred to as Loomtech) to make false statements. YCB was misled with the fact that Loomtech has accounts receivable due from the Company, causing damage to YCB. Therefore, YCB claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated May 17, 2023, the Taipei District Court has rejected the claims filed by YCB. The result of above judgment was determined on August 24, 2023
5. Taiwan Business Bank (hereinafter referred to as TBB) filed a merger of action in criminal prosecution against the Company and its subsidiary - Formosa Taffeta Dong Nai. The former employees of the Company colluded with New Site, New Brite and I Chin Young to make false statement. TBB was misled with the fact that New Site, New Brite, I Chin Young have accounts receivable due from the Company and Formosa Taffeta Dong Nai, causing damage to TBB. Therefore, TBB claimed that the Company and Formosa Taffeta Dong Nai should be jointly and severally liable with the obligation of indemnity. However,

this case arose purely as a result of the personal behavior of the former employees. As the case is still under trial proceedings, the ultimate outcome and amount of the lawsuit cannot presently be determined. However, the Company has engaged a lawyer to submit a strong defense to protect the Company's rights and interests.

(M) Other major risks and countermeasures: Nil

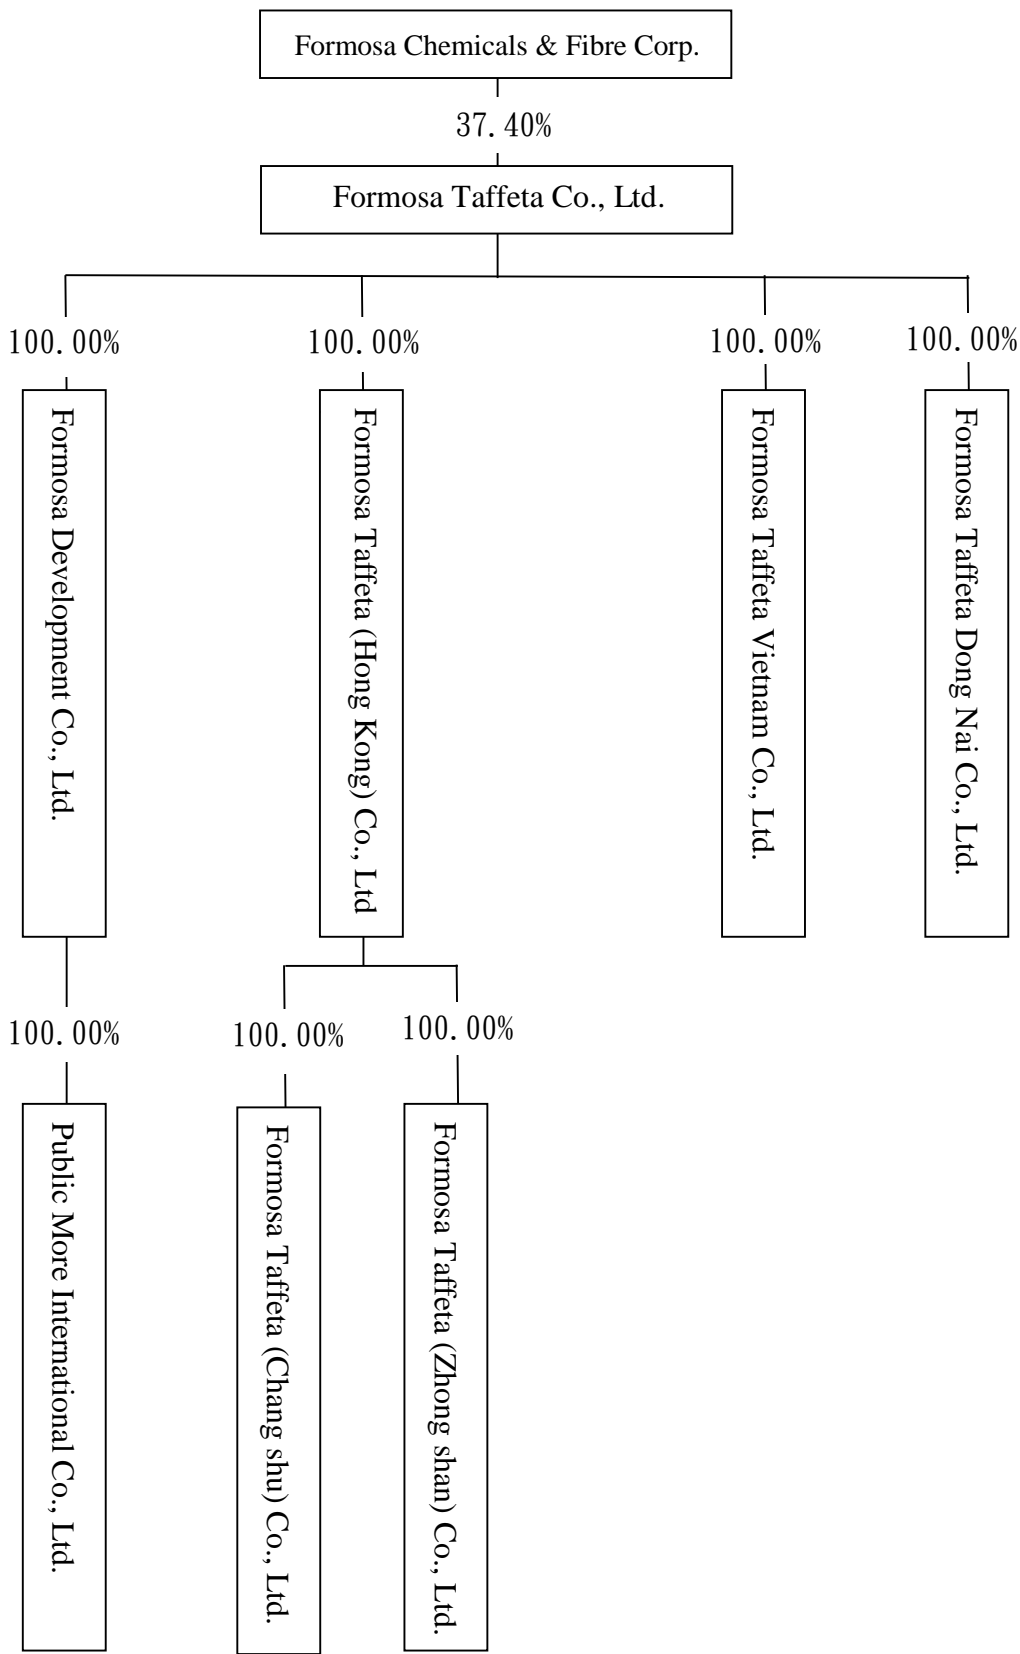

G. Other important items: nil.

Representation Letter

The entities that are required to be included in the consolidated financial statements of Formosa Taffeta Co., Ltd. as of and for the year ended December 31, 2023 under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports, and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with International Financial Reporting Standards No. 10, "Consolidated Financial Statements " by the Financial Supervisory Commission. In addition, the information required to be disclosed in the consolidated financial statements is included in the consolidated financial statements. Consequently, Formosa Taffeta Co., Ltd. and Subsidiaries do not prepare a separate set of consolidated financial statements.

Company Name: Formosa Taffeta Co. Ltd. & Subsidiary

Chairman: Wong, Wen-Yuan

March 8, 2024

Formosa Taffeta Co., Ltd.

Review report on affiliation report by certified public accountant

No. 23009362

To Formosa Taffeta Co., Ltd.

The 2023 affiliation report compiled by Formosa Taffeta Co., Ltd. on March 8, 2024 is based on the "Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises," disclosing information without much aberration from related information disclosed in the notes of the financial statement covering the aforementioned period.

The certified public account has found no major aberration in the notes of the 2023 affiliation report of Formosa Taffeta Co., Ltd. from the "Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises," after comparing the two documents.

F. Guidelines for Ethical Conducts of the Company's Directors, Supervisors and Managerial Staffers

revised by the board of directors on June 23, 2017

Chapter 1 General rules

Article1: The guidelines are formulated, to assure conformance to ethical conducts in carrying out business activities related to their jobs by the company's directors and managerial staffers (including president, executive vice president, senior vice president, vice president, financial chief, accounting chief, and others with the authority of management and signature), so as to prevent unethical conducts and conducts detrimental to the interests of the company and shareholders.

Chapter 2 Norms for ethical conducts

Article 2: In handling the company's affairs, directors and managerial staffers should embrace a self-disciplined attitude, based on honesty without deception, trustworthiness and law abidance, fairness and justness, and compliance with ethics.

Article3: Directors and managerial staffers should avoid conflict of interests involving meddling or possible meddling with the company's overall interests for personal interests, including, but not limited to, inability to handle corporate affairs in an objective and efficient manner, or provision of improper benefits to themselves, their spouses, parents, children, or relatives within second-degree kinship, thanks to their positions in the company. To prevent conflict of interest, it is necessary to pass the review by the board of directors beforehand, for the company providing loans or guarantee to, or engaging in major transactions of assets with, the aforementioned persons or their associated affiliates. Related purchase or sale should be carried out, on the consideration of the company's maximum benefits.

Article 4: In the face of profit-making opportunities for the company, directors and managerial staffers should uphold just and legal benefits available to the company. Directors and managerial staffers shouldn't take advantage of the company's properties or information or their positions to seek personal benefits. In addition to the requirements of the Company Act or corporate charter, they should not engage in business activities, in competition with the company.

Article 5: Directors and managerial staffers have the duty of confidentiality for information on the company, suppliers, and customers, except cases with authorized or legally mandated publication. Information which should be kept confidential include those whose utilization by rivals or leakage may harm the interests of the company or customers.

Article 6: Directors and managerial staffers should treat the company's suppliers, customers, rivals, and employees in a fair manner, avoiding acquisition of improper benefits via manipulation, concealing, or abuse of information obtained from their positions, untrue narration on major issues, or other unfair transaction methods.

Article 7: Directors and managerial staffers should utilize the company's assets properly, according to the needs of their jobs, and avoid stealth, negligent usage, or waste of the company's assets, which may affect the company's profitability.

Article 8: Directors and managerial staffers should abide by various laws and government regulations, as well as the company's regulations and systems.

Article 9: When discovering violation of laws/regulations or guidelines by directors or managerial staffers, the company's employees should report, along with sufficient evidence, the irregularities to the auditing committee, direct managerial superiors, personnel or internal-auditing chiefs at the President's Office, or other proper parties. After the reports are investigated and confirmed, the company will reward the informant property, according to personnel management regulations.

The company will handle the aforementioned reports in a confidential and responsible manner and make its utmost in protecting the safety of those who make the reports in good faith, to shield them from retaliation in any form.

Article 10: Should directors or managerial staffers be confirmed to violate the guidelines, in addition to penalties according to personnel management regulations, the case should be reported to the board of directors and the offenders should be subject to civil, criminal, or administrative liabilities, in addition to disclosure on the Open Market Observation Post System of relevant information, including date, situation, relevant article of the guidelines of the offense, as well as the state of handling.

Chapter 3 Procedure for exemption

Article 11: Proposal to exempt directors or managerial staffers from the requirements of the guidelines under special situation should be approved by the board of directors with agreement of over two thirds of the directors in attendance, whose number should be more than half of the total. Relevant information for the exemption should be posted on the Open Market Observation System instantly, including date of approval by the board of directors, opposition or reservation of independent directors, if any, exemption period, reasons for the exemption, and criteria for the exemption, for evaluation of its propriety by shareholders, so as to uphold the company's interests.

Chapter 4 Method for information disclosure

Article 12: The guidelines should be publicly disclosed on corporate website, in yearbook and prospectus, and on the Market Observation Post System and the requirement also applies to its revision.

Chapter 5 Supplementary provision

Article 13: The guidelines are put into practice after approval by the board of directors and should be reported to shareholders' meeting; the requirement also applies to its revision.

March 8, 2024

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Formosa Taffeta Co., Ltd.

Opinion

We have audited the accompanying consolidated balance sheets of Formosa Taffeta Co., Ltd. and its subsidiaries (the "Group") as at December 31, 2023 and 2022, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the financial statements, including a summary of material accounting policies.

In our opinion, based on our audits and the reports of other independent auditors (refer to the *Other matter* section), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2023 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2023 consolidated financial statements are stated as follows:

Valuation of allowance for uncollectible accounts

Description

Refer to Note 4(12) for accounting policy on financial assets impairment, Note 5(1) for accounting estimates and assumption uncertainty in relation to accounts receivable, and Note 6(4) for details of allowance for uncollectible accounts. As of December 31, 2023, the Group's accounts receivable and allowance for uncollectible accounts amounted to NT\$2,052,898 thousand and NT\$43,494 thousand, respectively.

The Group assesses the collectability of accounts receivable based on historical experience, known reason or existing objective evidence. For those accounts which are considered uncollectible, the Group recognizes impairment with a credit to accounts receivable. The Group examines the reasonableness periodically. As the estimation of allowance for uncollectible accounts is subject to management's judgement, and given the significance of accounts receivable and allowance for uncollectible accounts to the financial statements, we considered the valuation of allowance for uncollectible accounts a key audit matter.

How our audit addressed the matter

Our procedures in relation to management's assessment of the allowance for uncollectible accounts included:

- A. Evaluating the reasonableness of the estimates used by management to estimate the expected credit losses of accounts receivable and obtaining relevant supporting documents, including: forward looking adjustments, accounting disputes, overdue status, post-account collections and indications that show that the customer cannot repay the loan as scheduled;

- B. Assessing the adequacy of allowance for uncollectible accounts estimated by management to confirm whether the provision policy on allowance for uncollectible accounts has been consistently applied in the comparative periods of financial statements and testing the related assessment to confirm the accuracy of ageing analysis of accounts receivable; and
- C. Testing collections after the balance sheet date to check the adequacy of allowance for uncollectible accounts.

Valuation of inventory

Description

Refer to Note 4(14) for accounting policy on inventory valuation, Note 5(2) for accounting estimates and assumption uncertainty in relation to inventory valuation, and Note 6(5) for description of allowance for inventory valuation losses. As of December 31, 2023, the Group's inventory and allowance for market value decline and obsolete and slow-moving inventories amounted to NT\$8,682,299 thousand and NT\$824,477 thousand, respectively

The Group is primarily engaged in fiber dyeing and finishing, manufacturing and sales of curtains. As the textile manufacturing market is competitive, there is higher risk of incurring loss on inventory valuation. The Group recognizes inventories at the lower of cost and net realizable value, and the net realizable value is calculated based on the average price less estimated selling expenses. Since the calculation of net realizable value involves subjective judgement and uncertainty and the inventory is material to the financial statements, we considered the valuation of inventory a key audit matter.

How our audit addressed the matter

Our procedures in relation to management's assessment of the allowance for inventory valuation losses included:

- A. Assessing the reasonableness of policies and procedures on allowance for inventory valuation loss, including the reasonableness of classification of inventory in determining the net realizable value;

- B. Understanding the inventory management procedures, examining and participating in annual physical count and assessing the effectiveness of inventory management and inventory classification determined by management; and
- C. Checking the method in calculating the net realizable value of inventory and assessing the reasonableness of allowance for valuation loss.

Other matter – Reference to the audits of other auditors

We did not audit the financial statements of certain investments accounted for under the equity method, which statements reflect total assets (including investments accounted for using the equity method) of NT\$10,739,174 thousand and NT\$12,023,782 thousand, constituting 15% and 16% of consolidated total assets as of December 31, 2023 and 2022, respectively, and operating income of NT\$4,689,027 thousand and NT\$5,964,462 thousand, constituting 16% and 17% of consolidated total operating income for the years then ended, respectively, and comprehensive loss were (NT\$133,977) thousand and (NT\$33,760) thousand, constituting (12%) and 1% of total comprehensive (loss) income for the years then ended, respectively.

Other matter – Parent company only financial reports

We have audited and expressed an unqualified opinion on the parent company only financial statements of Formosa Taffeta Co., Ltd. as at and for the years ended December 31, 2023 and 2022.

Responsibilities of management and those charged with governance for the financial statements.

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are

free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including members of the Audit Committee, are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- A. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- B. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- C. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- D. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- E. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- F. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the

current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

FORMOSA TAFFETA CO., LTD. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2023 AND 2022

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

(1) Formosa Taffeta Co., Ltd. (the “Company”) was incorporated on April 19, 1973 under the provisions of the Company Law of the Republic of China (R.O.C.). Factories were established in Douliou City of Yulin County, R.O.C. On December 24, 1985, the Company’s common stock was officially listed on the Taiwan Stock Exchange. The major operations of the Company’s various departments are as follows:

<u>Business departments</u>	<u>Major activities</u>
Primary department: Fabrics, dyeing and others	Amine fabrics, polyester fabrics, cotton fabrics, blending fabrics and umbrella ribs
Secondary department: Cord fabrics, petroleum	Cord, plastic bags, refineries for gasoline, diesel, crude oil and the related petroleum products, cotton fibers, blending fibers and protection fibers

(2) Formosa Chemicals & Fiber Corp. has significant control over the Company since Formosa Chemicals & Fiber Corp. holds over half of the Board seats after the stockholders’ meeting on June 27, 2008. Since June 27, 2008, Formosa Chemicals & Fiber Corp. became the Company’s parent company and accordingly, the Company and its subsidiaries are included in its consolidated financial statements.

(3) As of December 31, 2023, the Company and its subsidiaries (collectively referred herein as the “Group”) had 7,218 employees.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were authorized for issuance by the Board of Directors on March 8, 2024.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS[®]”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2023 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction'	January 1, 2023
Amendments to IAS 12, 'International tax reform - pillar two model rules'	May 23, 2023

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

Amendments to IAS 12, 'International tax reform - pillar two model rules'

The amendments give companies temporary relief from accounting for deferred income taxes arising from tax law enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development (OECD). An entity shall neither recognize nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

(2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2024
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024
Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'	January 1, 2024

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, International Financial Reporting Standards, International Accounting Standards, IFRIC[®] Interpretations, and SIC[®] Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Basis of preparation

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Financial assets at fair value through other comprehensive income.
 - (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

- (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
- (b) Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the noncontrolling interests having a deficit balance.
- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
- (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed.

B. Subsidiaries included in the consolidated financial statements:

Name of investor	Name of subsidiary	Main business activities	Ownership (%)		Description
			December 31, 2023	December 31, 2022

Formosa Taffeta (Hong Kong) Co., Ltd.	Formosa Taffeta (Zhong Shan) Co, Ltd.	Manufacturing of nylon and polyester filament greige cloth, coloured cloth, printed cloth and textured processing yarn products	100	100	
Formosa Development Co., Ltd.	Public More Internation Company Ltd.	Employment service, manpower allocation and agency service etc.	100	100	

For the years ended December 31, 2023 and 2022, except for the subsidiaries, Formosa Taffeta Vietnam Co., Ltd. and Formosa Taffeta Dong Nai Co., Ltd, whose financial statements were audited by other independent auditors, the financial statements of other subsidiaries were audited by the Company's auditors.

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group: None.

(4) Reasons and impacts for reclassification of certain financial statements accounts

A. Nature and reasons for reclassification:

The Group originally applied the “The Management, Utilization, and Taxation of Repatriated Offshore Funds Act” on December 31, 2022 and January 1, 2022. The funds repatriated under the regulations were deposited in a special account in the amount of USD 8,426 thousand (equivalent to \$261,259) and USD 8,426 thousand (equivalent to \$233,331), as its usage is restricted by regulations and does not comply with IAS 7, “Statement of Cash Flows” definition of cash and cash equivalents, therefore it was classified as other financial assets. However, based on the amended IFRSs Q&A by the competent authority on January 5, 2024, the regulations’ restrictions on the use of the aforementioned funds do not change the nature of the deposit, therefore the deposit should still be reported as cash and cash equivalent. In accordance with the above regulations, the Group reclassified the unused amount of deposit to cash and cash equivalent.

B. Amounts reclassified for each item or category of items:

CONSOLIDATED BALANCE SHEETS

December 31, 2022

Affected accounts	As reported	Reclassification adjustment	As amended
Cash and cash equivalents	\$ 5,216,541	\$ 261,259	\$ 5,477,800
Other non-current assets	368,000	(261,259)	106,741

January 1, 2022

Affected accounts	As reported	Reclassification adjustment	As amended
Cash and cash equivalents	\$ 3,471,141	\$ 233,331	\$ 3,704,472
Other non-current assets	364,723	(233,331)	131,392

CONSOLIDATED STATEMENTS OF CASH FLOWS

2022

Affected accounts	As reported	Reclassification adjustment	As amended
Decrease in non-current assets	(\$ 3,060)	\$ 27,928	\$ 24,868
Net increase in cash and cash equivalents	1,745,400	27,928	1,773,328
Cash and cash equivalents at beginning of year	3,471,141	233,331	3,704,472
Cash and cash equivalents at end of year	5,216,541	261,259	5,477,800

(5) Foreign currency translation

Items included in the financial statements of each of the Group’s entities are measured using the currency of the primary economic environment in which the entity operates (the “functional currency”). The consolidated financial statements are presented in New Taiwan Dollars, which is the

Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions. All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognized in other comprehensive income.

(6) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

- (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
- (b) Assets held mainly for trading purposes;
- (c) Assets that are expected to be realized within twelve months from the balance sheet date;
- (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they

are classified as non-current liabilities:

- (a) Liabilities that are expected to be settled within the normal operating cycle;
- (b) Liabilities arising mainly from trading activities;
- (c) Liabilities that are to be settled within twelve months from the balance sheet date;
- (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(7) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(8) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using settlement date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. Non-hedging derivatives are initially recognized at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognized in profit or loss.
- E. The Group recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(9) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the

derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(10) Financial assets at amortized cost

- A. Financial assets at amortized cost are those that meet all of the following criteria:
 - (a) The objective of the Group's business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortized cost are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognized in profit or loss when the asset is derecognized or impaired.
- D. The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(11) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(12) Impairment of financial assets

For financial assets at amortized cost including accounts receivable or contract assets that have a significant financing component, at each reporting date, the Group recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognizes the impairment provision for lifetime ECLs.

(13) Derecognition of financial assets

The Group derecognizes a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has not retained control of the financial asset.

(14) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the

weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated cost necessary to make the sale.

(15) Investments accounted for using the equity method/associates

- A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20% or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognizes the Group's share of change in equity of the associate in 'capital surplus' in proportion to its ownership.
- D. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. In the case that an associate issues new shares and the Group does not subscribe or acquire new shares proportionately, which results in a change in the Group's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for under the equity method' shall be adjusted for the increase or decrease of its share of equity interest.
- F. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.

(16) Leasing arrangements (lessor) — lease receivables/operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(17) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

<u>Items</u>	<u>Estimated useful lives</u>
Land improvements	3 ~ 15 years
Buildings	10 ~ 60 years
Machinery and equipment	2 ~ 20 years
Transportation equipment	3 ~ 15 years
Other equipment	2 ~ 17 years

(18) Leasing arrangements (lessee) — right-of-use assets/lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate.
Lease payments are comprised of the fixed payments, less any lease incentives receivable.
The Group subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are

changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the amount of the initial measurement of lease liability.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term.

When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

(19) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 27~30 years.

(20) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(21) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(22) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(23) Financial liabilities at fair value through profit or loss

- A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorized as financial liabilities held for trading unless they are designated as hedges.
- B. At initial recognition, the Group measures the financial liabilities at fair value. All related transaction costs are recognized in profit or loss. The Group subsequently measures these financial liabilities at fair value with any gain or loss recognized in profit or loss.

(24) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(25) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(26) Financial guarantee contracts

A financial guarantee contract is a contract that requires the Group to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. At initial recognition, the Group measures financial guarantee contracts at fair value and subsequently at the higher of the amount of provisions determined by the expected credit losses and the cumulative gains that were previously recognized.

(27) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

B. Pension

(a) Defined contribution plans

For the defined contribution plan, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plan

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plan is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized past service costs. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) instead.
- ii. Remeasurements arising on defined benefit plan are recognized in other comprehensive income in the period in which they arise and recorded as retained earnings.
- iii. Past service costs are recognized immediately in profit or loss.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(28) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are

levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

- F. A deferred tax asset shall be recognized for the carry forward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

(29) Share capital

Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

(30) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities.

(31) Revenue recognition

- A. The Group manufactures and sells various fabrics, and renders services as an oil distributor. Sales are recognized when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.
- B. Revenue is measured at the fair value of the consideration received or receivable taking into account business tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Group's activities.
- C. A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.
- D. Given that the contractual period lasts less than one year, the Group recognizes the incremental costs of obtaining a contract as an expense when incurred although the Group expects to recover those costs.

(32) Government grants

Government grants are recognized at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognized in profit or loss on a systematic basis over the periods in which

the Group recognizes expenses for the related costs for which the grants are intended to compensate.

(33) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Impairment assessment of accounts receivable

In evaluating impairment, the Group determines future recoverability of accounts receivable based on subjective judgement and estimates, taking into consideration the customer's financial condition, internal credit rating, and historical transaction records. If the future indicators declined, the impairment of accounts receivable may be significant.

(2) Evaluation of inventories

As inventories are stated at the lower of cost and net realizable value, the Company must determine the net realizable value of inventories on balance sheet date using judgements and estimates. Due to the rapid product innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realizable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of December 31, 2023, the carrying amount of inventories was \$7,857,822

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Cash on hand and petty cash	\$ 104,235	\$ 100,238
Checking accounts and demand deposits	1,830,691	2,032,763
Time deposits	1,837,935	2,916,965
Commercial paper	468,296	427,834
	<u>\$ 4,241,157</u>	<u>\$ 5,477,800</u>
		<u>January 1, 2022</u>
Cash on hand and petty cash		\$ 93,645
Checking accounts and demand deposits		1,754,873
Time deposits		1,709,972
Commercial paper		145,982
		<u>\$ 3,704,472</u>

- A. The Group associates with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. The range of time deposit rates on December 31, 2023 and 2022 are 5.58%~5.77%, and 1.75%~4.81%, respectively.
- C. The range of commercial paper rates as of December 31, 2023 and 2022 are 1.05%~1.08% and 0.9%~0.95%, respectively.
- D. The Group repatriates the offshore fund by adopting “The Management, Utilization, and Taxation of Repatriated Offshore Funds Act”, and the amount was USD 8,422 thousand, of which USD 3,004 thousand has been spent in 2023. The amount as at December 31, 2023 is USD 5,422 thousand and equivalent to \$166,494. Although the Act restricts the usage of the fund, based on the amended IFRSs Q&A by the competent authority on January 5, 2024, the Act’s restrictions on the usage of the fund does not change the nature of the deposit, therefore the deposit should still be reported as cash and cash equivalent. In addition, the Group has reclassified the amount as of December 31, 2022 and January 1, 2022. Refer to Section 4 (4) for detailed explanation.
- E. The Group has no cash and cash equivalents pledged to others.

(2) Financial assets at fair value through other comprehensive income

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Current items:		
Equity instruments		
Listed stocks	\$ 900,285	\$ 900,285
Unlisted stocks	<u>100,000</u>	<u>100,000</u>
	1,000,285	1,000,285
Valuation adjustment	<u>112,898</u>	<u>224,964</u>
	<u>\$ 1,113,183</u>	<u>\$ 1,225,249</u>
	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Non-current items:		
Equity instruments		
Listed stocks	\$ 8,163,125	\$ 8,163,125
Unlisted stocks	<u>6,647,666</u>	<u>6,647,666</u>
	14,810,791	14,810,791
Valuation adjustment	<u>17,939,547</u>	<u>17,324,657</u>
	<u>\$ 32,750,338</u>	<u>\$ 32,135,448</u>

- A. The Group has elected to classify equity investments that are considered to be steady dividend income as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$33,863,521 and \$33,360,697 as at December 31, 2023 and 2022, respectively.
- B. Amounts recognized in profit or loss and other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

	<u>Years ended December 31,</u>	
	<u>2023</u>	<u>2022</u>
<u>Equity instruments at fair value through other comprehensive income</u>		
Fair value change recognized in other comprehensive income (loss)	<u>\$ 502,824</u>	<u>(\$ 8,640,330)</u>
Cumulative gains reclassified to retained earnings due to derecognition	<u>\$ -</u>	<u>(\$ 502)</u>

- C. As at December 31, 2023, and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at fair value through other comprehensive income held by the Group were \$33,863,521 and \$33,360,697, respectively.
- D. Information relating to credit risk of financial assets at fair value through other comprehensive income is provided in Note 12(2).

(3) Financial assets at amortised cost

Items	December 31, 2023	December 31, 2022
Current items:		
Time deposit	\$ 112,616	\$ 113,122
Non-current items:		
Time deposit	\$ 737,706	\$ 44,092

A. Amounts recognized in profit or loss in relation to financial assets at amortised cost are listed below:

	Years ended December 31,	
	2023	2022
Interest income	\$ 11,863	\$ 2,756

- A. As at December 31, 2023 and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at amortized cost held by the Group were \$850,322 and \$157,214, respectively.
- B. Information relating to credit risk of financial assets at amortized cost is provided in Note 12(2). The counterparties of the Group's investments in certificates of deposits are financial institutions with high credit quality, so the Group expects that the probability of counterparty default is remote.

(4) Notes and accounts receivable

	December 31, 2023	December 31, 2022
Notes receivable	\$ 57,123	\$ 72,548
Accounts receivable	\$ 2,096,392	\$ 2,755,139
Less: Allowance for bad debts	(43,494)	(63,735)
	\$ 2,052,898	\$ 2,691,404

A. The ageing analysis of notes and accounts receivable is as follows:

	December 31, 2023	December 31, 2022
Not past due	\$ 2,096,891	\$ 2,723,483
Up to 30 days	32,249	63,658
31 to 90 days	5,816	25,276
Over 90 days	18,559	15,270
	\$ 2,153,515	\$ 2,827,687

The above ageing analysis was based on past due date.

- B. As of December 31, 2023 and 2022, accounts receivable and notes receivable were all from contracts with customers. As of January 1, 2022, the balance of receivables from contracts with customers amounted to \$3,684,163.
- C. As at December 31, 2023 and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents

the Group's notes and accounts receivable were \$2,110,021 and \$2,763,952, respectively.

D. Information relating to credit risk of accounts receivable and notes receivable is provided in Note 12(2).

(5) Inventories

December 31, 2023			
	Cost	Allowance for valuation loss	Book value
Raw materials	\$ 1,082,441	(\$ 124,814)	\$ 957,627
Supplies	327,985	(2,528)	325,457
Work in process	3,001,786	-	3,001,786
Finished goods	3,471,733	(697,135)	2,774,598
Merchandise inventory	251,076	-	251,076
Materials in transit	169,800	-	169,800
Outsourced processed materials	286,120	-	286,120
Construction in progress	16,552	-	16,552
Land for construction	74,806	-	74,806
	<u>\$ 8,682,299</u>	<u>(\$ 824,477)</u>	<u>\$ 7,857,822</u>
December 31, 2022			
	Cost	Allowance for valuation loss	Book value
Raw materials	\$ 1,440,988	(\$ 137,771)	\$ 1,303,217
Supplies	347,684	(3,659)	344,025
Work in process	3,295,914	-	3,295,914
Finished goods	4,326,355	(668,660)	3,657,695
Merchandise inventory	265,412	-	265,412
Materials in transit	315,191	-	315,191
Outsourced processed materials	258,610	-	258,610
Construction in progress	3,271	-	3,271
Land for construction	67,375	-	67,375
	<u>\$ 10,320,800</u>	<u>(\$ 810,090)</u>	<u>\$ 9,510,710</u>

Information about the inventories that were pledged to others as collateral is provided in Note 8.

The cost of inventories recognized as expense for the years ended December 31, 2023 and 2022 were as follows:

	Years ended December 31,	
	2023	2022
Cost of inventories sold	\$ 25,649,462	\$ 30,651,657
Inventory valuation loss	14,387	87,530
Idle capacity	238,349	103,072
Others (Note)	68,873	111,645
	<u>\$ 25,971,071</u>	<u>\$ 30,953,904</u>

Note: Others consist of service cost, inventory overage/shortage and disposal of scrap and defective materials.

(6) Investments accounted for using equity method

Items	December 31, 2023	December 31, 2022
Formosa Advanced Technologies Co., Ltd.	\$ 5,000,582	\$ 5,278,947
Formosa Industries Co., Ltd.	1,338,654	1,626,376
Quang Viet Enterprise Co., Ltd.	1,414,563	1,429,538
Schoeller Textil AG	1,033,980	1,096,100
Nan Ya Photonics Inc.	176,689	190,818
	<u>\$ 8,964,468</u>	<u>\$ 9,621,779</u>

A. The Group's material associates have quoted market prices as follows:

	December 31, 2023	December 31, 2022
Formosa Advanced Technologies Co., Ltd.	\$ 5,310,083	\$ 5,214,774
Quang Viet Enterprise Co., Ltd.	2,093,665	2,233,242
	<u>\$ 7,403,748</u>	<u>\$ 7,448,016</u>

B. Associates

(a) The basic information of the associates that are material to the Group is as follows:

Company name	Principal place of business	Shareholding ratio		Nature of relationship	Method of measurement
		December 31, 2023	December 31, 2022		
Formosa Advanced Technologies Co., Ltd.	Taiwan	30.79%	30.79%	Investments accounted for using the equity method	Equity method
Formosa Industries Co., Ltd.	Vietnam	10.00%	10.00%	Investments accounted for using the equity method	Equity method

(b) The summarized financial information of the associates that are material to the Group is shown below:

Balance sheets

	Formosa Advanced Technologies Co., Ltd.	
	December 31, 2023	December 31, 2022
Current assets	\$ 9,573,354	\$ 10,767,938

- A. Amount of borrowing costs capitalized as part of property, plant and equipment and the range of the interest rates for such capitalization are as follows:

	Years ended December 31,	
	2023	2022
Amount capitalized	\$ 5,542	\$ 2,867
Range of the interest rates for capitalization	1.75%~1.95%	0.77%~1.64%

- B. The components and useful lives of property, plant and equipment are as follows:

Items	Significant components	Estimated useful lives
Land improvements	Pipelines	3 ~ 15 years
Buildings	Factory and gasoline stations	10 ~ 60 years
Machinery and equipment	Impregnating machine, dyeing machine and other machinery equipment	5 ~ 20 years
Transportation equipment	Pallet trucks and fork lift trucks	3 ~ 15 years
Other equipment	Cogeneration power generation equipment	2 ~ 17 years

- C. Information about the property, plant and equipment that were pledged to others as collateral is provided in Note 8.

- D. Certain regulations restrict ownership of land to individuals. Accordingly, the titles of land which the Company has acquired for future plant expansion is under the name of third parties. Such land titles were transferred and mortgaged to the Company. As of December 31, 2023 and 2022, the land mortgaged to the Company was \$808,300.

(8) Leasing arrangements — lessee

- A. The Group leases various assets including land. Rental contracts are typically made for periods of 3 to 25 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

- B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	December 31, 2023	December 31, 2022
	Carrying amount	Carrying amount
Right-of-use asset - land	\$ 1,004,450	\$ 1,108,999
Right-of-use asset - buildings	112,193	-
	<u>\$ 1,116,643</u>	<u>\$ 1,108,999</u>
	Years ended December 31,	
	2023	2022
	Depreciation charge	Depreciation charge
Right-of-use asset - land	\$ 157,924	\$ 155,500
Right-of-use asset - buildings	3,869	-
	<u>\$ 161,793</u>	<u>\$ 155,500</u>

C. For the years ended December 31, 2023 and 2022, the additions to right-of-use assets were \$185,218 and \$234,095, respectively.

D. The information on income and expense accounts relating to lease contracts is as follows:

	Years ended December 31,	
	2023	2022
<u>Items affecting profit or loss</u>		
Interest expense on lease liabilities	\$ 11,100	\$ 11,142
Expense on short-term lease contracts	6,897	3,287

E. For the years ended December 31, 2023 and 2022, the Group's total cash outflow for leases were \$169,694 and \$156,771, respectively.

(9) Investment property

	2023		
	Land	Buildings	Total
At January 1			
Cost	\$ 15,332	\$ 1,014,300	\$ 1,029,632

	<u>\$ 15,332</u>	<u>\$ 536,297</u>	<u>\$ 551,629</u>
Opening net book amount as at January 1	\$ 15,332	\$ 536,297	\$ 551,629
Depreciation charge	-	(33,057)	(33,057)
Net exchange differences	-	(1,329)	(1,329)
Closing net book amount as at December 31	<u>\$ 15,332</u>	<u>\$ 501,911</u>	<u>\$ 517,243</u>
At December 31			
Cost	\$ 15,332	\$ 1,012,590	\$ 1,027,922
Accumulated depreciation	-	(510,679)	(510,679)
	<u>\$ 15,332</u>	<u>\$ 501,911</u>	<u>\$ 517,243</u>

	2022		
	Land	Buildings	Total
At January 1			
Cost	\$ 7,892	\$ 1,012,678	\$ 1,020,570
Accumulated depreciation	-	(444,718)	(444,718)
	<u>\$ 7,892</u>	<u>\$ 567,960</u>	<u>\$ 575,852</u>
Opening net book amount as at January 1	\$ 7,892	\$ 567,960	\$ 575,852
Additions	7,440	-	\$ 7,440
Depreciation charge	-	(33,068)	(33,068)
Net exchange differences	-	1,405	1,405
Closing net book amount as at December 31	<u>\$ 15,332</u>	<u>\$ 536,297</u>	<u>\$ 551,629</u>
At December 31			
Cost	\$ 15,332	\$ 1,014,300	\$ 1,029,632
Accumulated depreciation	-	(478,003)	(478,003)
	<u>\$ 15,332</u>	<u>\$ 536,297</u>	<u>\$ 551,629</u>

A. Rental income from investment property is as follows:

	Years ended December 31,	
	2023	2022
Rental income from investment property	<u>\$ 61,310</u>	<u>\$ 57,689</u>

B. The fair value of the investment property held by Group as at December 31, 2023 and 2022 were \$1,466,935 and \$1,232,703, respectively, which was based on the transaction prices of similar prices in the neighboring areas.

(10) Short-term borrowings

Type of borrowings	December 31, 2023	Interest rate range	Collateral
Bank borrowings			
Credit borrowings	\$ 2,171,094	3.25%~6.7%	-
Secured borrowings	<u>80,000</u>	1.825%~1.95%	Property, plant and equipment and Inventories
	<u>\$ 2,251,094</u>		

<u>Type of borrowings</u>	<u>December 31, 2022</u>	<u>Interest rate range</u>	<u>Collateral</u>
Bank borrowings			
Credit borrowings	\$ 2,971,053	3.4%~5.57%	-
Secured borrowings	50,000	1.2%~1.83%	Property, plant and equipment and Inventories
Purchase loans	14,035	3.35%	-
	<u>\$ 3,035,088</u>		

(11) Short-term notes and bills payable

As at December 31, 2023: None.

	<u>December 31, 2022</u>
Commercial paper payable	\$ 1,300,000
Less: Commercial paper payable discount	(773)
	<u>\$ 1,299,227</u>
Interest rate	<u>1.49%~1.51%</u>

The abovementioned commercial paper payable was issued by International Bills Finance Corporation, Taishin International Bank, Ta Ching Bills Finance Corporation, Mega Bills Finance, Hua Nan Commercial Bank and China Bills Finance, Ltd., etc.

(12) Financial liabilities at fair value through profit or loss-current

<u>Items</u>	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Financial liabilities held for trading		
Forward foreign exchange contracts	<u>\$ 479</u>	<u>\$ 2,826</u>

A. For the years ended December 31, 2023 and 2022, the Company recognized \$2,347 and (\$2,826) in profit or loss in relation to financial liabilities held for trading, respectively.

B. Explanations of the transactions and contract information in respect of derivative financial liabilities that the Company does not adopt hedge accounting are as follows:

December 31, 2023		
Derivative Financial Liabilities	Contract Amount (Notional Principal) (in thousands)	Contract Period
Current items:		
Forward foreign exchange contracts		
Taipei Fubon Bank	JPY 94,010	2023.12~2024.01
December 31, 2022		
Derivative Financial Liabilities	Contract Amount (Notional Principal) (in thousands)	Contract Period
Current items:		
Forward foreign exchange contracts		
Taipei Fubon Bank	JPY 40,660	2022.10~2023.01
Taipei Fubon Bank	JPY 40,000	2022.10~2023.01
Taipei Fubon Bank	JPY 15,170	2022.11~2023.01
Taipei Fubon Bank	JPY 69,830	2022.11~2023.02

The Company entered into forward foreign exchange contracts to hedge exchange rate risk of assets and liabilities denominated in foreign currencies. However, these forward foreign exchange contracts do not meet all conditions of hedge accounting and are not accounted for under hedge accounting.

(13) Other payables

	December 31, 2023	December 31, 2022
Salaries and year-end bonus payable	\$ 391,646	\$ 493,814
Accrued utilities expenses	97,748	96,993
Commission payable	46,193	61,998
Payable on equipment	65,012	81,778
Dividends payable	109,034	51,942
Others	360,821	339,962
	<u>\$ 1,070,454</u>	<u>\$ 1,126,487</u>

(14) Long-term borrowings

	December 31, 2023	December 31, 2022
Credit borrowings	\$ 10,400,000	\$ 9,600,000
Interest rate	1.84%~1.97%	1.36%~2.10%

The long-term borrowings as of December 31, 2023 and 2022 are due in 2024-2025.

(15) Pensions

A.(a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the

enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contribute monthly an amount equal to 2% ~ 15% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned employees pension reserve account by December 31, every year. If the account balance is not enough to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contribution for the deficit by next March.

(b) The amounts recognized in the balance sheet are as follows:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Present value of defined benefit obligations	\$ 1,384,102	\$ 1,774,598
Fair value of plan assets	(1,393,922)	(1,470,618)
Net defined benefit liability	<u>(\$ 9,820)</u>	<u>\$ 303,980</u>

(c) Movements in net defined benefit liabilities are as follows:

	<u>Present value of defined benefit obligations</u>	<u>Fair value of plan assets</u>	<u>Net defined benefit liability</u>
<u>Year ended December 31, 2023</u>			
Balance at January 1	\$ 1,774,598	(\$ 1,470,618)	\$ 303,980
Current service cost	6,362	-	6,362
Interest expense (income)	22,182	(18,679)	3,503

- (d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company and domestic subsidiaries have no right to participate in managing and operating that fund and hence the Company and domestic subsidiaries are unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

	Years ended December 31,	
	2023	2022
Discount rate	1.25%	1.25%
Future salary increases	2.85%	2.85%

Assumptions regarding future mortality experience are set based on the Taiwan Standard Ordinary Experience Mortality Table for the years ended December 31, 2023 and 2022.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 1%	Decrease 1%
<u>December 31, 2023</u>				
Effect on present value of defined benefit obligation	(\$ 8,236)	\$ 8,443	\$ 36,431	(\$ 33,749)
<u>December 31, 2022</u>				
Effect on present value of defined benefit obligation	(\$ 13,248)	\$ 13,628	\$ 56,907	(\$ 51,965)

The sensitivity analysis above was based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(f) The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2023 and 2022 were \$9,865 and \$10,528, respectively.

(g) Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2024 are \$42,317.

(h) As of December 31, 2023, the Company's weighted average duration of that retirement plan is 4.6 years.

B.(a) Effective July 1, 2005, the Company and its domestic subsidiaries have established defined contribution pension plans (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(b) The Company's Mainland China subsidiaries, Formosa Taffeta (Zhong Shan) Co., Ltd., and Formosa Taffeta (Changshu) Co., Ltd., have defined contribution plans. Monthly contributions

to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on a certain percentage of the employees' monthly salaries and wages. The contribution percentage was between 10% and 20%. Other than the monthly contributions, the Group has no further obligations.

(c) The Company's subsidiaries, Formosa Taffeta Vietnam Co., Ltd. and Formosa Taffeta (Dong Nai) Co., Ltd., have defined contribution plans. Contributions of social security to an independent fund administered by the government in accordance with the pension regulations of local governments are based on certain percentage of employees' salaries and wages. Other than the monthly contributions, the Group has no further obligations.

(d) Formosa Taffeta (Hong Kong) Co., Ltd. has defined contribution plans whereby contributions are made to the mandatory provident fund based on a percentage of the employees' salaries and wages as full-time employees' pension benefit.

(e) The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2023 and 2022 were \$135,806 and \$137,168, respectively.

(16) Share capital

A. As of December 31, 2023, the Company's issued capital was \$16,846,646, consisting of 1,684,665,000 shares of common stock, with a par value of \$10 per share.

B. For the years ended December 31, 2023 and 2022, changes in the number of treasury stocks are as follows (in thousands of shares):

Reason for reacquisition	Investee company	Year ended December 31, 2023			
		Beginning shares	Additions	Disposal	Ending shares
Long-term equity investment transferred to treasury stock for parent company's shares held by subsidiaries	Formosa Development Co., Ltd.	2,193	-	-	2,193

Reason for reacquisition	Investee company	Year ended December 31, 2022			
		Beginning shares	Additions	Disposal	Ending shares
Long-term equity investment transferred to treasury stock for parent company's shares held by subsidiaries	Formosa Development Co., Ltd.	2,193	-	-	2,193

C. The abovementioned treasury stocks were acquired by the subsidiary, Formosa Development Co., Ltd., for investment purposes.

(17) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

Year ended December 31, 2023					
	Treasury share transactions	Difference between consideration and carrying amount of subsidiaries acquired or disposed	Donated assets received	Changes in net equity of associates and joint ventures accounted for under equity method	Others

At December 31, 2023	<u>\$ 40,966</u>	<u>\$ 1,650</u>	<u>\$ 2,032</u>	<u>\$ 1,280,456</u>	<u>\$ 13,554</u>

(18) Retained earnings

A. According to the R.O.C. Securities Exchange Law No. 41, a company should reserve the amount equal to any valuation or contra-account in the stockholders' equity in the fiscal year from the net income and prior unappropriated earnings as special reserve. If the valuation or contra-account in stockholders' equity belongs to prior periods, the same amount from prior period earnings should be considered special reserve and cannot be distributed. The special reserve includes:

i) Reserve for special purposes.

ii) Investment income recognized under the equity method.

iii) Net proceeds from the recognition of financial asset transactions; only when the accumulated value decreases should the special reserve be adjusted by the same amount, subject to the provisions in this section.

iv) Other special reserves set out by legal provisions.

B. The Company's dividend policy is summarized below:

As the Company operates in a volatile business environment and is in the stable growth stage, the dividend policy includes cash dividends, stock dividends and capital increase by earnings recapitalization. At least 50% of the Company's distributable earnings shall be appropriated as dividends after deducting the legal reserve and special reserves. The Company would prefer distributing cash dividends. However, if significant investment measures are taken or the Company's financial structure needs to be improved, part of the dividends would be in the form of stock dividends but not to exceed 50% of the total dividends.

C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

D. The appropriations of 2022 and 2021 earnings had been resolved by the stockholders on June 16, 2023 and June 24, 2022, respectively. Details are summarized below:

	2022 earnings		2021 earnings	
	Amount	Dividends per share (in dollars)	Amount	Dividends per share (in dollars)
Legal reserve	\$ 344,497		\$ 201,758	
Cash dividends	2,526,997	\$ 1.50	1,684,665	\$ 1.00

E. The consolidated subsidiary, Formosa Taffeta (Zhong Shan) Co., Ltd., set aside a portion of after tax profits for the reserve fund and staff bonus welfare fund in accordance with regulations on foreign invested enterprises as set forth in the Company Law of the People's Republic of China. The percentage of after-tax profits allocated to the reserve fund must be 10% or more. Once the

amount of the reserve fund reaches 50% of the registered capital, contribution to the fund is no longer required. The percentage of after-tax profits allocated to the staff bonus welfare fund is determined by the company. No profits can be distributed before operating losses from prior years are first covered.

- F. The appropriations of 2023 earnings had been resolved by the Board of Directors on March 8, 2024. Details are summarized below:

	2023 earnings	
	Amount	Dividends per share (in dollars)
Legal reserve	\$ 71,947	
Cash dividends	438,013	\$ 0.26

As of March 8, 2024, the above appropriations of 2023 earnings has not yet been resolved by the shareholders.

- G. For information relating to employees' compensation and directors' and supervisors' remuneration, refer to Note 6(25).

	<u>\$ 3,298,011</u>	<u>\$ 3,589,310</u>

A. In accordance with the Company's Articles of Incorporation, a ratio of distributable profit of the current year after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall be between 0.05%-0.5% for employees' compensation and shall not be higher than 0.5% for directors' and supervisors' remuneration.

B. For the years ended December 31, 2023 and 2022, employees' compensation was accrued at \$976 and \$7,308, respectively; while directors' and supervisors' remuneration was accrued at \$488 and \$3,654, respectively. The aforementioned amounts were recognized in salary expenses.

The employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on the distributable profit of current period for the year ended December 31, 2023. The employees' compensation and directors' and supervisors' remuneration for 2022 as approved by shareholders were the same as the amounts shown in the 2022 financial statements.

Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

- D. The income tax returns of the Company, Formosa Development Co., Ltd. and Public More Internation Company Ltd. through 2021 have been assessed and approved by the Tax Authority.
- E. Starting from January 1, 2007, the enterprise income tax of Formosa Taffeta (Zhong Shan) Co., Ltd. and Formosa Taffeta (Changshu) Co., Ltd. is based on 25% of income generated within and outside Mainland China. In addition, Formosa Taffeta (Zhong Shan) Co., Ltd. was certified as high-tech enterprise by Guangdong Provincial Government and accordingly, is entitled to the applicable income tax rate of 15% for 3 years from 2021.
- F. The income tax rate of Formosa Taffeta Dong Nai Co., Ltd. was approved by the Vietnam government to be 15% for 12 years from the year of official establishment (October 2006); 20% after 12 years. Formosa Taffeta Dong Nai Co., Ltd. was granted income tax exemption for 3 years from the first profit-making year and income tax reduction of half of the 15% income tax rate or half of the 20% income tax rate for the next 4 to 10 years.
- G. In accordance with local tax regulations, the applicable income tax rate of Formosa Taffeta Vietnam Co., Ltd. was 20%.
- H. In accordance with local tax regulations, the applicable income tax rate of Formosa Taffeta (Hong Kong) Co., Ltd. was 16.5%.

(28) Earnings per share

A. Basic earnings per share

The calculation of basic earnings per share is profit or loss attributable to the common stockholders of the Company divided by the weighted average number of outstanding common stocks for the year.

Year ended December 31, 2023					
	Amount		Weighted-average outstanding common shares (in thousands)	Earnings per share (in dollars)	
	Before tax	After tax		Before tax	After tax
Profit attributable to owners of the parent	<u>\$ 486,507</u>	<u>\$ 444,554</u>	<u>1,682,471</u>	<u>\$ 0.29</u>	<u>\$ 0.26</u>
Year ended December 31, 2022					
	Amount		Weighted-average outstanding common shares (in thousands)	Earnings per share (in dollars)	
	Before tax	After tax		Before tax	After tax
Profit attributable to owners of the parent	<u>\$ 3,643,302</u>	<u>\$ 3,404,981</u>	<u>1,682,471</u>	<u>\$ 2.17</u>	<u>\$ 2.02</u>

The following is the earnings per share assuming the shares of the Company held by its subsidiary, Formosa Development Co., Ltd., are not deemed as treasury stock:

Year ended December 31, 2023					
	Amount		Weighted-average outstanding common shares (in thousands)	Earnings per share (in dollars)	
	Before tax	After tax		Before tax	After tax

F. Others

(a) Formosa Taffeta (Dong Nai) Co., Ltd. was engaged by the related party, Formosa Industry, to provide management services to Nhon Trach 3 Industrial Zone. In accordance with the service consignment contract signed by Formosa Taffeta (Dong Nai) Co., Ltd. and Nhon Trach 3 Industrial Zone each year, Formosa Taffeta (Dong Nai) Co., Ltd. is responsible for managing land that is available for rent, meter reading and payment collection of water, electricity, steam and other public liquid sold to lessees in investment district, repairing and performing service on various public facilities of power plant. In accordance with the contract, Formosa Taffeta (Dong Nai) Co., Ltd.'s collectible service expense is as follows:

- i. Land lease expense: 3% of Formosa Industry's land rent revenue
- ii. Public liquid service expense: 3% of Formosa Industry's monthly sale of electricity to lessees in investment district
- iii Management expense: the full amount of management expense collected from lessees in investment district to Formosa Industry is to be paid to the Company and its subsidiaries.

For the years ended December 31, 2023 and 2022, Formosa Taffeta (Dong Nai) Co., Ltd. has

recognized lease service income in investment district of \$40,664 and \$35,522, respectively, for rendering the abovementioned consigned services. As of December 31, 2023 and 2022, the uncollected amount of \$3,545 and \$3,187, respectively, was recognized under ‘other receivables’.

For the above land leasing, as of December 31, 2023 and 2022, the management expense and utility expense which Formosa Taffeta (Dong Nai) Co., Ltd. is due to collect from the related party, Formosa Industry, amounted to \$22,805 and \$24,933, respectively.

(b) Rent income (shown as ‘other income’)

The Group leases buildings at No. 319, 329 and 331, Henan St., Douliu City, Yunlin County, No. 497-1, Sec. Neilin, land and employees’ dorms at No. 132 and 136, Sec. Meilin river, Douliu City to Formosa Advanced Technologies Co., Ltd. Rents which were determined by reference to general rental price in local market are payable at the beginning of each month based on the mutual agreement. Rent income for the years ended December 31, 2023 and 2022 amounted to \$45,812 and \$43,027, respectively.

(c) Other income pertains to the Group’s collections and payment transfer of utilities, steam and waste disposal costs, etc. for Formosa Advanced Technologies Co., Ltd. for the years ended December 31, 2023 and 2022 amounting to \$21,020 and \$21,350, respectively.

(d) Formosa Advanced Technologies Co., Ltd. has planned to expand its plant capacity and entrusted the Group to coordinate the procurement and supervision of the construction since 2022. Under the agreement, both parties received and paid in accordance with the contract. As of December 31, 2023, the amount of \$26,821 was recognized under ‘Other current liabilities’.

(4) Key management compensation

	Years ended December 31,	
	2023	2022
Salaries and other short-term employee benefits	\$ 13,529	\$ 9,703

8. PLEDGED ASSETS

The Group’s assets pledged as collateral are as follows:

Item	Book Value		Purpose
	December 31, 2023	December 31, 2022	
Property, plant and equipment	\$ 134,461	\$ 135,161	Security for short-term borrowings
Inventories (Held-to-maturity land)	17,625	17,610	Security for short-term borrowings
	<u>\$ 152,086</u>	<u>\$ 152,771</u>	

9. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED CONTRACT COMMITMENTS

(1) As of December 31, 2023, the significant commitments and contingent liabilities are the outstanding letters of credit for materials and equipment purchases with various companies listed as follows:

<u>Currency</u>	<u>Amount</u>
USD	\$ 674
JPY	1,488
EUR	514

(2) Endorsements and guarantees

As of December 31, 2023, in order to assist the subsidiaries is obtaining credit line, the Company has guaranteed the following amounts for subsidiaries:

<u>Name of company</u>	<u>December 31, 2023</u>
Formosa Taffeta (Zhong Shan) Co., Ltd.	\$ 1,013,265
Formosa Taffeta Vietnam Co., Ltd.	1,320,315
Formosa Taffeta (Changshu) Co., Ltd.	1,688,775
Formosa Taffeta Dong Nai Co., Ltd.	4,068,413

(3) Contingencies - Significant lawsuit

- A. Taiwan Cooperative Bank Co., Ltd. (hereinafter referred to as TCB) filed a civil lawsuit against the Company with the Taipei District Court in September 2019. TCB claimed that the former employees of the Company colluded with New Site Industries Inc. (hereinafter referred to as New Site) and New Brite Industries Inc. (hereinafter referred to as New Brite) to make false statements. TCB was misled with the fact that New Site and New Brite has accounts receivable due from the Company, causing damage to TCB. Therefore, TCB claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated April 20, 2023, the Taipei District Court has ordered that the Company is jointly liable to compensate TCB for the amount of NT\$290,657 thousand and any requested interest. However, it should be noted that the first instance ruling did not fully consider several vital defenses raised by the Company and the case remains appealable. As such, the ultimate outcome of the appeal and amount of the lawsuit cannot presently be determined. The Company has received a judgement on April 27, 2023. Consequently, the Company plans to file an appeal within the legal timeframe and engage lawyers to submit a strong defense to protect the Company's rights and interests.
- B. DBS (Taiwan) Commercial Bank Co., Ltd. (hereinafter referred to as DBS) filed a civil lawsuit against the Company and Formosa Taffeta Dong Nai (hereinafter referred to as the Formosa Dong Nai), a subsidiary of the Company with the Taipei District Court in September 2019. The former employees of the Company and Formosa Dong Nai colluded with New Site Industries Inc. (hereinafter referred to as New Site) to make the false statements. DBS was misled with the fact that New Site has accounts receivable due from the Company and Formosa Dong Nai, causing damage to DBS. Therefore, DBS claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal

behavior of the former employee. In its adjudication dated December 30, 2022, the Taipei District Court has rejected the claims filed by DBS. Consequently, DBS filed an appeal in January 2023. The ultimate outcome of the appeal and amount of the lawsuit cannot presently be determined. However, the Company and Formosa Dong Nai have engaged lawyers to submit a strong defense to protect the Company's rights and interests.

- C. O-Bank filed a civil lawsuit against the Company and Formosa Taffeta Dong Nai (hereinafter referred to as the Formosa Dong Nai), a subsidiary of the Company with the Taipei District Court in February 2020. The former employees of the Company and Formosa Dong Nai colluded with I Chin Young Inc. (hereinafter referred to as I Chin Young) to make false statements. O-Bank was misled with the fact that I Chin Young has accounts receivable due from the Company and Formosa Dong Nai, causing damage to O-Bank. Therefore, O-Bank claimed that the Company and Formosa Dong Nai should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated February 10, 2023, the Taipei District Court has rejected the claims filed by O-Bank. O-Bank has filed an appeal in accordance with related laws. The ultimate outcome of the appeal and amount of the lawsuit cannot presently be determined. However, the Company and Formosa Dong Nai have engaged lawyers to submit a strong defense to protect the Company's rights and interests.
- D. Yuanta Commercial Bank (hereinafter referred to as YCB) filed a merger of action in criminal and civil prosecution against the Company with the Taipei District Court in October 2020. The former employees of the Company colluded with Loomtech Industries Inc. (hereinafter referred to as Loomtech) to make false statements. YCB was misled with the fact that Loomtech has accounts receivable due from the Company, causing damage to YCB. Therefore, YCB claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated May 17, 2023, the Taipei District Court has rejected the claims filed by YCB. The result of above judgment was determined on August 24, 2023.
- E. Taiwan Business Bank (hereinafter referred to as TBB) filed a merger of action in criminal prosecution against the Company and its subsidiary - Formosa Taffeta Dong Nai. The former employees of the Company colluded with New Site, New Brite and I Chin Young to make false statement. TBB was misled with the fact that New Site, New Brite, I Chin Young have accounts receivable due from the Company and Formosa Taffeta Dong Nai, causing damage to TBB. Therefore, TBB claimed that the Company and Formosa Taffeta Dong Nai should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employees. As the case is still under trial proceedings, the ultimate outcome and amount of the lawsuit cannot presently be determined. However, the Company has engaged a lawyer to submit a strong defense to protect the Company's rights and interests.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

- A. Refer to Note 6(18) F for the distribution of 2023 earnings which was proposed by the Board of Directors on March 8, 2024.
- B. The Group will allocate cash dividends from additional paid-in capital amounting to \$404,320 (\$0.24 (in dollars) per share) as proposed by the Board of Directors on March 8, 2024.

12. OTHERS

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current, non-current borrowings and short-term notes and bills payable' as shown in the consolidated balance sheet) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the consolidated balance sheet plus net debt.

During the year ended December 31, 2023, the Group's strategy was unchanged from 2022. The gearing ratios at December 31, 2023 and 2022 were as follows:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Total borrowings	\$ 12,651,094	\$ 13,934,315
Less: Cash and cash equivalents	(4,241,157)	(5,477,800)
Net debt	8,409,937	8,456,515
Total equity	54,351,972	55,767,215
Total capital	<u>\$ 62,761,909</u>	<u>\$ 64,223,730</u>
Gearing ratio	<u>13%</u>	<u>13%</u>

(2) Financial instruments

A. Financial instruments by category

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
<u>Financial assets</u>		
Financial assets at fair value through other comprehensive income	33,863,521	33,360,697
Financial assets at amortized cost	<u>7,608,523</u>	<u>8,946,646</u>
	<u>\$ 41,472,044</u>	<u>\$ 42,307,343</u>
<u>Financial liabilities</u>		
Financial liabilities at fair value through profit or loss	\$ 479	\$ 2,826
Financial liabilities at amortized cost	15,496,965	17,379,381
Lease liabilities	<u>916,769</u>	<u>894,518</u>
	<u>\$ 16,414,213</u>	<u>\$ 18,276,725</u>

Note: Financial assets at amortized cost includes cash and cash equivalents, notes and accounts receivable (including related parties), financial assets at amortized cost and other receivables; financial liabilities at amortized cost includes short-term borrowings, short-term notes and bills payable, notes and accounts payable (including related parties), other payables and long-term borrowings.

B. Financial risk management policies

- (a) The Group's activities expose it to a variety of financial risk: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The financial risk management policies of the Group focus on unpredictable factors in financial market, and aim to reduce unfavorable impact on financial position and financial performance.
- (b) Risk management is carried out by a central treasury department under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. Some of the Group's transactions are conducted in foreign currencies, which are subject to exchange rate fluctuation. The information on foreign currency denominated assets and liabilities are as follows:

December 31, 2023			
	Foreign Currency		Book Value
	Amount	Exchange Rate	(NTD)
	(In Thousands)		
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	\$ 90,757	30.74	\$ 2,789,870
JPY:NTD	601,985	0.22	132,437
USD:RMB	15,589	7.08	479,206
USD:VND	20,507	24,242.90	630,385
<u>Non-monetary items</u>			
VND:NTD	4,992,790,221	0.0013	6,490,627
RMB:NTD	766,759	4.34	3,327,734
HKD:NTD	311,163	3.93	1,222,871
CHF:NTD	28,340	36.485	1,033,985
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD:VND	70,623	24,242.9	2,170,951

	December 31, 2022		
	Foreign Currency		
	Amount		Book Value
	(In Thousands)	Exchange Rate	(NTD)
<u>Financial assets</u>			
<u>Monetary items</u>

USD:VND	1%	28,666	-

Price risk

- i The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

ii. The Group's investments in equity securities comprise shares, open-end funds and beneficiary certificates issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the years ended December 31, 2023 and 2022 would have increased/decreased by \$5 and \$23, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$338,635 and \$333,607, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. During the years ended December 31, 2023 and 2022, the Group's borrowings at variable rate were denominated in the NTD and USD.
- ii. The Group's borrowings are measured at amortized cost. The borrowings are periodically contractually repriced and to that extent are also exposed to the risk of future changes in market interest rates.
- iii. If the borrowing interest rate of NTD dollars had increased/decreased by 1% with all other variables held constant, profit, net of tax for the years ended December 31, 2023 and 2022 would have decreased/increased by \$83,200 and \$76,800, respectively. The main factor is that changes in interest expense result from floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. The Group manages its credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with good rating are accepted. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.

- iii. The Group adopts the following assumption under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- iv. The Group adopts the assumption under IFRS 9, that is, the default occurs when the contract payments are past due over 90 days.
- v. The Group classifies customer's accounts receivable and contract assets in accordance with product types and customer types. The Group applies the simplified approach using the provision matrix to estimate expected credit loss.
- vi. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.
- vii. The Group uses the forecastability of National Development Council Business Cycle Indicator to adjust historical and timely information to assess the default possibility of notes receivable, accounts receivable and contract assets. As of December 31, 2023 and 2022, the provision matrix is as follows:

	<u>Not past due</u>	<u>Up to 30 days past due</u>	<u>31~90 days past due</u>	<u>Over 90 days past due</u>	<u>Total</u>
<u>At December 31, 2023</u>					
Expected loss rate	1%	10%	72%	100%	
Total book value	\$ 2,096,891	\$ 32,249	\$ 5,816	\$ 18,559	\$ 2,153,515
Loss allowance	17,370	3,363	4,202	18,559	43,494
	<u>Not past due</u>	<u>Up to 30 days past due</u>	<u>31~90 days past due</u>	<u>Over 90 days past due</u>	<u>Total</u>
<u>At December 31, 2022</u>					
Expected loss rate	1%	13%	47%	100%	
Total book value	\$ 2,723,483	\$ 63,658	\$ 25,276	\$ 15,270	\$ 2,827,687
Loss allowance	28,169	8,461	11,835	15,270	63,735

- viii. Movements in relation to the Group applying the simplified approach to provide loss allowance for notes receivable, accounts receivable and contract assets are as follows:

	<u>2023</u>	
	<u>Notes receivable</u>	<u>Accounts receivable</u>
At January 1	\$ -	(\$ 63,735)
Reversal of impairment loss	-	19,927
Effect of foreign exchange	-	314
At December 31	\$ -	(\$ 43,494)

	2022	
	Notes receivable	Accounts receivable
At January 1	\$ -	(\$ 62,795)
Effect of foreign exchange	-	(940)
At December 31	\$ -	(\$ 63,735)

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance and compliance with internal balance sheet ratio targets.
- ii. Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Group treasury. Group treasury invests surplus cash in interest bearing current accounts, time deposits, commercial paper and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts. As at December 31, 2023 and 2022, the Group held money market position of \$38,850,765 and \$38,634,214, respectively, that are expected to readily generate cash inflows for managing liquidity risk.
- iii. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities.

	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	More than 5 years
Long-term borrowings (including current portion)				
December 31, 2023	\$ 197,767	\$ 10,523,977	\$ -	\$ -
December 31, 2022	470	8,340,829	1,429,000	-
Lease liability				
December 31, 2023	\$ 155,278	\$ 142,596	\$ 358,247	\$ 260,648
December 31, 2022	141,747	123,682	303,895	325,194

- (d) The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value estimation

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks and beneficiary certificates with quoted market prices is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in some unlisted stocks and most derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market is included in Level 3.

B. Financial instruments not measured at fair value

The carrying amounts of cash and cash equivalents, financial assets at amortized cost, notes receivable (including related parties), accounts receivable (including related parties), other receivables, short-term borrowings, short-term bills payable, notes payable (including related parties), accounts payable (including related parties), other payables and long-term borrowings (including current portion) are approximate to their fair values.

C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

(a) The related information on the nature of the assets and liabilities is as follows:

<u>December 31, 2023</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
<u>Recurring fair value</u>				
<u>measurements</u>				
Financial assets at fair value				
through other				
comprehensive income				
Equity securities	<u>\$ 30,868,835</u>	<u>\$ 322,900</u>	<u>\$ 2,671,786</u>	<u>\$ 33,863,521</u>
Liabilities:				
<u>Recurring fair value</u>				
<u>measurements</u>				
Financial liabilities at fair				
value through profit or loss				
Forward exchange contracts	<u>\$ -</u>	<u>\$ 479</u>	<u>\$ -</u>	<u>\$ 479</u>

<u>December 31, 2022</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	<u>\$ 30,618,039</u>	<u>\$ 333,000</u>	<u>\$ 2,409,658</u>	<u>\$ 33,360,697</u>
Liabilities:				
<u>Recurring fair value measurements</u>				
Financial liabilities at fair value through profit or loss				
Forward exchange contracts	<u>\$ -</u>	<u>\$ 2,826</u>	<u>\$ -</u>	<u>\$ 2,826</u>

(b) The methods and assumptions the Group used to measure fair value are as follows:

- i. The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	<u>Listed shares</u>	<u>Open-end fund</u>
Market quoted price	Closing price	Net asset value

- ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques such as current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including applying a model using market information available at the consolidated balance sheet date.
- iii. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.
- iv. The Group takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.

D. For the years ended December 31, 2023 and 2022, there was no transfer between Level 1 and Level 2.

- E. The following chart is the movement of Level 3 for the years ended December 31, 2023 and 2022:

	Year ended December 31, 2023	
	Non-derivative equity instruments	
At January 1	\$	2,409,658
Recorded as unrealized gains on valuation of investments in equity instruments measured at fair value through other comprehensive income		262,128
At December 31	\$	2,671,786
	Year ended December 31, 2022	
	Non-derivative equity instruments	
At January 1	\$	4,880,688
Recorded as unrealized losses on valuation of investments in equity instruments measured at fair value through other comprehensive income	(2,470,528)
Sold during the year	(502)
At December 31	\$	2,409,658

- F. The accounting department is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

The accounting department sets up valuation policies, valuation processes and rules for measuring fair value of financial instruments and ensures compliance with the related requirements in IFRS. The related valuation results are reported to the supervisor of accounting department monthly. The supervisor is responsible for managing and reviewing valuation processes.

- G. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at December 31, 2023	Valuation technique	Significant unobservable input	Relationship of inputs to fair value
Non-derivative equity instrument:				
Unlisted shares	\$ 97,093	Market comparable companies	Price to earnings ratio multiple, price to book ratio multiple, enterprise value to operating income ratio multiple, enterprise value to EBITA multiple, discount for lack of marketability	The higher the multiple and control premium, the higher the fair value; the higher the discount for lack of marketability, the lower the fair value
	2,574,693	Net asset value	Not applicable	Not applicable

	Fair value at December 31, 2022	Valuation technique	Significant unobservable input	Relationship of inputs to fair value
Non-derivative equity instrument:				
Unlisted shares	\$ 90,521	Market comparable companies	Price to earnings ratio multiple, price to book ratio multiple, enterprise value to operating income ratio multiple, enterprise value to EBITA multiple, discount for lack of marketability	The higher the multiple and control premium, the higher the fair value; the higher the discount for lack of marketability, the lower the fair value
	2,319,137	Net asset value	Not applicable	Not applicable

H. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect on other comprehensive income from financial assets and liabilities categorized within Level 3 if the inputs used to valuation models have changed:

		December 31, 2023	
		Recognized in profit or loss	
	Input	Change	
		Favourable change	Unfavourable change
Financial assets			
Equity instrument	Price to earnings ratio multiple, price to book ratio multiple, enterprise value to EBITA multiple, discount for lack of marketability	±1%	
		\$ 971	\$ 971
		December 31, 2022	
		Recognized in profit or loss	
	Input	Change	
		Favourable change	Unfavourable change
Financial assets			
Equity instrument	Price to earnings ratio multiple, price to book ratio multiple, enterprise value to EBITA multiple, discount for lack of marketability	±1%	
		\$ 905	\$ 905

13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

- Loans to others: None.
- Provision of endorsements and guarantees to others: Refer to table 1.
- Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Refer to table 2.
- Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: None.
- Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: Refer to table 3.
- Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: None.
- Trading in derivative instruments undertaken during the reporting periods: Refer to Notes 6(2), 6(13) and 12(2).

J. Significant inter-company transactions during the reporting periods: Refer to table 4.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Refer to table 5.

(3) Information on investments in Mainland China

A. Basic information: Refer to table 6.

B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Refer to table 7.

(4) Major shareholders information

Major shareholders information: Refer to table 8.

14. SEGMENT INFORMATION

(1) General information

A. The Group operates and sets policies from product and service perspective; thus, management also identifies reportable segments using the same method.

B. The Group has three reportable segments: First business group, Second business group consisting of Cord fabric department and Gasoline department. Details are as follows:

(a) First business group: Mainly produces and sells woven, dyeing and finishing products and manages plants of overseas subsidiaries—Formosa Taffeta (Zhong Shan) Co., Ltd., Formosa Taffeta Vietnam Co., Ltd. and Formosa Taffeta (Hong Kong) Co., Ltd., etc.

(b) Cord fabric department: Mainly produces and provides tire cords.

(c) Gasoline department: Mainly operates gasoline stations, sells gasoline and provides car washing.

(2) Measurement of segment information

The measurement based on each operating segment's profit before tax excludes the effects of non-recurring expenditure, i.e. from the unrealized gain or loss on financial instruments. Furthermore, interest income and expense are not allocated to operating segments.

(3) Information about segment profit or loss and assets

	Year ended December 31, 2023					Total
	First business group	Second business group			Adjustment and write-off	
		Cord fabric department	Gasoline department	Other segment		
<u>Segment revenue</u>						
Revenue from external customers	\$ 11,615,166	\$ 3,894,056	\$ 11,256,091	\$ 1,736,196	\$ -	\$ 28,501,509
Inter-segment revenue	582,511	123,656	-	229,081	(935,248)	-
Total segment revenue	<u>\$ 12,197,677</u>	<u>\$ 4,017,712</u>	<u>\$ 11,256,091</u>	<u>\$ 1,965,277</u>	<u>(\$ 935,248)</u>	<u>\$ 28,501,509</u>
Segment income	<u>\$ 629,564</u>	<u>(\$ 372,361)</u>	<u>\$ 322,879</u>	<u>\$ 21,489</u>	<u>(\$ 50,614)</u>	<u>\$ 550,957</u>
<u>Segment assets</u>

Investments accounted for using the equity method						8,964,468
General assets						41,672,748
Total assets						<u>\$ 71,664,782</u>

Year ended December 31, 2022					
	First business group	Second business group			Total
		Cord fabric department	Gasoline department	Other segment	Adjustment and write-off
<u>Segment revenue</u>					
Revenue from external customers	\$ 14,291,652	\$ 6,569,208	\$ 11,681,398	\$ 2,180,397	\$ -
Inter-segment revenue	1,029,934	373,280	-	192,057	(1,595,271)
Total segment revenue	<u>\$ 15,321,586</u>	<u>\$ 6,942,488</u>	<u>\$ 11,681,398</u>	<u>\$ 2,372,454</u>	<u>(\$ 1,595,271)</u>
Segment income	<u>\$ 3,051,168</u>	<u>\$ 307,778</u>	<u>\$ 384,809</u>	<u>\$ 253,562</u>	<u>(\$ 291,103)</u>
<u>Segment assets</u>					
Identifiable assets	<u>\$ 10,889,106</u>	<u>\$ 8,940,298</u>	<u>\$ 1,217,468</u>	<u>\$ 3,322,437</u>	<u>(\$ 340,279)</u>
Investments accounted for using the equity method					9,621,779
General assets					41,759,026
Total assets					<u>\$ 75,409,835</u>

(4) Reconciliation for segment income (loss)

A. Sales between segments are carried out at arm's length. The revenue from external customers reported to the chief operating decision-maker is measured in a manner consistent with that in the statement of comprehensive income.

B. The total consolidated profit after adjustment and reconciliation information for profit after tax of reportable segments are provided in Note 14(3).

(5) Information on product and service

Refer to Note 6(20).

(6) Geographical information

	Year ended December 31, 2023			
	Taiwan	Asia	Adjustment and write-off	Consolidated

(7) Major customer information

None.

FORMOSA TAFFETA CO., LTD. AND SUBSIDIARIES

Provision of endorsements and guarantees to others

For the year ended December 31, 2023

Table 1

Expressed in thousands of NTD
(Except as otherwise indicated)

Number (Note 1)	Endorser/ guarantor	Party being endorsed/guaranteed		Limit on endorsements/ guarantees provided for a single party (Note 3,8)	Maximum outstanding endorsement/ guarantee amount as of December 31, 2023 (Note 4)	Outstanding endorsement/ guarantee amount at December 31, 2023 (Note 5)	Actual amount drawn down (Note 6)	Amount of endorsements/ guarantees secured with collateral	Ratio of accumulated endorsement/ guarantee amount to net asset value of the endorser/ guarantor company	Ceiling on total amount of endorsements/ guarantees provided (Note 3,8)	Provision of endorsements/ guarantees by parent company to subsidiary (Note 7)	Provision of endorsements/ guarantees by subsidiary to parent company (Note 7)	Provision of endorsements/g uarantees to the party in Mainland China (Note 7)	Footnote
		Company name	Relationship with the endorser/ guarantor (Note 2)											
0	FORMOSA TAFFETA CO., LTD.	FORMOSA TAFFETA (ZHONG SHAN) CO., LTD.	2	\$ 35,328,782	\$ 1,070,025	\$ 1,013,265	\$ -	\$ -	1.86	\$ 70,657,564	Y	N	Y	
0	FORMOSA TAFFETA CO., LTD.	FORMOSA TAFFETA VIETNAM CO., LTD.	2	35,328,782	1,615,440	1,320,315	99,540	-	2.43	70,657,564	Y	N	N	
0	FORMOSA TAFFETA CO., LTD.	FORMOSA TAFFETA (CHANGSHU) CO., LTD.	2	35,328,782	1,783,375	1,688,775	97,237	-	3.11	70,657,564	Y	N	Y	
0	FORMOSA TAFFETA CO., LTD.	FORMOSA TAFFETA DONG NAI CO., LTD.	2	35,328,782	4,296,313	4,068,413	1,957,634	-	7.49	70,657,564	Y	N	N	

Note 1: The numbers filled in for the endorsements/guarantees provided by the Company or subsidiaries are as follows:

- (1) The Company is '0'.
- (2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between the endorser/guarantor and the party being endorsed/guaranteed is classified into the following seven categories.

- (1) Having business relationship.
- (2) The endorser/guarantor parent company owns directly and indirectly more than 50% voting shares of the endorsed/guaranteed subsidiary.
- (3) The endorsed/guaranteed company owns directly and indirectly more than 50% voting shares of the endorser/guarantor parent company.
- (4) The endorser/guarantor parent company owns directly and indirectly more than 90% voting shares of the endorsed/guaranteed company.
- (5) Mutual guarantee of the trade made by the endorsed/guaranteed company or joint contractor as required under the construction contract.
- (6) Due to joint venture, all shareholders provide endorsements/guarantees to the endorsed/guaranteed company in proportion to its ownership.
- (7) Joint guarantee of the performance guarantee for pre-sold home sales contract as required under the Consumer Protection Act.

Note 3: Fill in limit on endorsements/guarantees provided for a single party and ceiling on total amount of endorsements/guarantees provided as prescribed in the endorser/guarantor company's "Procedures for Provision of Endorsements and Guarantees", and state each individual party to which the endorsements/guarantees have been provided and the calculation for ceiling on total amount of endorsements/guarantees provided in the footnote.

Note 4: Fill in the year-to-date maximum outstanding balance of endorsements/guarantees provided as of the reporting period.

Note 5: Fill in the amount approved by the Board of Directors or the chairman if the chairman has been authorised by the Board of Directors based on subparagraph 8, Article 12 of the Regulations Governing
Loaning of Funds and Making of Endorsements/Guarantees by Public Companies.

Note 6: Fill in the actual amount of endorsements/guarantees used by the endorsed/guaranteed company.

Note 7: Fill in 'Y' for those cases of provision of endorsements/guarantees by listed parent company to subsidiary and provision by subsidiary to listed parent company, and provision to the party in Mainland China.

Note 8: In accordance with the Company's procedures of endorsements and guarantees, limit on the Company's total guarantee amount is 1.3 times of the Company's net assets, and limit on endorsement/guarantee to a single party is 50%
of the aforementioned total amount.

FORMOSA TAFFETA CO., LTD. AND SUBSIDIARIES

Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures)

For the year ended December 31, 2023

Significant inter-company transactions during the reporting period
For the year ended December 31, 2023

Table 4

Expressed in thousands of NTD
(Except as otherwise indicated)

Number (Note 1)	Company name	Counterparty	Relationship (Note 2)	Transaction		Transaction terms	Percentage of consolidated total operating revenues or total assets (Note 3)
				General ledger account	Amount		
0	FORMOSA TAFFETA CO., LTD.	FORMOSA CHEMICALS & FIBRE CORPORATION	1	Purchases	\$ 857,753	Draw promissory notes due in 2 months after inspection	3.01
0	FORMOSA TAFFETA CO., LTD.	FORMOSA CHEMICALS & FIBRE CORPORATION	1	Notes payable	122,578	Draw promissory notes due in 2 months after inspection	0.17
0	FORMOSA TAFFETA CO., LTD.	FORMOSA CHEMICALS & FIBRE CORPORATION	1	Accounts payable	234,985	Draw promissory notes due in 2 months after inspection	0.33

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

(1) Parent company is '0'.

(2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories:

(1) Parent company to subsidiary.

(2) Subsidiary to parent company.

(3) Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

Note 4: The amount of transactions which is listed in the table is determined by its material.

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Formosa Taffeta Co., Ltd.

Opinion

We have audited the accompanying parent company only balance sheets of Formosa Taffeta Co., Ltd. (the “Company”) as at December 31, 2023 and 2022, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the financial statements, including a summary of material accounting policies. In our opinion, based on our audits and the reports of other independent auditors (refer to the *Other matter* section), the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2023 and 2022, and its financial performance and its cash flows for the years then ended in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers”.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the parent company only financial statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the

Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent company only financial statements of the current period. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Company's parent company only financial statements of the current period are stated as follows:

Valuation of allowance for uncollectible accounts

Description

Refer to Note 4(10) for accounting policy on financial assets impairment, Note 5(1) for accounting estimates and assumption uncertainty in relation to accounts receivable, and Note 6(3) for details of allowance for uncollectible accounts. As of December 31, 2023, the Company's accounts receivable amounted to NT\$1,158,182 thousand, net of allowance for bad debts amounting to NT\$20,927 thousand.

The Company assesses the collectibility of accounts receivable based on historical experience, known reason or existing objective evidence. For those accounts which are considered uncollectible, the Company recognizes impairment with a credit to accounts receivable. The Company examines the reasonableness periodically. As the estimation of allowance for uncollectible accounts is subject to management's judgement, and given the significance of accounts receivable and allowance for uncollectible accounts to the financial statements, we considered the valuation of allowance for uncollectible accounts a key audit matter.

How our audit addressed the matter

Our procedures in relation to management's assessment of the allowance for uncollectible accounts included:

- A. Evaluating the reasonableness of the estimates used by management to estimate the expected credit losses of accounts receivable and obtaining relevant supporting documents, including: forward looking adjustments, accounting disputes, overdue status, post-account collections and indications that show that the customer cannot repay the loan as scheduled;
- B. Assessing the adequacy of allowance for uncollectible accounts estimated by management to confirm whether the provision policy on allowance for uncollectible accounts has been consistently applied in the comparative periods of financial statements and testing the related assessment to confirm the accuracy of ageing analysis of accounts receivable; and

- C. Testing collections after the balance sheet date to check the adequacy of allowance for uncollectible accounts.

Valuation of inventory

Description

Refer to Note 4(12) for accounting policy on inventory valuation, Note 5(2) for accounting estimates and assumption uncertainty in relation to inventory valuation, and Note 6(4) for description of allowance for inventory valuation losses. As of December 31, 2023, the Company's inventory and allowance for market value decline and obsolete and slow-moving inventories amounted to NT\$5,528,308 thousand and NT\$572,261 thousand, respectively.

The Company is primarily engaged in fiber dyeing and finishing, manufacturing and sales of curtains. As the textile manufacturing market is competitive, there is higher risk of incurring loss on inventory valuation. The Company recognizes inventories at the lower of cost and net realizable value, and the net realizable value is calculated based on the average price less estimated selling expenses. Since the calculation of net realizable value involves subjective judgement and uncertainty and the inventory is material to the financial statements, we considered the valuation of inventory a key audit matter.

How our audit addressed the matter

Our procedures in relation to management's assessment of the allowance for inventory valuation losses included:

- A. Assessing the reasonableness of policies and procedures on allowance for inventory

valuation loss, including the reasonableness of classification of inventory in determining the net realizable value;

- B. Understanding the inventory management procedures, examining and participating in annual physical count and assessing the effectiveness of inventory management and inventory classification determined by management; and
- C. Checking the method in calculating the net realizable value of inventory and assessing the reasonableness of allowance for valuation loss.

Other matter - audits of the other independent auditors

We did not audit the financial statements of certain investments accounted for under the equity method. The balance of these investments accounted for under the equity method amounted to NT\$7,920,382 thousand and NT\$8,486,274 thousand, both constituting 12% of total assets as of December 31, 2023 and 2022, respectively, and comprehensive income was (NT\$239,972) thousand and NT\$14,907 thousand, constituting (22%) and (1%) of total comprehensive (loss) income for the years then ended, respectively. The financial statements of these investees were audited by other independent auditors whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included in the financial statements relative to these investees is based solely on the audit reports of the other independent auditors.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error. In preparing the parent company only financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those charged with governance, including members of the Audit Committee, are responsible for overseeing the Company’s financial reporting process.

Auditors’ responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and

are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the

related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Juanlu, Man-Yu

Wu, Han-Chi

For and on Behalf of PricewaterhouseCoopers, Taiwan

March 8, 2024

The accompanying parent company only financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying parent company only financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2023 AND 2022

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

(1) Formosa Taffeta Co., Ltd. (the “Company”) was incorporated on April 19, 1973 under the provisions of the Company Law of the Republic of China (R.O.C.). Factories were established in Douliou City of Yunlin County, R.O.C. On December 24, 1985, the Company’s common stock was officially listed on the Taiwan Stock Exchange. The major operations of the Company’s various departments are as follows:

<u>Business department</u>	<u>Major activities</u>
Primary department: Fabrics & dyeing	Amine fabrics, polyester fabrics, cotton fabrics, blending fabrics and umbrella ribs
Secondary department: Cord fabrics, petroleum	Cord, plastics bags, refineries for gasoline, diesel, crude oil and the related petroleum products, cotton fibers, blending fibers and protection fibers

(2) Formosa Chemicals & Fiber Corp. has significant control over the Company since Formosa Chemicals & Fiber Corp. holds over half of the Board seats after the stockholders’ meeting on June 27, 2008. Since June 27, 2008, Formosa Chemicals & Fiber Corp. became the Company’s parent company and accordingly, the Company and its subsidiaries are included in its consolidated financial statements.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE PARENT COMPANY ONLY FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These parent company only financial statements were authorized for issuance by the Board of Directors on March 8 , 2024.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS[®]”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2023 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 1, ‘Disclosure of accounting policies’	January 1, 2023
Amendments to IAS 8, ‘Definition of accounting estimates’	January 1, 2023
Amendments to IAS 12, ‘Deferred tax related to assets and liabilities arising from a single transaction’	January 1, 2023
Amendments to IAS 12, ‘International tax reform - pillar two model rules’	May 23, 2023

The above standards and interpretations have no significant impact to the Company’s financial condition and financial performance based on the Company’s assessment.

(2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 16, ‘Lease liability in a sale and leaseback’	January 1, 2024
Amendments to IAS 1, ‘Classification of liabilities as current or non-current’	January 1, 2024
Amendments to IAS 1, ‘Non-current liabilities with covenants’	January 1, 2024
Amendments to IAS 7 and IFRS 7, ‘Supplier finance arrangements’	January 1, 2024

The above standards and interpretations have no significant impact to the Company’s financial condition and financial performance based on the Company’s assessment.

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 10 and IAS 28, ‘Sale or contribution of assets between an investor and its associate or joint venture’	To be determined by International Accounting Standards Board
IFRS 17, ‘Insurance contracts’	January 1, 2023
Amendments to IFRS 17, ‘Insurance contracts’	January 1, 2023
Amendment to IFRS 17, ‘Initial application of IFRS 17 and IFRS 9 – comparative information’	January 1, 2023
Amendments to IAS 21, ‘Lack of exchangeability’	January 1, 2025

The above standards and interpretations have no significant impact to the Company’s financial condition and financial performance based on the Company’s assessment.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The parent company only financial statements have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers”, International Financial Reporting Standards, International Accounting Standards, IFRIC® Interpretations, and SIC® Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”).

(2) Reasons and impacts for reclassification of certain financial statements accounts

A. Nature and reasons for reclassification:

The Company originally applied the “The Management, Utilization, and Taxation of Repatriated Offshore Funds Act” on December 31, 2022 and January 1, 2022. The funds repatriated under the regulations were deposited in a special account in the amount of USD 8,426 thousand (equivalent to \$261,259) and USD 8,426 thousand (equivalent to \$233,331), as its usage is restricted by regulations and does not comply with IAS 7, “Statement of Cash Flows” definition of cash and cash equivalents, therefore it was classified as other financial assets. However, based on the amended IFRSs Q&A by the competent authority on January 5, 2024, the regulations’ restrictions on the use of the aforementioned funds do not change the nature of the deposit, therefore the deposit should still be reported as cash and cash equivalent. In accordance with the above regulations, the Company reclassified the unused amount of deposit to cash and cash equivalent.

B. Amounts reclassified for each item or category of items

PARENT COMPANY ONLY BALANCE SHEETS

December 31, 2022

Affected accounts	As reported	Reclassification adjustment	As amended
Cash and cash equivalents	\$ 3,874,339	\$ 261,259	\$ 4,135,598
Other non-current assets	356,228	(261,259)	94,969

January 1, 2022

Affected accounts	As reported	Reclassification adjustment	As amended
Cash and cash equivalents	\$ 2,383,268	\$ 233,331	\$ 2,616,599
Other non-current assets	323,170	(233,331)	89,839

PARENT COMPANY ONLY STATEMENTS OF CASH FLOWS

2022

Affected accounts	As reported	Reclassification adjustment	As amended
Increase in non-current assets	(\$ 33,059)	\$ 27,928	(\$ 5,131)
Net increase in cash and cash equivalents	1,491,071	27,928	1,518,999
Cash and cash equivalents at beginning of year	2,383,268	233,331	2,616,599
Cash and cash equivalents at end of year	3,874,339	261,259	4,135,598

(3) Basis of preparation

A. Except for the following items, these parent company only financial statements have been prepared under the historical cost convention:

- Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
- Financial assets at fair value through other comprehensive income.
- Defined benefit liabilities recognized based on the net amount of pension fund assets and unrecognized actuarial losses, and less unrecognized actuarial gains and present value of defined benefit obligation.

B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC[®] Interpretations, and SIC[®] Interpretations as endorsed by the FSC (collectively referred herein as the “IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.

(4) Foreign currency translation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (the “functional currency”). These parent company only financial statements are presented in New Taiwan Dollars, which is the Company’s functional and presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions. All foreign exchange gains and losses are presented in the statement of comprehensive income within ‘other gains and losses.

B. Translation of foreign operations

The operating results and financial position of all the company entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognized in other comprehensive income.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
- (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realized within twelve months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
- (a) Liabilities that are expected to be paid off within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be paid off within twelve months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using settlement date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. Non-hedging derivatives are initially recognized at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognized in profit or loss.

E. The Company recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income.

B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.

C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:

The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(9) Accounts and notes receivable

A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.

B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(10) Impairment of financial assets

For financial assets at amortized cost including accounts receivable or contract assets that have a significant financing component, at each reporting date, the Company recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognizes the impairment provision for lifetime ECLs.

(11) Derecognition of financial assets

The Company derecognizes a financial asset when one of the following conditions is met:

A. The contractual rights to receive the cash flows from the financial asset expire.

B. The contractual rights to receive cash flows of the financial asset have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial asset.

C. The contractual rights to receive cash flows of the financial asset have been transferred, and the Company has not retained control of the financial asset.

(12) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated cost necessary to make the sale.

(13) Investments accounted for using equity method / subsidiaries and associates

- A. Subsidiaries refer to the entities (including special purpose entities) that the Company has control over their financial and operating policies and own more than 50% of voting shares directly or indirectly. The Company evaluates investments in subsidiaries accounted under the equity method in these parent company only financial statements.
- B. Unrealized profit (loss) from the transactions between the Company and subsidiaries have been offset. The accounting policies of the subsidiaries have been adjusted to ensure consistency with the policies of the Company.
- C. The Company's share of its subsidiaries' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income.
- D. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20% or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- E. The Company's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in an associate equals or exceeds its interest in the associate (including any other unsecured receivables), the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- F. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Company's ownership percentage of the associate, the Company recognizes the Company's share of change in equity of the associate in 'capital surplus' in proportion to its ownership.
- G. Unrealized gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Company.

- H. In the case that an associate issues new shares and the Company does not subscribe or acquire new shares proportionately, which results in a change in the Company's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for under the equity method' shall be adjusted for the increase or decrease of its share of equity interest.
- I. When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss.
- J. Pursuant to the "Regulations Governing the Preparation of Financial Reports by Securities Issuers," profit (loss) of the current period and other comprehensive income in the parent company only financial statements shall equal to the amount attributable to owners of the parent in the consolidated financial statements. Owners' equity in the parent company only financial statements shall equal to equity attributable to owners of the parent in the consolidated financial statements.

(14) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change.

The estimated useful lives of property, plant and equipment are as follows:

<u>Item</u>	<u>Estimated useful lives</u>
Buildings and structures	10 ~ 60 years
Machinery and equipment	5 ~ 20 years
Transportation equipment	5 ~ 10 years
Other equipment	2 ~ 15 years

(15) Leasing arrangements (lessee) — right-of-use assets/lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Leases liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the fixed payments, less any lease incentives receivable. The Company subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
- C. At the commencement date, the right-of-use asset is stated at cost comprising the amount of the initial measurement of lease liability. The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

(16) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 30 years.

(17) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognized.

(18) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(19) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(20) Financial liabilities at fair value through profit or loss

- A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorized as financial liabilities held for trading unless they are designated as hedges.
- B. At initial recognition, the Company measures the financial liabilities at fair value. All related transaction costs are recognized in profit or loss. The Company subsequently measures these financial liabilities at fair value with any gain or loss recognized in profit or loss.

(21) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(22) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(23) Financial guarantee contracts

A financial guarantee contract is a contract that requires the Company to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. At initial recognition, the Company measures financial guarantee contracts at fair value and subsequently at the higher of the amount of provisions determined by the expected credit losses and the cumulative gains that were previously recognized.

(24) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

B. Pensions

(a) Defined contribution plan

For defined contribution plan, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plan

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plan is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized past service costs. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) instead.
- ii. Remeasurements arising on defined benefit plan are recognized in other comprehensive income in the period in which they arise and recorded as retained earnings.
- iii. Past service costs are recognized immediately in profit or loss.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Company calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(25) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred

income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

- D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognized for the carry forward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

(26) Share capital

Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

(27) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities.

(28) Revenue recognition

- A. The Company manufactures and sells various fabrics and renders services as an oil distributor. Sales are recognized when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective

evidence that all criteria for acceptance have been satisfied.

B. Revenue is measured at the fair value of the consideration received or receivable taking into account business tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Company's activities.

C. A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

D. Incremental costs of obtaining a contract

Given that the contractual period lasts less than one year, the Group recognises the incremental costs of obtaining a contract as an expense when incurred although the Group expects to recover those costs.

(29) Government grants

Government grants are recognized at their fair value only when there is reasonable assurance that the Company's will comply with any conditions attached to the grants and the grants will be received. Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company's recognizes expenses for the related costs for which the grants are intended to compensate.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Impairment valuation of accounts receivable

In evaluating impairment, the Company determines future recoverability of accounts receivable based on subjective judgement and estimates, taking into consideration the customer's financial condition, internal credit rating, and historical transaction records. If the forecastability has increased, the impairment of accounts receivable may be significant.

(2) Evaluation of inventories

As inventories are stated at the lower of cost and net realizable value, the Company must determine the net realizable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Company evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realizable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore,

there might be material changes to the evaluation.

As of December 31, 2023, the carrying amount of inventories was \$4,956,047.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Cash on hand and petty cash	\$ 101,822	\$ 98,453
Checking accounts and demand deposits	985,170	1,121,801
Time deposits	1,596,660	2,487,510
Cash equivalents - Commercial paper	468,296	427,834
	<u>\$ 3,151,948</u>	<u>\$ 4,135,598</u>

	<u>January 1, 2022</u>
Cash on hand and petty cash	\$ 91,377
Checking accounts and demand deposits	903,896
Time deposits	1,475,344
Cash equivalents - Commercial paper	145,982
	<u>\$ 2,616,599</u>

- A. The Company associates with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. The Company repatriates the offshore fund by adopting “The Management, Utilization, and Taxation of Repatriated Offshore Funds Act”, and the amount was USD 8,426 thousand, of which USD 3,004 thousand has been spent in 2023. The amount as at December 31, 2023 is USD 5,422 thousand and equivalent to \$166,494. Although the Act restricts the usage of the fund, based on the amended IFRSs Q&A by the competent authority on January 5, 2024, the Act’s restrictions on the usage of the fund does not change the nature of the deposit, therefore the deposit should still be reported as cash and cash equivalent. In addition, the Company has reclassified the amount as at December 31, 2022 and January 1, 2022. Refer to Section 4 (2) for detailed explanation.
- C. The Company has no cash and cash equivalents pledged to others.

(2) Financial assets at fair value through other comprehensive income

Items	December 31, 2023	December 31, 2022
Current items:		
Equity instruments		
Listed stocks	\$ 900,285	\$ 900,285
Unlisted stocks	100,000	100,000
	<u>1,000,285</u>	<u>1,000,285</u>
Valuation adjustment	112,898	224,964
	<u>\$ 1,113,183</u>	<u>\$ 1,225,249</u>
Non-current items:		
Equity instruments		
Listed stocks	\$ 8,163,125	\$ 8,163,125
Unlisted stocks	6,647,666	6,647,666
	<u>14,810,791</u>	<u>14,810,791</u>
Valuation adjustment	17,939,547	17,324,657
	<u>\$ 32,750,338</u>	<u>\$ 32,135,448</u>

- A. The Company has elected to classify equity investments that are considered to be steady dividend income as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$33,863,521 and \$33,360,697 as at December 31, 2023 and 2022, respectively.
- B. Amounts recognized in profit or loss and other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

	Years ended December 31,	
	2023	2022
<u>Equity instruments at fair value through other comprehensive income</u>		
Fair value change recognized in other comprehensive income (loss)	\$ 502,824	(\$ 8,640,330)
Cumulative gains reclassified to retained earnings due to derecognition	\$ -	(\$ 502)

- C. As at December 31, 2023 and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at fair value through other comprehensive income held by the Company were \$33,863,521 and \$33,360,697, respectively.
- D. Information relating to credit risk of financial assets at fair value through other comprehensive income is provided in Note 12(2).

(3) Notes and accounts receivable

	December 31, 2023	December 31, 2022
Notes receivable	\$ 57,123	\$ 72,548
Accounts receivable	\$ 1,179,109	\$ 1,679,408
Less: Allowance for uncollectible accounts	(20,927)	(31,678)
	<u>\$ 1,158,182</u>	<u>\$ 1,647,730</u>

A. The ageing analysis of notes and accounts receivable is as follows:

	December 31, 2023	December 31, 2022
Not past due	\$ 1,216,155	\$ 1,692,882
Up to 30 days	6,288	37,151
31 to 90 days	4,201	18,376
Over 90 days	9,588	3,547
	<u>\$ 1,236,232</u>	<u>\$ 1,751,956</u>

The above ageing analysis was based on past due date.

B. As of December 31, 2023 and 2022, accounts receivable and notes receivable were all from contracts with customers. As of January 1, 2022, the balance of receivables from contracts with customers amounted to \$2,159,284.

C. As at December 31, 2023 and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Company's notes receivable were \$57,123 and \$72,548, and accounts receivable were \$1,158,182 and \$1,647,730, respectively.

D. Information relating to credit risk of accounts receivable and notes receivable is provided in Note 12(2).

(4) Inventories

	December 31, 2023		
	Cost	Allowance for valuation loss	Book value
Raw materials	\$ 459,662	(\$ 19,650)	\$ 440,012
Supplies	176,510	(602)	175,908
Work in process	2,175,203	-	2,175,203
Finished goods	2,213,581	(552,009)	1,661,572
Merchandise inventory	251,076	-	251,076
Materials in transit	150,086	-	150,086
Outsourced processed materials	102,190	-	102,190
	<u>\$ 5,528,308</u>	<u>(\$ 572,261)</u>	<u>\$ 4,956,047</u>

December 31, 2022			
	Cost	Allowance for valuation loss	Book value
Raw materials	\$ 506,398	(\$ 23,937)	\$ 482,461
Supplies	159,719	(795)	158,924
Work in process	2,342,834	-	2,342,834
Finished goods	2,608,292	(512,601)	2,095,691
Merchandise inventory	265,412	-	265,412
Materials in transit	298,744	-	298,744
Outsourced processed materials	122,600	-	122,600
	<u>\$ 6,303,999</u>	<u>(\$ 537,333)</u>	<u>\$ 5,766,666</u>

The cost of inventories recognized as expense for the years ended December 31, 2023 and 2022 were as follows:

	Years ended December 31,	
	2023	2022
Cost of inventories sold	\$ 19,725,733	\$ 23,002,757
Service cost	195,116	192,023
Idle capacity	238,349	103,072
Loss on inventory valuation	34,928	87,075
Others (Note)	15,712	39,994
	<u>\$ 20,209,838</u>	<u>\$ 23,424,921</u>

Note: Others consist of inventory overage/shortage, disposal of scrap and defective materials.

(5) Investments accounted for using equity method

A. List of long-term investments

	December 31, 2023	December 31, 2022
Formosa Advanced Technologies Co., Ltd.	\$ 4,983,531	\$ 5,260,936
Formosa Taffeta (Hong Kong) Co., Ltd.	3,506,150	3,399,039
Formosa Taffeta Dong Nai Co., Ltd.	2,673,298	2,908,996
Formosa Taffeta Vietnam Co., Ltd.	2,318,906	2,332,278
Formosa Industry Co., Ltd.	1,338,654	1,626,376
Quang Viet Enterprise Co., Ltd.	1,412,835	1,427,806
Schoeller Textil AG	1,033,980	1,096,100
Formosa Development Co., Ltd.	186,420	188,540
Nan Ya Photonics Inc.	176,689	190,818
	<u>\$ 17,630,463</u>	<u>\$ 18,430,889</u>

B. The investment (loss) income on subsidiaries and associates accounted for using equity method for the years ended December 31, 2023 and 2022 was as follows:

	Years ended December 31,	
	2023	2022
Formosa Advanced Technologies Co., Ltd.	\$ 162,670	\$ 630,622
Formosa Taffeta (Hong Kong) Co., Ltd.	161,901	211,940
Formosa Taffeta Dong Nai Co., Ltd.	(166,985)	(11,187)
Formosa Taffeta Vietnam Co., Ltd.	46,382	87,853
Quang Viet Enterprise Co., Ltd.	129,188	211,005
Formosa Industry Co., Ltd.	(256,602)	(194,158)
Schoeller Textil AG	(182,248)	(39,690)
Nan Ya Photonics Inc.	15,312	22,064
Formosa Development Co., Ltd.	<u>5,369</u>	<u>5,983</u>
	<u>(\$ 85,013)</u>	<u>\$ 924,432</u>

C. The share of (loss) income of subsidiaries and associates accounted for using the equity method of (\$232,705) and \$115,577 for the years ended December 31, 2023 and 2022, respectively, were based on the audited financial statements of the investee companies.

D. Subsidiaries

- (a) Information on the Company's subsidiaries is provided in Note 4(3) of the Company's 2023 consolidated financial statements.
- (b) As at December 31, 2023 and 2022, the Company's common stocks owned by its subsidiary, Formosa Development Co., Ltd., was 2,193,228 shares, treated as treasury stock.

E. Associates

(a) The financial information of the Company's principal associates is summarized below:

Company name	Principal place of business	Shareholding ratio		Nature of relationship	Method of measurement
		December 31, 2023	December 31, 2022		
Formosa Advanced Technologies Co., Ltd.	Taiwan	30.68%	30.68%	Associate	Equity method
Formosa Industry Co., Ltd.	Vietnam	10.00%	10.00%	Associate	Equity method

(b) The Company is the director of Formosa Industry Co., Ltd., Nan Ya Photonics Inc. and Quang Viet Enterprise Co., Ltd. and has significant influence over its operations, thus, Formosa Industry Co., Ltd., Nan Ya Photonics Inc. and Quang Viet Enterprise Co., Ltd. are accounted for using the equity method.

(c) Owing to the capital increase of Schoeller Textil AG, the Board of Directors during its meeting on October 17, 2019 resolved to invest in Schoeller Textil AG in the amount of CHF 39,580 thousand (equivalent to \$1,285,507 thousand) for an equity interest of 50%. The Company obtained 50% equity interest in Schoeller Textil AG after the capital increase on March 18, 2020. As significant matters concerning Schoeller Textil AG requires consensus from the majority of the Board of Directors, the investment was accounted for using the equity method.

(d) The summarized financial information of the associates that are material to the Company is shown below:

Balance sheets

	Formosa Advanced Technologies Co., Ltd.	
	December 31, 2023	December 31, 2022

Note: Transfer to Investment Property.

- A. Borrowing costs capitalized as part of property, plant and equipment and the range of the interest rates for such capitalization are as follows:

	Years ended December 31,	
	2023	2022
Amount capitalized	\$ 5,385	\$ 2,837
Range of the interest rates for capitalization	1.75%~1.91%	0.77%~1.64%

- B. The components and useful lives of property, plant and equipment are as follows:

Items	Significant components	Estimated useful lives
Buildings	Factory and gasoline stations	10 ~ 60 years
Machinery and equipment	Impregnating machine, dyeing machine and other machinery equipment	5 ~ 20 years
Transportation equipment	Pallet trucks and fork lift trucks	5 ~ 10 years
Other equipment	Cogeneration power generation equipment	2~ 15 years

- C. Certain regulations restrict ownership of land to individuals. Accordingly, the title of land which the Company has acquired for future plant expansion is under the name of third parties. Such land titles were transferred and mortgaged to the Company. As of December 31, 2023 and 2022, the land mortgaged to the Company amounted to \$808,300.

(7) Leasing arrangements — lessee

- A. The Company leases various assets including land and buildings. Rental contracts are typically made for periods of 3 to 25 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

- B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	December 31, 2023	December 31, 2022
	Carrying amount	Carrying amount
Right-of-use asset - houses and buildings	\$ 736,824	\$ 826,970
Right-of-use asset - land	112,193	-
	<u>\$ 849,017</u>	<u>\$ 826,970</u>
	Year ended	Year ended
	December 31, 2023	December 31, 2022
	Depreciation charge	Depreciation charge
Right-of-use asset - houses and buildings	\$ 148,930	\$ 146,323
Right-of-use asset - land	3,869	-
	<u>\$ 151,799</u>	<u>\$ 146,323</u>

- C. For the years ended December 31, 2023 and 2022, the additions to right-of-use assets were \$185,218 and \$234,065, respectively.

D. The information on income and expense accounts relating to lease contracts is as follows:

	Year ended December 31, 2023	Year ended December 31, 2022
<u>Items affecting profit or loss</u>		
Interest expense on lease liabilities	\$ 8,665	\$ 8,640
Expense on short-term lease contracts	1,691	3,287

E. For the years ended December 31, 2023 and 2022, the Company's total cash outflow for leases was \$160,449 and \$152,733, respectively.

(8) Short-term borrowings

As at December 31, 2023: None.

Type of borrowings	December 31, 2022	Interest rate	Collateral
Bank borrowings			
Purchase loans	\$ 14,035	3.35%	-

(9) Short-term notes and bills payable

As at December 31, 2023: None.

Type of borrowings	December 31, 2022
Short-term notes and bills payable	\$ 1,300,000
Less: Discount on short-term notes and bills payable	(773)
	\$ 1,299,227
Interest rate	1.49%~1.51%

The abovementioned commercial paper payable is issued by Taishin International Bank, Ta Ching Bills Finance Corporation, International Bills Finance Corporation and Mega Bills Finance Co., Ltd., etc.

(10) Financial liabilities at fair value through profit or loss - current

Items	December 31, 2023	December 31, 2022
Financial liabilities held for trading		
Forward foreign exchange contracts	\$ 479	\$ 2,826

A. For the years ended December 31, 2023 and 2022, the Company recognized \$2,347 and \$2,826 in profit or loss in relation to financial liabilities held for trading, respectively.

- B. Explanations of the transactions and contract information in respect of derivative financial liabilities that the Company does not adopt hedge accounting are as follows:

Derivative Financial Liabilities	December 31, 2023	
	Contract Amount (Notional Principal)	Contract Period
Current items:		
Forward foreign exchange contracts		
Taipei Fubon Bank	JPY 94,010	2023.12~2024.01

Derivative Financial Liabilities	December 31, 2022	
	Contract Amount (Notional Principal in thousands)	Contract Period
Current items:		
Forward foreign exchange contracts		
Taipei Fubon Bank	JPY 40,660	2022.10~2023.01
Taipei Fubon Bank	JPY 40,000	2022.10~2023.01
Taipei Fubon Bank	JPY 15,170	2022.11~2023.01
Taipei Fubon Bank	JPY 68,830	2022.11~2023.02

The Company entered into forward foreign exchange contracts to hedge exchange rate risk of assets and liabilities denominated in foreign currencies. However, these forward foreign exchange contracts do not meet all conditions of hedge accounting and are not accounted for under hedge accounting.

(11) Long-term borrowings

	December 31, 2023	December 31, 2022
Credit borrowings	\$ 10,400,000	\$ 9,600,000
Interest rate	1.84%~1.97%	1.36%~2.10%

(12) Pensions

- A.(a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is not enough to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contribution for the deficit by next March.

(b) The amounts recognized in the balance sheet are determined as follows:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Present value of defined benefit obligations	\$ 1,384,102	\$ 1,774,598
Fair value of plan assets	(1,393,922)	(1,470,618)
Net defined benefit liability	<u>(\$ 9,820)</u>	<u>\$ 303,980</u>

(c) Movements in net defined benefit liabilities are as follows:

	<u>Present value of defined benefit obligations</u>	<u>Fair value of plan assets</u>	<u>Net defined benefit liability</u>
<u>Year ended December 31, 2023</u>			
Balance at January 1	\$ 1,774,598	(\$ 1,470,618)	\$ 303,980
Current service cost	6,362	-	6,362
Interest expense (income)	<u>22,182</u>	<u>(18,679)</u>	<u>3,503</u>
	1,803,142	(1,489,297)	313,845
Remeasurements:			
Return on plan assets (excluding amounts included in interest income or expense)	-	(13,381)	(13,381)

Transfer to related party	<u>(1,733)</u>	<u>-</u>	<u>(1,733)</u>
Balance at December 31	<u>\$ 1,774,598</u>	<u>(\$ 1,470,618)</u>	<u>\$ 303,980</u>

- (d) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earning is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.
- (e) The principal actuarial assumptions used were as follows:

	Years ended December 31,	
	2023	2022
Discount rate	1.25%	1.25%
Future salary increases	2.85%	2.85%

Assumptions regarding future mortality experience are set based on the Taiwan Standard Ordinary Experience Mortality Table for the years ended December 31, 2023 and 2022.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase	Decrease	Increase	Decrease
	0.25%	0.25%	1.00%	1.00%
<u>December 31, 2023</u>				
Effect on present value of defined benefit obligation	(\$ 8,236)	\$ 8,443	\$ 36,431	(\$ 33,749)
<u>December 31, 2022</u>				
Effect on present value of defined benefit obligation	(\$ 13,248)	\$ 13,628	\$ 56,907	(\$ 51,965)

The sensitivity analysis above was arrived at based on one assumption which changed while the other conditions remain unchanged. In practice more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

- (f) For the aforementioned pension plan, the Company recognized pension costs of \$9,865 and \$10,528 for the years ended December 31, 2023 and 2022, respectively.
- (g) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2024 amount to \$42,317.
- (h) As of December 31, 2023, the weighted average duration of that retirement plan is 4.6 years.
- B. (a) Effective July 1, 2005, the Company has established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) The pension costs under the defined contribution pension plan of the Company for the years ended December 31, 2023 and 2022 were \$80,673 and \$84,673, respectively.

(13) Share capital

- A. As of December 31, 2023, the Company’s authorized and issued capital was \$16,846,646, consisting of 1,684,665,000 shares of common stocks, with a par value of \$10 per share.
- B. For the years ended December 31, 2023 and 2022, changes in treasury stocks are as follows (in thousands of shares):

<u>Reason for reacquisition</u>	<u>Investee company</u>	<u>2023</u>			
		<u>Beginning Shares</u>	<u>Additions</u>	<u>Disposal</u>	<u>Ending Shares</u>
Long-term equity investment transferred to treasury stock for parent company’s shares held by subsidiaries	Formosa Development Co., Ltd.	<u>2,193</u>	<u>-</u>	<u>-</u>	<u>2,193</u>
<u>Reason for reacquisition</u>	<u>Investee company</u>	<u>2022</u>			
		<u>Beginning Shares</u>	<u>Additions</u>	<u>Disposal</u>	<u>Ending Shares</u>
Long-term equity investment transferred to treasury stock for parent company’s shares held by subsidiaries	Formosa Development Co., Ltd.	<u>2,193</u>	<u>-</u>	<u>-</u>	<u>2,193</u>

- C. The abovementioned treasury stocks were acquired by the subsidiary, Formosa Development Co., Ltd., for investment purposes.

(14) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(15) Retained earnings

A. According to the R.O.C. Securities Exchange Law No. 41, a company should reserve the amount equal to any valuation or contra-account in the stockholders' equity in the fiscal year from the net income and prior unappropriated earnings as special reserve. According to the article of the Company, when allocating the earnings, the Company shall first estimate and reserve the taxes to be paid, offset its losses, set aside a legal capital reserve at 10% of the remaining earnings, then set aside a special capital reserve in accordance with relevant laws or regulations or as requested by the Board of Directors. For the distribution of cash dividends which was authorised to the Board of Directors would be adopted by a majority vote at a meeting of the Board of Directors attended by two-thirds of the total number of directors, and then reported to the shareholders for resolution. The special reserve includes:

- i. Reserve for special purposes,
- ii. Investment income recognized under the equity method,
- iii. Net proceeds from the recognition of financial asset transactions; only when the accumulated value decreases should the special reserve be adjusted by the same amount, subject to the provisions in this section; and
- iv. Other special reserves set out by legal provisions.

B. The Company's dividend policy is summarized below:

As the Company operates in a volatile business environment and is in the stable growth stage, the dividend policy includes cash dividends, stock dividends and capital increase by earnings recapitalization. At least 50% of the Company's distributable earnings shall be appropriated as dividends after deducting the legal reserve and special reserves. The Company would prefer distributing cash dividends. However, if significant investment measures are taken or the Company's financial structure needs to be improved, part of the dividends would be in the form of stock dividends but not to exceed 50% of the total dividends.

C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

D. The appropriations of 2022 and 2021 earnings had been resolved at the stockholders' meeting on June 16, 2023 and June 24, 2022, respectively. Details are summarized below:

	2022		2021	
	Amount	Dividends per share (in dollars)	Amount	Dividends per share (in dollars)
Legal reserve	\$ 344,497		\$ 201,758	
Cash dividends	2,526,997	\$ 1.50	1,684,665	\$ 1.00

E. As of December 31, 2023 and 2022, unpaid stock dividends amounted to \$109,034 and \$51,942, respectively.

F. The appropriations of 2023 earnings had been resolved by the Board of Directors on March 8, 2024. Details are summarized below:

	2023	
	Amount	Dividends per share (in dollars)
Legal reserve	\$ 71,947	
Cash dividends	438,013	\$ 0.26

As of March 8, 2024, the above appropriations of 2023 earnings have not yet been resolved by the shareholders.

G. For information relating to employees' compensation and directors' and supervisors' remuneration, refer to Note 6(22).

- A. In accordance with the Company's Articles of Incorporation, a ratio of distributable profit of the current year after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall be between 0.05%-0.5% for employees' compensation and shall not be higher than 0.5% for directors' and supervisors' remuneration.
- B. For the years ended December 31, 2023 and 2022, employees' compensation was accrued at \$976 and \$7,308, respectively; while directors' and supervisors' remuneration was accrued at \$488 and \$3,654, respectively. The aforementioned amount was recognized in salary expenses. The employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on the Company's Articles of Incorporation of profit of current year distributable for the year ended December 31, 2023. The employees' compensation and directors' and supervisors' remuneration resolved by the Board of Directors totalled to \$976 and \$488, respectively, and the employees' compensation will be distributed in the form of cash. The employees' compensation and directors' and supervisors' remuneration for 2022 as approved by shareholders were the same as the amounts shown in the 2022 financial statements. For the year ended December 31, 2022, employees' compensation was \$7,308 and distributed in cash. Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(23) Finance costs

	<u>(\$ 277,544)</u>	<u>\$ 54,424</u>	<u>\$ -</u>	<u>(\$ 223,120)</u>

D. The Company's income tax returns through 2021 have been assessed and approved by the Tax Authority.

(25) Earnings per share

A. Basic earnings per share

The calculation of basic earnings per share is profit or loss attributable to the common stockholders of the Company divided by the weighted average amount of outstanding common stocks for the year.

Year ended December 31, 2023					
		Weighted-average			
		outstanding	Earnings per share		
Amount		common shares	(in dollars)		
		(in thousands)	Before tax	After tax	
Net income	<u>\$ 486,507</u>	<u>\$ 444,554</u>	<u>1,682,471</u>	<u>\$ 0.29</u>	<u>\$ 0.26</u>
Year ended December 31, 2022					
		Weighted-average			
		outstanding	Earnings per share		
Amount		common shares	(in dollars)		
		(in thousands)	Before tax	After tax	
Net income	<u>\$ 3,643,302</u>	<u>\$ 3,404,981</u>	<u>1,682,471</u>	<u>\$ 2.17</u>	<u>\$ 2.02</u>

The following is the earnings per share assuming the shares of the Company held by its subsidiary, Formosa Development Co., Ltd., are not deemed as treasury shares:

Year ended December 31, 2023					
		Outstanding	Earnings per share		
Amount		common shares	(in dollars)		
		(in thousands)	Before tax	After tax	
Net income	\$ 486,507	\$ 444,554	1,684,665	\$ 0.29	\$ 0.26
Year ended December 31, 2022					
		Outstanding	Earnings per share		
Amount		common shares	(in dollars)		
		(in thousands)	Before tax	After tax	
Net income	\$ 3,643,302	\$ 3,404,981	1,684,665	\$ 2.16	\$ 2.02

- C. Employees' compensation could be distributed in the form of stock. It does not have significant effect on the financial statements and earnings per share for the years ended December 31, 2023 and 2022.

(26) Supplemental cash flow information

Investing activities with partial cash payments:

	Years ended December 31,	
	2023	2022
Purchase of property, plant and equipment	\$ 449,496	\$ 456,185
Add: Opening balance of payable on equipment	78,552	47,225
Less: Ending balance of payable on equipment	(41,153)	(78,552)
Cash paid during the year	<u>\$ 486,895</u>	<u>\$ 424,858</u>

(27) Changes in liabilities from financing activities

	<u>\$ 15,332</u>	<u>\$ 447,800</u>	<u>\$ 463,132</u>

Note: Represents transfer from property, plant and equipment.

The fair value of the investment property held by the Company was based on the selling price of similar property in neighbouring areas. As of December 31, 2023 and 2022, the fair value was \$1,383,415 and \$1,144,206, respectively.

(d) Other income

Other income pertains to the Company's collections and payment transfer of utilities, steam and waste disposal costs, etc. for Formosa Advanced Technologies Co., Ltd. for the years ended December 31, 2023 and 2022 amounting to \$21,020 and \$21,350, respectively.

- (e) In 2023, Formosa Advanced Technologies Co., Ltd. has planned to expand its plant capacity and entrusted the Group to coordinate the procurement and supervision of the construction. Under the agreement, Formosa Advanced Technologies Co., Ltd. paid half of the contract price after signing the contract, and the remaining balance of the contract price shall be paid after the construction is completed. As of December 31, 2023, the amount of \$26,821 was recognized under 'Other current liabilities'.

(f) Other receivables

9. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED CONTRACT COMMITMENTS

(1) As of December 31, 2023, the significant commitments and contingent liabilities pertain to outstanding letters of credit for materials and equipment purchases with various companies listed as follows:

Currency	Amount
USD	\$ 674
JPY	1,488
EUR	514

(2) Contingencies-Lawsuit

- A. Taiwan Cooperative Bank Co., Ltd. (hereinafter referred to as TCB) filed a civil lawsuit against the Company with the Taipei District Court in September 2019. TCB claimed that the former employees of the Company colluded with New Site Industries Inc. (hereinafter referred to as New Site) and New Brite Industries Inc. (hereinafter referred to as New Brite) to make false statements. TCB was misled with the fact that New Site and New Brite has accounts receivable due from the Company, causing damage to TCB. Therefore, TCB claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated April 20, 2023, the Taipei District Court has ordered that the Company is jointly liable to compensate TCB in the amount of \$290,657 plus any requested interest. However, it should be noted that the first instance ruling did not fully consider several vital defenses raised by the Company and the case remains appealable. As such, the ultimate outcome of the appeal and amount of the lawsuit cannot presently be determined. The Company has received a judgement on April 27, 2023. Consequently, the Company plans to file an appeal within the legal timeframe and engage lawyers to submit a strong defense to protect the Company's rights and interests.
- B. DBS (Taiwan) Commercial Bank Co., Ltd. (hereinafter referred to as DBS) filed a civil lawsuit against the Company and Formosa Taffeta Dong Nai (hereinafter referred to as the Formosa Dong Nai), a subsidiary of the Company with the Taipei District Court in September 2019. The former employees of the Company and Formosa Dong Nai colluded with New Site Industries Inc. (hereinafter referred to as New Site) to make the false statements. DBS was misled with the fact that New Site has accounts receivable due from the Company and Formosa Dong Nai, causing

damage to DBS. Therefore, DBS claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated December 30, 2022, the Taipei District Court has rejected the claims filed by DBS. Consequently, DBS filed an appeal in January 2023. The ultimate outcome of the appeal and amount of the lawsuit cannot presently be determined. However, the Company and Formosa Dong Nai have engaged lawyers to submit a strong defense to protect the Company's rights and interests.

- C. O-Bank filed a civil lawsuit against the Company and Formosa Taffeta Dong Nai (hereinafter referred to as the Formosa Dong Nai), a subsidiary of the Company with the Taipei District Court in February 2020. The former employees of the Company and Formosa Dong Nai colluded with I Chin Young Inc. (hereinafter referred to as I Chin Young) to make false statements. O-Bank was misled with the fact that I Chin Young has accounts receivable due from the Company and Formosa Dong Nai, causing damage to O-Bank. Therefore, O-Bank claimed that the Company and Formosa Dong Nai should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated February 10, 2023, the Taipei District Court has rejected the claims filed by O-Bank. O-Bank has filed an appeal in accordance with related laws. The ultimate outcome of the appeal and amount of the lawsuit cannot presently be determined. However, the Company and Formosa Dong Nai have engaged lawyers to submit a strong defense to protect the Company's rights and interests.
- D. Yuanta Commercial Bank (hereinafter referred to as YCB) filed a merger of action in criminal and civil prosecution against the Company with the Taipei District Court in October 2020. The former employees of the Company colluded with Loomtech Industries Inc. (hereinafter referred to as Loomtech) to make false statements. YCB was misled with the fact that Loomtech has accounts receivable due from the Company, causing damage to YCB. Therefore, YCB claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated May 17, 2023, the Taipei District Court has rejected the claims filed by YCB. The result of above judgment was determined on August 24, 2023.
- E. Taiwan Business Bank (hereinafter referred to as TBB) filed a merger of action in criminal prosecution against the Company and its subsidiary - Formosa Taffeta Dong Nai. The former employees of the Company colluded with New Site, New Brite and I Chin Young to make false statement. TBB was misled with the fact that New Site, New Brite, I Chin Young have accounts receivable due from the Company and Formosa Taffeta Dong Nai, causing damage to TBB. Therefore, TBB claimed that the Company and Formosa Taffeta Dong Nai should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employees. As the case is still under trial proceedings, the ultimate outcome and amount of the lawsuit cannot presently be determined. However, the Company has

engaged a lawyer to submit a strong defense to protect the Company's rights and interests.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENT AFTER THE BALANCE SHEET DATE

A. Refer to Note 6(15) F. for the distribution of 2023 earnings which was proposed by the Board of Directors on March 8, 2024.

B. The Company will allocate cash dividends from additional paid-in capital amounting to \$404,320 (\$0.24 (in dollars) per share) as proposed by the Board of Directors on March 8, 2024.

12. OTHERS

(1) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings and short-term bills payable' as shown in the consolidated balance sheet) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the consolidated balance sheet plus net debt.

At December 31, 2023, the Company's strategy was unchanged from December 31, 2022. The gearing ratios at December 31, 2023 and 2022 were as follows:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Total borrowings	\$ 10,400,000	\$ 10,913,262
Less: Cash and cash equivalents	(3,151,948)	(4,135,598)
Net debt	7,248,052	6,777,664
Total equity	54,351,972	55,767,215
Total capital	<u>\$ 61,600,024</u>	<u>\$ 62,544,879</u>
Gearing ratio	<u>12%</u>	<u>11%</u>

(2) Financial instruments

A. Financial instruments by category

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
<u>Financial assets</u>		
Financial assets at fair value through other comprehensive income	\$ 33,863,521	\$ 33,360,697
Financial assets at amortized cost	<u>4,656,577</u>	<u>6,256,969</u>
	<u>\$ 38,520,098</u>	<u>\$ 39,617,666</u>
<u>Financial liabilities</u>		
Financial liabilities at fair value through profit or loss	\$ 479	\$ 2,826
Financial liabilities at amortized cost	<u>12,623,610</u>	<u>13,687,083</u>
	<u>\$ 12,624,089</u>	<u>\$ 13,689,909</u>

Note: Financial assets at amortized cost includes cash and cash equivalents, notes and accounts receivable (including related parties) and other receivables; financial liabilities at amortized cost includes short-term borrowings, short-term notes and bills payable, notes and accounts payable (including related parties), other payables and long-term borrowings.

B. Financial risk management policies

- (a) The Company's activities expose it to a variety of financial risk: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The financial risk management policies of the Company focus on unpredictable factors in financial market, and aim to reduce unfavorable impact on financial position and financial performance.
- (b) Risk management is carried out by a central treasury department under policies approved by the Board of Directors. Company treasury identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. Some of the Company's transactions are conducted in foreign currencies, which are subject to exchange rate fluctuation. The information on foreign currency denominated assets and liabilities is as follows:

December 31, 2023			
Foreign Currency			
Amount			Book Value
(In Thousands)		Exchange Rate	(NTD)
Financial assets			
Monetary items			
USD:NTD	\$ 90,757	30.74	\$ 2,789,870
JYP:NTD	601,985	0.22	132,437
Non-monetary items			
VND:NTD	4,992,790,221	0.0013	6,490,627
HKD:NTD	311,036	3.39	1,222,371
RMB:NTD	776,701	4.34	3,370,882
CHF:NTD	28,433	36.37	1,034,108
December 31, 2022			
Foreign Currency			
Amount			Book Value
(In Thousands)		Exchange Rate	(NTD)
Financial assets			
Monetary items			
USD:NTD	\$ 139,891	30.71	\$ 4,296,053
EUR:NTD	4,074	32.75	133,424
Non-monetary items			
VND:NTD	5,155,893,393	0.0013	6,702,661
HKD:NTD	308,472	3.93	1,212,295
RMB:NTD	736,584	4.47	3,292,530
CHF:NTD	32,996	33.22	1,096,127

- ii. The total exchange gain and loss, including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2023 and 2022, amounted to \$29,865 and \$385,159, respectively.

iii. Analysis of foreign currency market risk arising from significant foreign exchange variation:

Year ended December 31, 2023			
Sensitivity analysis			
	Degree of variation	Effect on profit or loss	Effect on other comprehensive income
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	1%	\$ 27,899	\$ -
EUR:NTD	1%	1,324	-
<u>Non-monetary items</u>			
VND:NTD	1%	-	64,906
HKD:NTD	1%	-	12,229
RMB:NTD	1%	-	33,709
CHF:NTD	1%	-	10,341

Year ended December 31, 2022			
Sensitivity analysis			
	Degree of variation	Effect on profit or loss	Effect on other comprehensive income
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	1%	\$ 42,961	\$ -
EUR:NTD	1%	1,334	-
<u>Non-monetary items</u>			
VND:NTD	1%	-	67,027
HKD:NTD	1%	-	12,123
RMB:NTD	1%	-	32,925
CHF:NTD	1%	-	10,961

Price risk

- i. The Company's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

- ii. The Company's investments in equity securities comprise shares, open-end funds and beneficiary certificates issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the years ended December 31, 2023 and 2022 would have increased/decreased by \$5 and \$23, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$338,635 and \$333,607, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During the years ended December 31, 2023 and 2022, the Company's borrowings at variable rate were denominated in the NTD.
- ii. The Company's borrowings are measured at amortized cost. The borrowings are periodically contractually repriced and to that extent are also exposed to the risk of future changes in market interest rates.
- iii. If the borrowing interest rate of NTD dollars had increased/decreased by 1% with all other variables held constant, profit, net of tax for the years ended December 31, 2023 and 2022 would have decreased/increased by \$83,200 and \$76,800, respectively. The main factor is that changes in interest expense result from floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. The Company manages its credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with good rating are accepted. According to the Company's credit policy, the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.

- iii. The Company adopts the following assumption under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- iv. The Company adopts the assumption under IFRS 9, that is, the default occurs when the contract payments are past due over 90 days.
- v. The Company classifies customer's accounts receivable and contract assets in accordance with product types and customer types. The Company applies the simplified approach using the provision matrix to estimate expected credit loss.
- vi. The Company wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Company will continue executing the recourse procedures to secure their rights.
- vii. The Company uses the forecastability of National Development Council Business Cycle Indicator to adjust historical and timely information to assess the default possibility of notes receivable and accounts receivable and contract assets. On December 31, 2023 and 2022, the provision matrix are as follows:

	<u>Not past due</u>	<u>Up to 30 days past due</u>	<u>31 to 90 days past due</u>	<u>Over 90 days past due</u>	<u>Total</u>
<u>At December 31, 2023</u>					
Expected loss rate	0%~0.03%	0.03%~71%	100%	100%	
Total book value	\$ 1,216,155	\$ 6,288	\$ 4,201	\$ 9,588	\$ 1,236,232
Loss allowance	3,842	3,296	4,201	9,588	20,927
	<u>Not past due</u>	<u>Up to 30 days past due</u>	<u>31 to 90 days past due</u>	<u>Over 90 days past due</u>	<u>Total</u>
<u>At December 31, 2022</u>					
Expected loss rate	0%~0.03%	0.03%~9%	100%	100%	
Total book value	\$ 1,692,882	\$ 37,151	\$ 18,376	\$ 3,547	\$ 1,751,956
Loss allowance	6,405	3,350	18,376	3,547	31,678

- viii. Movements in relation to the Company applying the simplified approach to provide loss allowance for notes receivable and accounts receivable are as follows:

	Year ended December 31, 2023	
	Notes receivable	Accounts receivable
At January 1	\$ -	(\$ 31,678)
Reversal of impairment loss	-	10,751
At December 31	\$ -	(\$ 20,927)
	Year ended December 31, 2022	
	Notes receivable	Accounts receivable
At January 1 (As at December 31)	\$ -	(\$ 31,678)

(c) Liquidity risk

- The Company's investments in equity financial instruments which have active markets are expected to be sold easily and quickly in the market at the price close to fair value. The Company's investments in equity financial instruments without active markets are exposed to liquidity risk.
- Due to well-managed operations, the Company has an excellent credit in financial institutions and the money market, and has adequate working capital to meet commitments associated with receivables and payables. Therefore, no liquidity risk is expected to arise.
- The table below analyses the Company's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities.

Non-derivative financial liabilities:

<u>December 31, 2023</u>	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>Over 5 years</u>
Lease liability	\$ 153,623	\$ 140,871	\$ 352,614	\$ 214,385
Long-term borrowings (including current portion)	197,767	10,597,767	-	-

Non-derivative financial liabilities:

<u>December 31, 2022</u>	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>Over 5 years</u>
Lease liability	\$ 140,194	\$ 122,062	\$ 298,605	\$ 276,880
Long-term borrowings (including current portion)	-	8,340,829	1,429,000	-

- iv. The Company does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Company's investment in listed stocks and beneficiary certificates with quoted market prices is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Company's investment in some unlisted stocks and most derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Company's investment in equity investment without active market is included in Level 3.

- B. Financial instruments not measured at fair value

The carrying amounts of cash and cash equivalents, notes receivable (including related parties), accounts receivable (including related parties), other receivables, short-term borrowings, short-term bills payable, notes payable (including related parties), accounts payable (including related parties), other payables and long-term borrowings (including current portion) are approximate to their fair values.

C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

(a) The related information on the nature of the assets and liabilities is as follows:

<u>December 31, 2023</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
<u>Recurring fair value</u> <u>measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	<u>\$ 30,868,835</u>	<u>\$ 322,900</u>	<u>\$ 2,671,786</u>	<u>\$ 33,863,521</u>
Liabilities:				
<u>Recurring fair value</u> <u>measurements</u>				
Financial liabilities at fair value through profit or loss				
Forward exchange contracts	<u>\$ -</u>	<u>\$ 479</u>	<u>\$ -</u>	<u>\$ 479</u>
 <u>December 31, 2022</u>	 <u>Level 1</u>	 <u>Level 2</u>	 <u>Level 3</u>	 <u>Total</u>
Assets:				
<u>Recurring fair value</u> <u>measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	<u>\$ 30,618,039</u>	<u>\$ 333,000</u>	<u>\$ 2,409,658</u>	<u>\$ 33,360,697</u>
Liabilities:				
<u>Recurring fair value</u> <u>measurements</u>				
Financial liabilities at fair value through profit or loss				
Forward exchange contracts	<u>\$ -</u>	<u>\$ 2,826</u>	<u>\$ -</u>	<u>\$ 2,826</u>

(b) The methods and assumptions the Company used to measure fair value are as follows:

- i. The instruments the Company used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	<u>Listed shares</u>
Market quoted price	Closing price

- ii. Except for financial instruments with active markets, the fair value of other financial

instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques such as current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including applying a model using market information available at the balance sheet date.

iii. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.

iv. The Company takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Company's credit quality.

D. For the years ended December 31, 2023 and 2022, there was no transfer between Level 1 and Level 2.

E. The following chart is the movement of Level 3 for the years ended December 31, 2023 and 2022:

	<u>Year ended December 31, 2023</u>
	<u>Non-derivative equity instruments</u>
At January 1	\$ 2,409,658
Gains and losses recognized in other comprehensive income	
Recorded as unrealized gains on valuation of investments in equity instruments measured at fair value through other comprehensive income	262,128
At December 31	<u>\$ 2,671,786</u>
	<u>Year ended December 31, 2022</u>
	<u>Non-derivative equity instruments</u>
At January 1	\$ 4,880,688
Acquired during the year	-
Gains and losses recognized in other comprehensive income	
Recorded as unrealized gains on valuation of investments in equity instruments measured at fair value through other comprehensive income	(2,470,528)
Sold during the year	(502)
At December 31	<u>\$ 2,409,658</u>

F. For the years ended December 31, 2023 and 2022, there were no transfer into or out from Level 3.

G. The accounting segment is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent

information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

The accounting department sets up valuation policies, valuation processes and rules for measuring fair value of financial instruments and ensure compliance with the related requirements in IFRS. The related valuation results are reported to the supervisor of accounting department monthly. The supervisor is responsible for managing and reviewing valuation processes.

- H. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

		Fair value at December 31, 2023	Valuation technique	Significant unobservable input	Relationship of inputs to fair value
Non- derivative equity instrument:					
Unlisted shares	\$	97,093	Market comparable companies	Price to earnings ratio multiple, price to book ratio multiple, enterprise value to EBITA multiple, discount for lack of marketability	The higher the multiple, the higher the fair value; the higher the discount for lack of marketability, the lower the fair value
		2,574,693	Net asset value	Not applicable	Not applicable

		Fair value at December 31, 2022	Valuation technique	Significant unobservable input	Relationship of inputs to fair value
Non- derivative equity instrument:					
Unlisted shares	\$	90,521	Market comparable companies	Price to earnings ratio multiple, price to book ratio multiple, enterprise value to EBITA multiple, discount for lack of marketability	The higher the multiple, the higher the fair value; the higher the discount for lack of marketability, the lower the fair value
		2,319,137	Net asset value	Not applicable	Not applicable

I. The Company has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect on other comprehensive income from financial assets and liabilities categorized within Level 3 if the inputs used to valuation models have changed:

		December 31, 2023		
		Recognized in other comprehensive income		
		Favourable change	Unfavourable change	
	Input	Change		
Financial assets				
Equity instrument	Price to earnings ratio multiple, price to book ratio multiple, enterprise value to EBITA multiple, discount for lack of marketability	±1%		
			\$ 971	\$ 971

		December 31, 2022		
		Recognized in other comprehensive income		
		Favourable	Unfavourable	
	Input	Change	change	change
Financial assets				
Equity instrument	Price to earnings ratio multiple, price to book ratio multiple, enterprise value to EBITA multiple, discount for lack of marketability	±1%	\$ 905	\$ 905

13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

In accordance with “Rules Governing the Preparation of Financial Statements by Securities Issuers”, significant transactions for the year ended December 31, 2023 are stated as follows. Furthermore, the inter-company transactions were eliminated when preparing financial statements of investees which were audited by other independent auditors. The following disclosures are for reference only.

A. Loans to others: None.

B. Provision of endorsements and guarantees to others: Refer to table 1.

C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Refer to table 2.

D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company’s paid-in capital: None.

E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.

F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.

G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: Refer to table 3.

H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: None.

I. Trading in derivative instruments undertaken during the reporting periods: Refer to Notes 6(2), (11) and 12(2).

J. Significant inter-company transactions during the reporting periods: Refer to table 4.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Refer to table 5.

(3) Information on investments in Mainland China

A. Basic information: Refer to table 6.

B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Refer to table 7.

(4) Major shareholders information

Major shareholders information: Refer to table 8.

14. SEGMENT INFORMATION

None.

FORMOSA TAFFETA CO., LTD.
Provision of endorsements and guarantees to others
For the year ended December 31, 2023

Table 1

Expressed in thousands of NTD
(Except as otherwise indicated)

Number (Note 1)	Endorser/ guarantor	Party being endorsed/guaranteed		Limit on endorsements/ guarantees provided for a single party (Note 3,8)	Maximum outstanding endorsement/ guarantee amount as of December 31, 2023 (Note 4)	Outstanding endorsement/ guarantee amount at December 31, 2023 (Note 5)	Actual amount drawn down (Note 6)	Amount of endorsements/ guarantees secured with collateral	Ratio of accumulated endorsement/ guarantee amount to net asset value of the endorser/ guarantor company	Ceiling on total amount of endorsements/ guarantees provided (Note 3,8)	Provision of endorsements/ guarantees by parent company to subsidiary (Note 7)	Provision of endorsements/ guarantees by subsidiary to parent company (Note 7)	Provision of endorsements/g uarantees to the party in Mainland China (Note 7)	Footnote
		Company name	Relationship with the endorser/ guarantor (Note 2)											
0	FORMOSA TAFFETA CO., LTD.	FORMOSA TAFFETA (ZHONG SHAN) CO., LTD.	2	\$ 35,328,782	\$ 1,070,025	\$ 1,013,265	\$ -	\$ -	1.86	\$ 70,657,564	Y	N	Y	
0	FORMOSA TAFFETA CO., LTD.	FORMOSA TAFFETA VIETNAM CO., LTD.	2	35,328,782	1,615,440	1,320,315	99,540	-	2.43	70,657,564	Y	N	N	
0	FORMOSA TAFFETA CO., LTD.	FORMOSA TAFFETA (CHANGSHU) CO., LTD.	2	35,328,782	1,783,375	1,688,775	97,237	-	3.11	70,657,564	Y	N	Y	
0	FORMOSA TAFFETA CO., LTD.	FORMOSA TAFFETA DONG NAI CO., LTD.	2	35,328,782	4,296,313	4,068,413	1,957,634	-	7.49	70,657,564	Y	N	N	

Note 1: The numbers filled in for the endorsements/guarantees provided by the Company or subsidiaries are as follows:

- (1) The Company is '0'.
- (2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between the endorser/guarantor and the party being endorsed/guaranteed is classified into the following seven categories.

- (1) Having business relationship.
- (2) The endorser/guarantor parent company owns directly and indirectly more than 50% voting shares of the endorsed/guaranteed subsidiary.
- (3) The endorsed/guaranteed company owns directly and indirectly more than 50% voting shares of the endorser/guarantor parent company.
- (4) The endorser/guarantor parent company owns directly and indirectly more than 90% voting shares of the endorsed/guaranteed company.
- (5) Mutual guarantee of the trade made by the endorsed/guaranteed company or joint contractor as required under the construction contract.
- (6) Due to joint venture, all shareholders provide endorsements/guarantees to the endorsed/guaranteed company in proportion to its ownership.
- (7) Joint guarantee of the performance guarantee for pre-sold home sales contract as required under the Consumer Protection Act.

Note 3: Fill in limit on endorsements/guarantees provided for a single party and ceiling on total amount of endorsements/guarantees provided as prescribed in the endorser/guarantor company's "Procedures for Provision of Endorsements and Guarantees", and state each individual party to which the endorsements/guarantees have been provided and the calculation for ceiling on total amount of endorsements/guarantees provided in the footnote.

Note 4: Fill in the year-to-date maximum outstanding balance of endorsements/guarantees provided as of the reporting period.

Note 5: Fill in the amount approved by the Board of Directors or the chairman if the chairman has been authorised by the Board of Directors based on subparagraph 8, Article 12 of the Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies.

Note 6: Fill in the actual amount of endorsements/guarantees used by the endorsed/guaranteed company.

Note 7: Fill in 'Y' for those cases of provision of endorsements/guarantees by listed parent company to subsidiary and provision by subsidiary to listed parent company, and provision to the party in Mainland China.

Note 8: In accordance with the Company's procedures of endorsements and guarantees, limit on the Company's total guarantee amount is 1.3 times of the Company's net assets, and limit on endorsement/guarantee to a single party is 50% of the aforementioned total amount.

Note 1: If terms of related party transactions are different from third party transactions, explain the differences and reasons in the ‘Unit price’ and ‘Credit term’ columns.

Note 2: In case related-party transaction terms involve advance receipts (prepayments) transactions, explain in the footnote the reasons, contractual provisions, related amounts, and differences in types of transactions compared to third-party transactions.

Note 3: Paid-in capital referred to herein is the paid-in capital of parent company. In the case that shares were issued with no par value or a par value other than NT\$10 per share, the 20 % of paid-in capital shall be replaced by 10% of equity attributable to owners of the parent in the calculation.

Note 4:The transactions are disclosed by presenting revenues. The related transactions are not disclosed.

FORMOSA TAFFETA CO., LTD.
Significant inter-company transactions during the reporting period
For the year ended December 31, 2023

Table 4

Expressed in thousands of NTD
(Except as otherwise indicated)

Number (Note 1)	Company name	Counterparty	Relationship (Note 2)	Transaction		Transaction terms	Percentage of consolidated total operating revenues or total assets (Note 3)
				General ledger account	Amount		
0	FORMOSA TAFFETA CO., LTD.	FORMOSA CHEMICALS & FIBRE CORPORATION	1	Purchases	\$ 857,753	Draw promissory notes due in 2 months after inspection	3.01
0	FORMOSA TAFFETA CO., LTD.	FORMOSA CHEMICALS & FIBRE CORPORATION	1	Notes payable	122,578	Draw promissory notes due in 2 months after inspection	0.17
0	FORMOSA TAFFETA CO., LTD.	FORMOSA CHEMICALS & FIBRE CORPORATION	1	Accounts payable	234,985	Draw promissory notes due in 2 months after inspection	0.33

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

(1) Parent company is '0'.

(2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories:

(1) Parent company to subsidiary.

(2) Subsidiary to parent company.

(3) Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

Note 4: The amount of transactions which is listed in the table is determined by its material.
